 The book discusses sustainability and law in a multifaceted way Together sustainability and law are an emerging challenge  
 for research and science This volume contributes through an interdisciplinary concept to its further exploration The  
 contributions explore this exciting domain with innovative ideas and replicable approaches It combines a variety of authors  
 from both the public and the private sectors and thereby guarantees a broad view that enshrines the more theoretical  
 arguments from the academic side as well as stronger practical applicable perspectives The book provides space for  
 thoughtful expansions of established theories as well as the hopeful emergence of innovative ideas Moreover the combination  
 of three to five contributions into the eleven parts respectively aims toward a compression of like minded thoughts This  
 should lead to an intensification of exchange of viewpoints from different angles on a similar theme Readers therefore also  
 have the opportunity to concentrate on single chapters but receive comprised knowledge and a variety of thoughts for new  
 ideas on a particular theme
