Philosophy's Cool Place:

Philosophy's Cool Place Dewi Zephaniah Phillips, 1999 Ludwig Wittgenstein established a cool stance for philosophy contemplating the world without meddling in it D Z Phillips explores this position focusing on its implications for philosophical authorship and the philosophical investigation of the nature of reality Influenced by the views of Wittgenstein and his pupil Rush Rhees Phillips who is one of Rhees's own students first contrasts Wittgenstein's methods with Kierkegaard's religiously oriented dialectic He describes the difficulty in sustaining a contemplative view of philosophy and discusses efforts to go beyond it in the work of Richard Rorty Stanley Cavell Annette Baier and Martha Nussbaum who in different ways propose to make philosophy a guide to living A provocative and challenging work *Philosophy's Cool Place* is one of the few books that addresses the discipline as an enterprise and explores its relation to moral values religious belief and the nature of Reality By advancing the cause of neutrality it will stimulate debate and foster discussion of what philosophy is to become in the postmodern era *D.Z. Phillips' Contemplative Philosophy of Religion* Andy F. Sanders, 2016-05-13 This collection presents a critical discussion and exploration of the late D Z Phillips contemplative approach in the philosophy of religion What are the main characteristics of this ground breaking approach which is inspired by thinkers like Kierkegaard and Wittgenstein and meant as a serious critical alternative to the mainstream way of doing philosophy of religion What is its aim if it is deliberately avoiding apology and defence of faith How does Phillips approach relate to systematic historical and empirical theology and is it really as neutral as he claims it to be Or is he perhaps a certain kind of theologian What are the implications of his contemplative philosophy for central issues of religious life today such as petitionary prayer the hope of eternal life and radical religious diversity The essays of six distinguished scholars from five different nations critically and sympathetically address these questions and are responded to by Phillips in essays of his own written briefly before his sudden death in July 2006 *D. Z. Phillips on Religious Language, Religious Truth, and God* Hyoseok Kim, 2022-02-25 D Z Phillips 1934-2006 was one of the most influential ingenious and perhaps controversial thinkers in the Anglo American philosophy of religion In particular he is widely regarded as a leading proponent of a Wittgensteinian approach to the philosophy of religion While almost every book on religious language or Anglophone philosophy of religion deals with Phillips thought or at least mentions his name all too frequently his position has been grossly misunderstood and has often attracted unwarranted criticism from various sides Seeking to offer a constructive presentation and critical discussion of Phillips view of philosophy religious language religious truth and God Hyoseok Kim endeavors to resolve some misunderstandings refute undue criticisms of Phillips position and make some suggestions concerning directions in which his view might and ought to be further developed *Wittgenstein within the Philosophy of Religion* Thomas D. Carroll, 2014-07-08 The commonly held view that Wittgensteinian philosophy of religion is fideistic loses plausibility when contrasted with recent scholarship on Wittgenstein's corpus and biography This book reevaluates the place of Wittgenstein in the philosophy of religion and charts

a path forward for the subfield by advancing three themes Moral Philosophy and Moral Life Anne-Marie S. Christensen, 2021 Anne Marie S. Christensen presents a new account of the role of moral philosophy and its relationship to our ordinary moral lives She challenges the idea that moral theories have an authoritative explanatory or action guiding role and develops instead a descriptive pluralistic and elucidatory conception of moral philosophy

Philosophy of Religion in the Twenty-First Century D. Phillips, T. Tessin, 2001-10-25 This book offers the rare opportunity to assess within a single volume the leading schools of thought in contemporary philosophy of religion Their exponents seek to meet objections made to their point of view and to relate it to the other schools represented Further discussions between adherents of the different schools make it an ideal text for assessing the deep proximities and divisions which characterize contemporary philosophy of religion The schools of thought represented are Philosophical Theism Reformed Epistemology Wittgensteinianism Postmodernism Critical Theory and Process Thought **Wittgenstein and the End of Philosophy** D. Hutto, 2003-09-30 What is the true worth of Wittgenstein's contribution to philosophy Opinions are strongly divided with many resting on misreadings of his purpose This book challenges theoretical and therapeutic interpretations proposing that Wittgenstein saw clarification as the true end of philosophy that his approach exemplifies critical philosophy **Historical Dictionary of Wittgenstein's Philosophy** Duncan Richter, 2014-04-04 Ludwig Wittgenstein was the most influential and arguably the greatest philosopher of the 20th century This fact about his influence is not only a matter of how much he influenced people but also of how many people he influenced His early work was taken up by some of the pioneers of analytical philosophy His later work helped spawn another movement within analytic philosophy that of ordinary language philosophy sometimes called Oxford philosophy He is also considered by some to be a key postmodern thinker and an interest in his work is a distinguishing feature of many post analytical philosophers who seek to bridge the gap between analytical and so called continental philosophy This second edition of Historical Dictionary of Wittgenstein's Philosophy covers the history of this philosophy through a chronology an introductory essay and an extensive bibliography The dictionary section has over 300 cross referenced entries on every aspect of his work This book is an excellent access point for students researchers and anyone wanting to know more about Wittgenstein's philosophy **A Dictionary of Philosophy of Religion, Second Edition** Charles Taliaferro, Elsa J. Marty, 2018-01-25 A Dictionary of Philosophy of Religion is an indispensable resource for students and scholars Covering historical and contemporary figures arguments and terms it offers an overview of the vital themes that make philosophy of religion the growing vigorous field that it is today It covers world religions and sources from east and west Entries have been crafted for clarity succinctness and engagement This second edition includes new entries extended coverage of non Christian topics as well as revisions and updates throughout The first edition was named a Choice Outstanding Academic Title of the Year **Wittgenstein, Concept Possession and Philosophy** H. A. Knott, 2006-11-28 This book is a Wittgensteinian study of concept possession and conceptual investigation

in philosophy It offers advanced introduction to Wittgenstein s philosophy and original treatment of its most crucial regions Written as a Socratic dialogue with a glance to Plato it makes a bold claim about Wittgenstein s place in Western philosophy

On Philosophy, Intelligibility, and the Ordinary Randy Ramal,2021-02-04 Randy Ramal argues that philosophy s main responsibility lies in providing intelligibility to the ordinary language of everyday life while dispelling unwarranted skepticism Philosophers need to go the hard way to fulfill this responsibility because of the constant and dangerous temptation to turn philosophy into a normative discipline rather than keep it as a descriptively hermeneutical enterprise In **On Philosophy Intelligibility and the Ordinary Going the Bloody Hard Way** the philosophy of Alfred North Whitehead is central to Ramal s endeavor to demonstrate the need to separate the hermeneutical responsibility of philosophy from the normative aspects of responsibility While showing the futility of labeling Whitehead as a purely disinterested philosopher who abandons the idea that ordinariness is relevant to good philosophical thinking Ramal frames this discussion within a larger in depth engagement with a vast number of thinkers philosophers and literary figures whose works touch on the question of the ordinary Peirce, James, and a Pragmatic Philosophy of Religion John W. Woell,2012-02-09 In this book John W Woell shows us how contemporary readings of American Pragmatism founded on mistakenly used categories of the Analytic tradition have led to misreadings of Peirce and James By focusing on terms drawn largely from Descartes and Kant contemporary debates between metaphysical realists antirealists Realists and Nonrealists have argues Woell failed to shed great light on pragmatism in general and a pragmatic philosophy of religion in particular Woell contends that paying close attention to the internal relationships among inquiry belief and their objects in the respective works of Peirce and James provides a means for fully appreciating pragmatism s richness as a resource for philosophy of religion By taking account of a pragmatic point of view in philosophy of religion this book incites a more productive discussion of the metaphysical status of religious objects and of the epistemic status of religious belief A Dictionary of Philosophy of Religion Charles

Taliaferro,Elsa J. Marty,2010-08-19 **The to Z of Wittgenstein's Philosophy** Duncan Richter,2010-02-12 The A to Z of Wittgenstein s Philosophy is intended for anyone who wants to know more about the philosophy and the life of this enigmatic thinker The book contains an introductory overview of his life and work a timeline of the major relevant events in and after his life an **The Oxford Handbook of Philosophy of Religion** William Wainwright,2004-12-16 The Oxford Handbook of Philosophy of Religion contains newly commissioned chapters by 21 prominent experts who cover the field in a comprehensive but accessible manner Each chapter is expository critical and representative of a distinctive viewpoint

Religious Language, Meaning, and Use Robert K. Bolger,Robert C. Coburn,2019-08-22 Can the meaning of religious language be separated from its use In **Religious Language Meaning and Use** Robert Bolger and Robert Coburn address what has become a contentious though often overlooked account of the relationship between religious belief and religious practice Through philosophical argumentation and by means of a variety of sermon like essays on religious topics this book seeks to

return religion to the place in which the meaning and practical impact of its beliefs become inseparable from the life of the believer Part I begins by considering through the loose lens of Wittgenstein's philosophical method how religious language has been misunderstood leading straightway to a variety of challenges and conceptual confusions Part II presents previously unpublished essays written by Robert C Coburn who has for over 50 years been at the forefront of the study of metaphysics and philosophy of religion Making a compelling case for a religious practice that avoids trivializing religious belief this book promises to be a corrective to those who see faith as nothing more than ethics in disguise and to those metaphysicians who see faith as a set of beliefs

Love of a God of Love Hugo Strandberg, 2011-09-15 Traditionally religious belief has in the philosophy of religion been understood along more or less epistemological lines Love of a God of Love develops another understanding of belief where the moral concept of love is central In this context what is distinctive about the concept of love is that it is both the what and the how of belief for the one who loves a God of love the concept of love characterizes both the content side and the act side of the belief In that respect this understanding of religious belief makes it possible to avoid certain formalist difficulties arising when the what and the how of belief are sharply distinguished Volume 11, Tome III: Kierkegaard's Influence on Philosophy Jon Stewart, 2016-12-05 Kierkegaard's relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions The present volume attempts to document these different traditions of the philosophical reception of Kierkegaard's thought Tome III traces Kierkegaard's influence on Anglophone philosophy It has long been thought that Kierkegaard played no role in this tradition which for years was dominated by analytic philosophy In this environment it was common to dismiss Kierkegaard along with the then current European philosophers who were influenced by him However a closer look reveals that in fact there were several thinkers in the US Canada and Great Britain who were inspired by Kierkegaard even during the heyday of analytic philosophy Today it can be said that Kierkegaard has made some serious inroads into mainstream Anglophone philosophy with many authors seeking inspiration in his works for current discussions concerning ethics personal identity philosophy of religion and philosophical anthropology

Ethics after Wittgenstein Richard Amesbury, Hartmut von Sass, 2021-01-28 What does it mean for ethics to say as Wittgenstein did that philosophy leaves everything as it is Though clearly absorbed with ethical questions throughout his life and work Wittgenstein's remarks about the subject do not easily lend themselves to summation or theorizing Although many moral philosophers cite the influence or inspiration of Wittgenstein there is little agreement about precisely what it means to do ethics in the light of Wittgenstein Ethics after Wittgenstein brings together an international cohort of leading scholars in the field to address this problem The chapters advance a conception of

philosophical ethics characterized by an attention to detail meaning and importance which itself makes ethical demands on its practitioners Working in conversation with literature and film engaging deeply with anthropology and critical theory and addressing contemporary problems from racialized sexual violence against women to the Islamic State these contributors reclaim Wittgenstein s legacy as an indispensable resource for contemporary ethics **A Confusion of the Spheres** Genia Schönbaumsfeld,2007-09-27 Allusions to the relation between Kierkegaard and Wittgenstein are common in philosophy but there has been little serious commentary on the relationship of their ideas Genia Sch nbaumsfeld closes this gap and offers new readings of Kierkegaard s and Wittgenstein s intriguing and influential conceptions of philosophy and religious belief

When people should go to the books stores, search inauguration by shop, shelf by shelf, it is in fact problematic. This is why we allow the ebook compilations in this website. It will enormously ease you to look guide **Philosophys Cool Place** as you such as.

By searching the title, publisher, or authors of guide you essentially want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be every best area within net connections. If you objective to download and install the Philosophys Cool Place, it is utterly easy then, in the past currently we extend the member to buy and create bargains to download and install Philosophys Cool Place suitably simple!
