historical beings are immersed Any universal claims about history need to be framed within the specific productive systems analyzed by the various human sciences Dilthey's drafts for the Continuation of the Formation contain extensive discussions of the categories most important for our knowledge of historical life meaning value purpose time and development He also examines the contributions of autobiography to historical understanding and of biography to scientific history The finest summary of Dilthey's views on hermeneutics can be found in The Understanding of Other Persons and Their Manifestations of Life Here Dilthey differentiates understanding relative to three kinds of manifestations of life After giving his analysis of elementary understanding he examines the role of induction in higher understanding and interpretation and the relevance of transposition and re-experiencing for grasping individuality

The Philosophy of Wilhelm Dilthey H.A. Hodges,1998 *Wilhelm Dilthey* I.N. Bulhof,2012-12-06

Philosophy originates in man's amazement over the richness and complexity of reality It attempts to articulate in words and concepts what reality is Starting from the recognition that this reality is experienced by all humans but experienced in many different ways the philosopher tries to find reality's heart its center its hidden treasure the tree in the middle connecting heaven and earth the central point from which the stupendous intricacy of experience begins to make sense and from which order can become visible To ask what is reality is indeed to recognize that we have entered a maze The hermeneutic philosophy of Wilhelm Dilthey 1833-1911 is the fruit of his own wanderings in this maze Like many intellectuals of his age he had lost faith in the Christian religion in which he was raised In his college years he turned from theology to philosophy in particular the history of philosophy and of human thought in general wondering about the origin and value of the astounding variety of past belief systems At the center of reality's maze he found the insight that reality as faced by man is comparable to a literary text it means something to us Reality is not a mute object but an autonomous source of meaning an act of self disclosure knowledge of reality is therefore not the product of actions performed by an active subject upon a passive object but a communicative interaction between two Subjects *Historical Understanding in the Thought of Wilhelm Dilthey*
