Philosophy And Religion From Plato To Postmodernism:

Philosophy and Religion M.J. Charlesworth, 2013-10-01 This title presents a core text for undergraduates and those interested in the relationship between philosophy and religion Five chapters track the many different theories of philosophy and religion from medieval times through the Enlightenment to the latest postmodern theories Covering thinkers from Aristotle to Al Ghazali and Kant to Wittgenstein this work is intended for both students and general readers **Philosophy and Religion** Maxwell John Charlesworth, 2002 *Theology as Repetition* Stephen Foster, 2020-01-01 Theology as Repetition revisits and argues for a revival of John Macquarrie's philosophical theology Macquarrie was a key twentieth century theological voice and was considered a foremost interpreter and translator of Martin Heidegger's philosophy He then somehow fell from view Macquarrie developed a new style of theology grounded in a dialectical phenomenology that is a relevant voice in responding to recent trends in theology The development of the book is partly chronological and partly thematic and avoids attempting to be either deductive or inductive in argument but rather reflects Macquarrie's phenomenologically styled new theology Theology as Repetition is set out in two parts The first part situates Macquarrie in relation to thinkers from the radical theology of the 1960s through to the postmodernists of the late twentieth century The second part explores the intersection of key themes in Macquarrie's theology with the thinking of Kant Hegel Heidegger and representative postsecular and postmodern figures including but not limited to Emmanuel Levinas Jacques Derrida and Jean Luc Marion **Considering Religions, Rights and Bioethics: For Max Charlesworth** Peter Wong, Sherah Bloor, Patrick Hutchings, Purushottama Bilimoria, 2019-10-17 This volume engages in conversation with the thinking and work of Max Charlesworth as well as the many questions tasks and challenges in academic and public life that he posed It addresses philosophical religious and cultural issues ranging from bioethics to Australian Songlines and from consultation in a liberal society to intentionality The volume honours Max Charlesworth a renowned and celebrated Australian public intellectual who founded the journal Sophia and trained a number of the present heirs to both Sophia and academic disciplines as they were further developed and enhanced in Australia Indigenous Australian studies philosophy of religion the study of the tension between tradition and modernity phenomenology and existentialism hermeneutics feminist philosophy and philosophy of science that is responsive to environmental issues *Philosophies of Peace and Just War in Greek Philosophy and Religions of Abraham* Mehdi Faridzadeh, 2004 **Beyond Postmodernism** Klaus Stierstorfer, 2012-05-02 After the veritable hype concerning postmodernism in the 1980s and early 1990s when questions about when it began what it means and which texts it comprises were apt to trigger heated discussions the excitement has notably cooled down at the turn of the century Voices are now beginning to be heard which seem to suggest a new episteme in the making which points beyond postmodernism while it remains at the same time very uncertain whether what appears as newness is not rather a return to traditional concepts theoretical premises and authorial practices Contributors to this volume propose to explore new openings and

recent developments in anglophone literatures and cultural theories which engage with issues seen to be central in the construction of a postmodern paradigm but deal with them in ways that promise new openings or a new Zeitgeist

A History of Western Philosophy C. Stephen Evans, 2018-10-09 Plato Aristotle Augustine Hume Kant Hegel Every student of philosophy needs to know the history of the philosophical discourse such giants have bequeathed us Philosopher C Stephen Evans brings his expertise to this daunting task as he surveys the history of Western philosophy from the Pre Socratics to Nietzsche and postmodernism and every major figure and movement in between

Philosophical Mysticism in Plato, Hegel, and the Present Robert M. Wallace, 2019-12-26 Few twenty first century academics take seriously mysticism's claim that we have direct knowledge of a higher or more inner reality or God But Philosophical Mysticism argues that such leading philosophers of earlier epochs as Plato G W F Hegel Ludwig Wittgenstein and Alfred North Whitehead were in fact all philosophical mystics This book discusses major versions of philosophical mysticism beginning with Plato It shows how the framework of mysticism's higher or more inner reality allows nature freedom science ethics the arts and a rational religion in the making to work together rather than conflicting with one another This is how philosophical mysticism understands the relationships of fact to value rationality to ethics and the rest And this is why Plato's notion of ascent or turning inward to a higher or more inner reality has strongly attracted such major figures in philosophy religion and literature as Aristotle Plotinus St Augustine Dante Alighieri Immanuel Kant Hegel William Wordsworth Ralph Waldo Emerson Emily Dickinson Whitehead and Wittgenstein Wallace's *Philosophical Mysticism* brings this central strand of western philosophy and culture into focus in a way unique in recent scholarship

Fundamental Theology Matthew L. Becker, 2014-12-18 Introducing university students to the academic discipline of Christian theology this book serves as an orientation to fundamental theology from a Protestant perspective by addressing issues that are preliminary and foundational to the discipline in the context of a liberal arts university The book also sets forth what has traditionally been called a theological encyclopedia that is a description of the parts of Christian theology that together form the discipline into a unified academic subject Finally the book examines the relation of Christian theology to the arts and sciences within the university and underscores the need for critical and positive interaction with these other academic disciplines

Postmodernism and the Revolution in Religious Theory Carl A. Raschke, 2012 While the academic study of religion has increased almost exponentially in the past fifty years general theories of religion have been in significant decline In his new book Carl Raschke offers the first systematic exploration of how the postmodern philosophical theories of Jacques Derrida Gilles Deleuze Alain Badiou and Slavoj Žižek have contributed significantly to the development of a theory of religion as a whole The bold paradigm he uses to articulate the framework for a revolution in religious theory comes from semiotics namely the problem of the sign and the singularity or event horizon from which a sign is generated

Gadamer's Repercussions Bruce Krajewski, 2004

Gadamer's Repercussions is a terrific collection of essays While Gadamer is not the most precise of philosophers he turns out in this book at least to be among the most generative The essays prove that Gadamer's idealizing of dialogue can actually be put in practice by careful attention to the frameworks he addresses I was most impressed by the essays that situate his ethics his aesthetics his relation to romanticism his understanding of the relation of law and morality his engagements with Fascism and several aspects of his vexed relationship with postmodern thinking especially on the possibility of dialogue Charles

Altieri author of *The Particulars of Rapture* Gadamer is well known for his insistence that every reading is a new reading and every act of understanding a pathway to new understanding Krajewski's carefully assembled volume applies these maxims to the understanding of Gadamer himself By focusing on his intellectual and political background as well as his long range influence and repercussions the book opens new vistas for assessing one of the philosophical giants of the twentieth century

Fred Dallmayr author of *Dialogue Among Civilizations* **After the Death of God** Gianni Vattimo, John D.

Caputo, 2009-07-22 It has long been assumed that the more modern we become the less religious we will be yet a recent resurgence in faith has challenged the validity of this belief In these original essays and interviews leading hermeneutical philosophers and postmodern theorists John D Caputo and Gianni Vattimo engage with each other's past and present work on the subject and reflect on our transition from secularism to postsecularism Caputo and Vattimo explore the changes distortions and reforms that are a part of our postmodern faith and the forces shaping the religious imagination today Incisively and imaginatively connecting their argument to issues ranging from terrorism to fanaticism and from politics to media and culture these thinkers continue to reinvent the field of hermeneutic philosophy with wit grace and compassion
