Top Ten Death Penalty Myths Rudolph J. Gerber, John M. Johnson, 2007-11-30 The death penalty remains one of the most controversial issues in the United States Its proponents claim many things in their defense of its continued application For example they claim that it deters crime that death by lethal injection is painless and humane that it is racially neutral and that it provides closure to families of the victims In this comprehensive review of the major death penalty issues the authors systematically dismantle each one of these myths about capital punishment in a hard hitting critique of how our social political and community leaders have used fear and myth symbolic politics to misrepresent the death penalty as a public policy issue They successfully demonstrate how our political and community leaders have used myth and emotional appeals to misrepresent the facts about capital executions Successive chapters address the following topics the notion of community bonding the expectation of effective crime fighting the desire for equal justice deterrence the hope for fidelity to the Constitution the claim of error free justice closure retribution cost effectiveness and the messianic desires of some politicians In each of these areas the authors quote from death penalty advocates making these claims and then proceed to analyze and ultimately dismember the claimed advantages of the death penalty

Recording for the Blind & Dyslexic, ... Catalog of Books ,1996 **Models of the History of Philosophy** Giovanni Santinello, Gregorio Piaia, 2010-12-01 This volume is the translation of Dall et cartesiana a Brucker the second volume of the multi volume work Storia delle storie generali della filosofia It guides the reader from the Cartesian rejection of the philosophical past that found voice in the work of Malebranche to the establishment of a critical history of philosophy by 18th century thinkers A F Boureau Deslandes and J J Brucker The latter pair investigated philosophy from its most ancient origins up to the contemporary age and oversaw the transformation of the history of philosophy into a genre in its own right thus spawning dozens of works that made a major contribution to the culture of the Enlightenment Through careful analysis of more than 36 separate works the authors show how in the span of a single century the theoretical and methodological techniques used to assess the history of philosophy were refined and developed **Catalog of Copyright Entries. Alternative Conceptions of the Spiritual Travis Dumsday, 2024-08-22 Analytic philosophy of religion and philosophical theology are known for being focused on issues pertaining specifically to Judeo Christian theism This volume answers the call for novel work on a broader range of ideas about the spiritual engaging with key concepts and neglected recent literature from other traditions *Alternative Conceptions of the Spiritual* engages with polytheism animism panspiritism and theophanism as propounded by recent philosophers and members of lesser known spiritual traditions and new religious movements Summarizing and assessing their core ideas and arguments with both clarity and sympathy Dumsday combines respectful dialogue with logical rigour Providing an accessible introduction to a rich and nuanced set of traditions largely overlooked in contemporary philosophical scholarship the work will be welcomed by philosophers theologians and students of new religious movements *Time and History in Hegelian Thought and Spirit* Sally Sedgwick, 2023 Sally Sedgwick examines

a conspicuous feature of Hegel's major works that they are progressive narratives. She shows the extent to which we can understand Hegel as holding that human reason and the freedom it affords us are determined by the temporal order of nature and history. Global Perspectives on Global History Dominic Sachsenmaier, 2011-08-04 In recent years historians across the world have become increasingly interested in transnational and global approaches to the past. However, the debates surrounding this new border crossing movement have remained limited in scope as theoretical exchanges on the tasks, responsibilities and potentials of global history have been largely confined to national or regional academic communities. In this groundbreaking book, Dominic Sachsenmaier sets out to redress this imbalance by offering a series of new perspectives on the global and local flows, sociologies of knowledge and hierarchies that are an intrinsic part of historical practice. Taking the United States, Germany and China as his main case studies, he reflects upon the character of different approaches to global history as well as their social, political and cultural contexts. He argues that this new global trend in historiography needs to be supported by a corresponding increase in transnational dialogue, cooperation and exchange.

The Cambridge Companion to Nineteenth-Century Thought Gregory Claeys, 2019-08-22 Leading historians introduce the most influential trends in thought which originated or developed in the nineteenth century. Data Journeys in the Sciences Sabina Leonelli, Niccolò Tempini, 2020-06-29 This groundbreaking open access volume analyses and compares data practices across several fields through the analysis of specific cases of data journeys. It brings together leading scholars in the philosophy of history and social studies of science to achieve two goals: tracking the travel of data across different spaces, times and domains of research practice and documenting how such journeys affect the use of data as evidence and the knowledge being produced. The volume captures the opportunities, challenges and concerns involved in making data move from the sites in which they are originally produced to sites where they can be integrated with other data, analysed and re-used for a variety of purposes. The in-depth study of data journeys provides the necessary ground to examine disciplinary, geographical and historical differences and similarities in data management, processing and interpretation, thus identifying the key conditions of possibility for the widespread data sharing associated with Big and Open Data. The chapters are ordered in sections that broadly correspond to different stages of the journeys of data from their generation to the legitimisation of their use for specific purposes. Additionally, the preface to the volume provides a variety of alternative roadmaps aimed to serve the different interests and entry points of readers, and the introduction provides a substantive overview of what data journeys can teach about the methods and epistemology of research. *Great White Fathers* John Taliaferro, 2007-10-09 Gutzon Borglum, the sculptor of Mount Rushmore National Memorial, hoped that ten thousand years from now, when archaeologists came upon the four sixty-foot presidential heads carved in the Black Hills of South Dakota, they would have a clear and graphic understanding of American civilization. Borglum, the child of Mormon polygamists, had an almost Ahab-like obsession with Colossalism, a scale that matched his ego and the era. He learned how to be a celebrity from Auguste Rodin.

how to be a political bully from Teddy Roosevelt He ran with the Ku Klux Klan and mingled with the rich and famous from Wall Street to Washington Mount Rushmore was to be his crowning achievement the newest wonder of the world the greatest piece of public art since Phidias carved the Parthenon But like so many episodes in the saga of the American West what began as a personal dream had to be bailed out by the federal government a compromise that nearly drove Borglum mad Nor in the end could he control how his masterpiece would be received Nor its devastating impact on the Lakota Sioux and the remote Black Hills of South Dakota Great White Fathers is at once the biography of a man and the biography of a place told through travelogue interviews and investigation of the unusual records that one odd American visionary left behind It proves that the best American stories are not simple they are complex and contradictory at times humorous at other times tragic *The English Catalogue of Books Published from January, 1835, to January, 1863*, 1864 *Tocqueville's Road Map* Roger Boesche, 2007-12-01 One of the country's foremost Tocqueville scholars Roger Boesche has gathered together his writings on Tocqueville from the last quarter century These essays focus on specific aspects of Tocqueville's political thought the methodology that Tocqueville brought to his historical and political writings allowing him to predict so well his assumptions about what constitutes a revolution his conviction that democracy and commerce at times work against each other why Tocqueville's thought defies our modern political classifications his fear of a qualitatively new kind of despotism and Tocqueville's predictions for the future compared to those of Nietzsche Arendt and others Tocqueville's Road Map is a long overdue addition to Tocqueville scholarship that will find an audience amongst scholars of political thought and history

Finding List of History, Travel, Political Science, Geography, Anthropology Buffalo Public Library (Buffalo, N.Y.), 1898 [Travel Writing and Cultural Transfer](#) Petra Broomans, Jeanette den Toonder, 2024-10-15 Travel Writing and Cultural Transfer addresses the multifaceted concept of cultural transfer through travel writing with the aim of expanding our knowledge of modes of travel in the past and present and how they developed as did the way in which travel was reported Travel as both factual and fictional with authors and narratives moving between different worlds is one of the many devices that demonstrate the fluidity of the genre This fluidity accounts for the manifold and powerful influence of travel writing on processes of cultural transfer This volume also illustrates that cultural transfer is frequently linked to issues of power colonialism and politics The various chapters investigate the transmission of other cultures ideas and ideologies to the writer's own cultural sphere and consider how the processes of cultural transfer interact with the forms and functions of travel writing *Richard Hakluyt and Travel Writing in Early Modern Europe* Claire Jowitt, 2016-03-23 Richard Hakluyt and Travel Writing in Early Modern Europe is an interdisciplinary collection of 24 essays which brings together leading international scholarship on Hakluyt and his work Best known as editor of The Principal Navigations 1589 expanded 1598 1600 Hakluyt was a key figure in promoting English colonial and commercial expansion in the early modern period He also translated major European travel texts championed English settlement in North America and promoted global trade and

exploration via a Northeast and Northwest Passage His work spanned every area of English activity and aspiration from Muscovy to America from Africa to the Near East and India to China and Japan providing up to date information and establishing an ideological framework for English rivalries with Spain Portugal France and the Netherlands This volume resituates Hakluyt in the political economic and intellectual context of his time The genre of the travel collection to which he contributed emerged from Continental humanist literary culture Hakluyt adapted this tradition for nationalistic purposes by locating a purported history of English enterprise that stretched as far back as he could go in recovering antiquarian records The essays in this collection advance the study of Hakluyt s literary and historical resources his international connections and his rhetorical and editorial practice The volume is divided into 5 sections Hakluyt s Contexts Early Modern Travel Writing Collections Editorial Practice Allegiances and Ideologies Politics Religion Nation and Hakluyt Rhetoric and Writing The volume concludes with an account of the formation and ethos of the Hakluyt Society founded in 1846 which has continued his project to edit travel accounts of trade exploration and adventure

Science and Aesthetic Judgement Sholom J. Kahn, 2016-05-05 First published in 1953 This title provides an exposition and discussion on Hippolyte Taine 1828 1893 the leader of the Naturalist movement in French criticism The book examines his theories and some of his practice as a critic of literature and art A more general consideration of the chief issues raised by his central problem is also given namely the attempt to approach the analysis and judgement of works of art historically and thus to provide an objective basis of criticism This title will be of interest to students of art history and philosophy
