The Oxford Handbook of Elizabeth Anscombe Roger Teichmann, 2022 Elizabeth Anscombe was one of the most important philosophers of the twentieth century as well as a friend pupil and the main translator of Ludwig Wittgenstein She wrote on a wide range of philosophical topics publishing a handful of books and a large corpus of articles in her lifetime This collection of twenty two essays on the philosophy of Elizabeth Anscombe by an international array of experts in the field covers intention ethical theory human life the first person and Anscombe on other philosophers [The Foundations of Psychoanalytic Theories](#) Vesa Talvitie, 2018-05-08 The normal approach to the study of the foundations of psychoanalysis is to

focus on Sigmund Freud's classical texts. In this book however the author approaches the issue from the perspective of the foundations of behavioural sciences in general. He studies the nature of psychological terms and explanations and the relation between neuroscience and psychology. Due to the wide perspective the author is able to create a fresh view to the stubborn debate concerning the scientific status of psychoanalysis. The author shows that both advocates and critics of psychoanalysis have a tendency to misconstrue the nature of psychoanalytic theorizing and thus have had unrealistic expectations of psychoanalytic explanations. The book tries to differentiate between those aspects of psychoanalysis which should be considered scientific and those aspects of psychotherapies in general which should not come into the scientific category. This book will be found to be a valuable contribution to the field of psychoanalytic studies. *Philosophy of psychology*, 1974

A Companion to Kierkegaard Jon Stewart, 2015-07-21 Jon Stewart one of the world's leading experts on the work of Søren Kierkegaard has here compiled the most comprehensive single volume overview of Kierkegaard studies currently available. Includes contributions from an international array of Kierkegaard scholars from across the disciplines. Covers all of the major disciplines within the broad field of Kierkegaard research including philosophy, theology and religious studies, aesthetics, the arts and literary theory and social sciences and politics. Elucidates Kierkegaard's contribution to each of these areas through examining the sources he drew upon, charting the reception of his ideas and analyzing his unique conceptual insights into each topic. Demystifies the complex field of Kierkegaard studies creating an accessible entry point into his thought and writings for readers new to his work.

Philosophy of Mind John Heil, 1998 This comprehensive textbook written by a leading author in the field provides a survey of mainstream conceptions of the nature of mind accessible to readers with little or no background in philosophy. Included are the dualist, behaviourist and functionalist accounts of the nature of mind along with a critical assessment of recent trends in the subject. The problem of consciousness widely thought to be the chief roadblock to our understanding of the mind is addressed throughout the book and there is also material to interest those with a professional interest in the topic. Philosophers, psychologists and neuroscientists as well as the general reader. Unique features of *Philosophy of Mind* provides a comprehensive survey of basic concepts and major theories, contains many lucid examples to support ideas, cites key literature in annotated suggested reading and a full bibliography, contains a full index including the location of key terms and concepts.

The Language of Memory in a Crosslinguistic Perspective Mengistu Amberber, 2007-11-14 This book offers for the first time a detailed comparative study of how speakers of different languages express memory concepts While there is a robust body of psycholinguistic research that bears on how memory and language are related there is no comparative study of how speakers themselves conceptualize memory as reflected in their use of language to talk about memory This book addresses a key question how do speakers of different languages talk about the experience of having prior experiences coming to mind remembering or failing to come to mind forgetting A complex array of answers is provided through detailed grammatical and semantic investigation of different languages including English German Polish Russian and also a number of non Indo European languages Amharic Cree Dalabon Korean and Mandarin In addition the book calls for a broader interdisciplinary engagement by urging that cognitive semantics be integrated with other sciences of memory

Naturalism, Theism and the Cognitive Study of Religion Dr Aku Visala, 2013-06-28 This book provides a critical philosophical analysis of the claim that contemporary cognitive approaches to religion undermine theistic beliefs Recent scientific work into the evolution and cognition of religion has been driven by and interpreted in terms of a certain kind of philosophical and methodological naturalism The book argues that such naturalism is not necessary for the cognitive study of religion and develops an alternative philosophical and methodological framework This alternative

framework opens the cognitive study of religion to theological and philosophical considerations and clarifies its relationship to other approaches to religious phenomena This unique contribution to discussions regarding the philosophical and theological implications of the cognitive study of religion summarizes the so far fragmentary discussion exposes its underlying assumptions and develops a novel framework for further discussion **Naturalism, Theism and the Cognitive Study of Religion** Aku Visala, 2016-04-22 This book provides a critical philosophical analysis of the claim that contemporary cognitive approaches to religion undermine theistic beliefs Recent scientific work into the evolution and cognition of religion has been driven by and interpreted in terms of a certain kind of philosophical and methodological naturalism The book argues that such naturalism is not necessary for the cognitive study of religion and develops an alternative philosophical and methodological framework This alternative framework opens the cognitive study of religion to theological and philosophical considerations and clarifies its relationship to other approaches to religious phenomena This unique contribution to discussions regarding the philosophical and theological implications of the cognitive study of religion summarizes the so far fragmentary discussion exposes its underlying assumptions and develops a novel framework for further discussion From Action to Ethics Constantine Sandis, 2024-01-11 Over the course of the last 15 years Constantine Sandis has advanced our understanding of the role that action plays in shaping our moral thought In this collection of his best essays in the philosophy of action Sandis brings together updated versions of his writings accompanied by a new introduction Read collectively they demonstrate the breadth of his interests and ability to relate to broader issues within the culture connecting debates in philosophical psychology about motivation negligence and moral responsibility with Greek tragedy social psychology and literature Along this path from action to ethics Sandis engages with Hegel Wittgenstein Anscombe Ricoeur Davidson and Dretske together with contemporary authors such as Jennifer Hornsby and Jonathan Dancy As he responds to each thinker and theme he develops his own philosophical position the key thesis of which is that philosophy of action without ethics is empty ethics without philosophy of action is blind *Ill-Being: Philosophical Perspectives* , 2025-07-03 Nearly all of us aspire to live a prudentially good life To achieve this we must understand which things are good for us and which things are bad for us in other words we must understand what well being and ill being consist in While well being has been the subject of significant philosophical inquiry ill being has received far less attention The handful of philosophers who have considered ill being have challenged the common belief that ill being is the symmetrical counterpart of well being and argued that deriving accounts of ill being from existing theories of well being is more complex than it appears The present collection of fifteen original essays offers an in depth exploration of the philosophical issues surrounding ill being Issues covered include the role of ill being in everyday practice the aggregation of goods and bads degrees of well and ill being how existing theories of well being can account for ill being the role of adaptive preferences in ill being and how to understand the badness of pain By examining the relation of ill being to a variety of connected phenomena such as unhappiness negative emotions and affects

pain disability disease and failure the essays will illuminate the important notions of ill being and well being Given the broad relevance of these issues this collection will be indispensable not only to philosophers but also to scholars and graduate students in fields such as psychology sociology and economics

Ontology, Modality, and Mind Alexander Carruth, Sophie Gibb, John Heil, 2018-10-04 This book explores a range of traditional and contemporary metaphysical themes that figure in the writings of E J Lowe whose powerful and influential work was still developing at the time of his death in 2015 During his forty year career he established himself as one of the world s leading philosophers publishing eleven single authored books and well over two hundred essays His scholarship was strikingly broad ranging from early modern philosophy to the interpretation of quantum mechanics His most important and sustained contributions were to philosophy of mind philosophical logic and above all metaphysics E J Lowe was committed to a systematic realist and scientifically informed neo Aristotelean approach to philosophy This volume presents a set of new essays by philosophers who share this commitment addressing interrelated themes of his work In particular these papers focus upon three closely connected topics central not only to Lowe s work but to contemporary metaphysics and philosophy of mind in general ontology and categories of being essence and modality and the metaphysics of mental causation
