Tennant,2014-12-04 Originally published in 1932 this book presents the Tanner Lectures for 1931 2 delivered by British philosopher and theologian F R Tennant at Cambridge University      Relations Between Sciences C. F. A. Pantin,2010-06-03 Professor Pantin examines the relations between the sciences and will appeal to both professional scientists and to philosophers of science      The Concept of Nature Alfred North Whitehead,2013-01-23 The brilliant mathematician explores the problems of substance space and time criticizes Einstein s method of interpreting results and offers an alternative theory of the four dimensional space time manifold 1920 edition      *The Knowledge of Good* Robert S. Hartman,Arthur R. Ellis,Rem B. Edwards,2021-07-26 This book presents Robert S Hartman s formal theory of value and critically examines many other twentieth century value theorists in its light including A J Ayer Kurt Baier Brand Blanshard Paul Edwards Albert Einstein William K Frankena R M Hare Nicolai Hartmann Martin Heidegger G E Moore P H Nowell Smith Jose Ortega y Gasset Charles Stevenson Paul W Taylor Stephen E Toulmin and J O Urmson Open Access funding for this volume has been provided by the Robert S Hartman Institute      **Unity of Knowledge (in Transdisciplinary Research for Sustainability) - Volume II** Gertrude Hirsch Hardon,2008-12-31 Unity of Knowledge in Transdisciplinary Research for Sustainable Development theme is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty Encyclopedias Today there is a social need for a comprehensive unity of knowledge that would provide orientation and ensure action in the context of the complex problems of modern civilization Based on an intellectual need for unity of knowledge different concepts of unity of knowledge have emerged in the course of the history of ideas The intellectual need for unity can be directed at the world science action or the individual It can involve the quest for the unity of the world based on a principle that is immanent in it the unity of science as a theoretical methodical or epistemological unity the unity of action as a correlation of scientific pragmatic and moral knowledge or finally unity as the educational task of the individual The concepts associated with unity of knowledge can go in two directions The first assumes that there is a unity existing in the world that can be perceived by man It is thought of as an order of being i e an ontological unity of the plurality of phenomena that consist in their common nature The other direction is based on the assumption that unity is a construction of a subject based on its cognitive principles and structures Thus it is not something that can be discovered as an existing objective order and is instead subjective These two volumes present some aspects of Unity of Knowledge in Transdisciplinary Research for Sustainable Development in three parts The purpose of the first part is to trace back the core ideas in transdisciplinary thinking in the history of western philosophy and science to locate socially the concerns of transdisciplinary research and to give an account of the development of transdisciplinary

research The second group of chapters deals with methodological and management problems related to transdisciplinary research with regard to problem identification and structuring of research questions with knowledge integration in problem investigation as well as with evaluation An outline of the institutional measures and transformations to enable and support transdisciplinary research is given in the third part Institutional strategies build on organizational arrangements and links across academic institutions in education and research on networks between science and society for joint knowledge production in temporally limited settings of research programs or projects but they also set up new institutions such as centers for advanced studies national offices agencies and networks These two volumes are aimed at a wide spectrum of audiences University and College Students Educators Research Personnel and all those concerned with sustainable development     Accounting Methodology and the Work of R. J. Chambers (RLE Accounting) Michael J. R.

Gaffikin,2014-02-05 This study traces the development of methodology in philosophy and economics with particular focus on the work of Raymond Chambers As well as analysing the reception on methodological lines afforded his work by both academic and professional communities the volume discusses some significant contributions by French and German scholars to the debate about why scientific communities have accepted some theories and rejected others     *Proceedings of the Aristotelian Society* Aristotelian Society (Great Britain),1894 List of members in each volume     theories of the Evolution of Knowing Gary Greenberg,Ethel Tobach,2013-06-17 This volume presents current thought and criticism on evolutionary epistemology the evolution of knowledge and knowing As the theme of the fourth T C Schneirla Conference held at Wichita State University evolutionary epistemology was examined from several diverse areas of study including comparative developmental physiological and cultural psychology as well as philosophy Theories of the Evolution of Knowing addresses alternatives to the genetic determinism inherent in Donald Campbell s concept of genetic epistemology The concept of integrative levels is shown to offer a parsimonious non reductionist approach to the development of knowing as a human capacity     Aristotelian Naturalism Martin Hähnel,2020-04-06 This book features many of the leading voices championing the revival of Neo Aristotelian Ethical Naturalism AN in contemporary philosophy It addresses the whole range of issues facing this research program at present Coverage in the collection identifies differentiations details standpoints and points out new perspectives This volume answers a need AN is quite new to contemporary philosophy despite its deep roots in the history of philosophy As yet there are many unanswered questions regarding its relation to contemporary views in metaethics It is certainly not equivalent to dominant naturalistic approaches to metaethics in Anglophone philosophy Indeed it is not obviously incompatible with some approaches identified as nonnaturalistic Further there are controversies regarding the views of the first wave of virtue revivalists The work of G E M Anscombe and Philippa Foot is frequently misunderstood despite the fact that they are important figures in the contemporary revival This volume details a robust approach to ethics by situating it within the context of human life It will help readers to better understand how AN raises deep questions about

the relation of action and its evaluation to human nature Neo Aristotelians argue that something like the traditional cardinal virtues practical wisdom temperance justice and courage are qualities that perfect human reason and desire

**Encyclopaedia Britannica** ,1929      *Society and Knowledge* Volker Meja,2017-07-05 The sociology of knowledge is generally seen as part of the sociology of cultural products Along with the sociology of science it explores the social character of science and in particular the social production of scientific knowledge Knowledge in all its varieties is of crucial importance in social political and economic relations in modern society Yet new realities the editors argue in their introduction to this second edition require a new perspective In the past half century the social role of knowledge has changed profoundly The natural attitude toward scientific knowledge in science that assigned a special status to science s knowledge claims has lost its dominance and the view that all knowledge is socially constructed has gained general acceptance Science increasingly influences the political agenda in modern societies Consequently a new political field has emerged knowledge politics These fourteen essays by social scientists philosophers and historians cover fundamental issues theoretical perspectives knowledge and power and empirical studies Eight of the fourteen contributions were part of the first edition of *Society and Knowledge* published in 1984 and most of these have been updated and revised for this new edition Included in this edition are six new contributions by Robert K Merton Steve Fuller Dick Pels Nico Stehr Barry Schwartz and Michael Lynch This second revised edition builds on its predecessor in presenting cutting edge theoretical and empirical efforts to transform the sociology of knowledge Professionals policymakers and graduate students in the fields of sociology political science and social science will find this volume of interest and importance      [Research Handbook on the Sociology of Knowledge](#) Fran Collyer,2025-07-15 This timely Handbook celebrates and contributes to the recent revitalisation of the sociology of knowledge A diverse group of leading experts from the global North and South provide a state of the art overview of a field which is developing rapidly with the growth of poststructuralist postcolonial and feminist approaches

**Bulletin of the Atomic Scientists** ,1957-04 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world      **The Study of Science and Religion** Carl Reinhold Brakenhielm,2018-06-06 The main aim of this book is to contribute to the relationship between science and religion This book aims to do constructive theological work out of a particular cultural context The point of departure is contemporary Swedish religion and worldviews One focus is the process of biologization i e how the worldviews of the general public in Sweden are shaped by biological science Is there a gap between Swedes in general and the perceptions of Swedish clergy The answer is based on sociological studies on science and religion in Sweden and the United States Furthermore the book contains a study of Swedish theologians from Nathan Soderblom to the present Archbishop Antje Jackelen and their shifting understanding of the relation between science and religion The philosophical aspects of this relation are given special

consideration What models of the relation inform the contemporary scholarly discussion Are science and religion in conflict separate or in mutual creative interaction      Theory and Practice in the Interdisciplinary Production and Reproduction of Scientific Knowledge Olga Pombo,Klaus Gärtner,Jorge Jesuino,2023-01-10 This book addresses the urgent need for a large and systematic analysis of current interdisciplinary ID research and practice It demonstrates how ID is essentially a cognitive phenomenon something different from the frivolous and inconsequential attempt of trying to overcome the disciplinary competencies and exigencies By ID the authors show that it is a manifestation of the transversal rationality that underlies current scientific activity It is the very progress of specialized disciplines that requires interdisciplinary new research practices and new forms of articulation between domains something that has a strong impact on the traditional disciplinary structure of scientific and educational institutions Divided into two parts the book presents a conceptual framework as well as several case studies on ID practices The book aims at covering three main themes It contributes to the stabilization of ID meaning and characterizes the main ID theorizations which have been proposed until now It builds an innovative and broad understanding of the several ID determinations as an essentially cognitive phenomenon and of its institutional implications at the level of disciplinary structures and curricular organization Finally it distinguishes and maps the diversity of ID procedures and practices which are being used and tested by contemporary scientific and educational institutions This book is addressed to philosophers scientists and every one interested in science production and reproduction including science teaching      **New Scientist** ,1969      Theories of Informetrics and Scholarly Communication Cassidy R. Sugimoto,2016-02-22 Scientometrics have become an essential element in the practice and evaluation of science and research including both the evaluation of individuals and national assessment exercises Yet researchers and practitioners in this field have lacked clear theories to guide their work As early as 1981 then doctoral student Blaise Cronin published The need for a theory of citing a call to arms for the fledgling scientometric community to produce foundational theories upon which the work of the field could be based More than three decades later the time has come to reach out the field again and ask how they have responded to this call This book compiles the foundational theories that guide informetrics and scholarly communication research It is a much needed compilation by leading scholars in the field that gathers together the theories that guide our understanding of authorship citing and impact      **The New American Cyclopaedia: a Popular Dictionary of General Knowledge** George Ripley,Charles Anderson Dana,1864
