Biological-Psychosocial Interactions in Early Adolescence Richard M. Lerner, Terryl T. Foch, 2021-11-14 First published in 1987 Biological Psychosocial Interactions in Early Adolescence explores the mutually influential relations between biological and psychosocial variables as the basis for development in the early portions of the adolescent period and in fact across the entire life span The volume introduces key conceptual and methodological issues that are raised by the study of biological psychosocial interrelations It provides key foundations for the research conducted in major laboratories in USA back in 1980s It also provides the results from these laboratories and their progress at that time This book will be an essential read for scholars and researchers of psychology behavioural science and sociology

A Bibliographic Guide to Educational Research Dorothea M. Berry, 1990 585 new titles most published from 1980 to 1989 and 213 new editions and supplement volumes of titles cited in the second edition Appendix and extensive indexes Recommended for undergraduate bibliographic collections ARBA

Successful Schools for Young Adolescents Joan Lipsitz, 2019-01-22 At a time when the public researchers and policymakers are losing confidence in public schooling this presentation of case studies of four schools offers solutions and concrete models of diverse ways in which excellence can be attained in middle grade schools Asking what effectiveness means for the young adolescent age group a hitherto unexplored area in research literature how effective schools come about and how they achieve acceptance in their communities Lipsitz identifies and examines successful middle grade schools noting that the major problem in schooling is meeting the massive individual differences in the development of early adolescents

Moving into Adolescence Roberta G. Simmons, 2017-07-05 From the sociological point of view adolescence traditionally has been described as a period of physical maturity and social immaturity Adolescents reach physical adulthood before they are capable of functioning well in adult social roles The disjunction between physical capabilities and socially allowed independence and power and the concurrent status ambiguities are viewed as stressful for the adolescent in modern Western society It has been assumed that the need to disengage from parents during these years will result in high levels of rebellion and parent child conflict Moving into Adolescence follows students as they make a major life course transition from childhood into early adolescence Substantial controversy has been generated within the behavioral sciences concerning the difficulty of adolescence as a transitional period On the one hand there are those who characterize the period as an exceptionally and necessarily stressful time in the life course On the other hand many investigators treat this view of adolescence as their straw man To them the supposed tumult of adolescence is just that supposed and mythical The purpose of this book is to study the transition from childhood into early and middle adolescence in order to investigate change along a wide variety of psychosocial dimensions with a particular focus on the self image The authors investigate the impact of timing of pubertal change and also the movement from an intimate elementary school context into a large scale

secondary school environment The first major movement into a large scale organizational context may cause difficulty for the child as may the dramatic changes of puberty In addition gender differences and changes in gender differences are studied Both short and long term consequences of transition are examined focusing on is the role of pubertal change and school transition A Guide to Sources of Educational Information Marda Woodbury,1982 Abstract An annotated listing of educational information sources is presented for educational professionals and policy makers Sources include printed and computer access tools private organizations and government agencies that provide direct assistance or referral services commercial bibliographic services and state library services Some services that access foreign or international data are included Following a brief discussion of background principles the material is presented under 3 major categories printed research tools e g dictionaries directories bibliographies abstracting and indexing services statistical sources special subjects special education instructional materials guides printed sources on finance and government and nonprint sources e g computerized retrieval sources educational and financial information nonprint sources institutional instruction materials information sources and state library services for educators A brief final section identifies writing guides and style manuals for administrators researchers teachers and dissemination specialists wz *Youth Information Resources* ,1987-06-23 Topics covered by these sources include growth development health physiology sex psychology education society family vocation law welfare juvenile justice substance abuse violence vandalism sports disadvantaged youth and sexual abuse
