The Phonology and Morphology of Arabic Janet C. E. Watson, 2007 This is an account of the phonology and morphology of modern spoken Arabic the first to be published in any language and based largely on the author's research Dr Watson's approach is theoretically innovative and aware but accessible to Arabic language specialists outside linguistics Broad in coverage this is an important and pioneering book This book is the first comprehensive account of the phonology and morphology of Arabic It is a pioneering work of scholarship based on the author's research in the region Arabic is a Semitic language spoken by some 250 million people in an area stretching from Morocco in the West to parts of Iran in the East Apart from its great intrinsic interest the importance of the language for phonological and morphological theory lies as the author shows in its rich root and pattern morphology and its large set of guttural consonants Dr Watson focuses on two eastern dialects Cairene and San'ani Cairene is typical of an advanced urban Mediterranean dialect and has acultural importance throughout the Arab world it is also the variety learned by most foreign speakers of Arabic San'ani spoken in Yemen is representative of a conservative peninsula dialect In addition the book makes extensive reference to other dialects as well as to classical and Modern Standard Arabic The volume opens with an overview of the history and varieties of Arabic and the position of Arabic within Semitic Dialectal differences and similarities are discussed in successive chapters which cover the phoneme system and the representation of phonological features the syllable and syllabification word stress derivational morphology inflectional morphology lexical phonology and post lexical phonology The Phonology and Morphology of Arabic will be of great interest to Arabists and comparative Semiticists as well as to phonologists morphologists and linguists more generally

Arabic Morphology and Phonology Aḥmad Ibn 'Alī Ibn Mas'ūd, 2001 This volume provides with an exhaustive study of Arabic morpho phonology based on the 13th century complete work written by Aḥmad b al Mas d the Mar h al arw h which is critically edited and provided with an introduction an English translation and an extensive commentary

A Study of Arabic Phonology Joyce Akesson, 2010

Product Description Phonology is the study of the changes that can affect a word and sometimes even two words for different reasons relating to a certain implied heaviness like the existence of two identical letters or two letters that are close to each other or a hamza or a weak letter The phonological changes are recognized as the assimilation of a letter to another the substitution of a letter for another the addition or elision of a letter or vowel and the transfer of a letter or vowel to another position This study explores in detail when these changes are necessary allowed or forbidden The presentation of the rich data the theoretical analyzes of the phonological elements and the references to the different works from the classical period

of the 8th century until our days offer a detailed and accessible study for both the students and researchers of Arabic About the Author Joyce Akesson has studied the Semitic languages at Lund s University Sweden and has previously been a lecturer there during many years Beside the present book she is the author of *The Basics Intricacies of Arabic Morphology* Pallas Athena 2010 *The Phonological Changes due to the Hamza and Weak Consonant in Arabic* Pallas Athena 2010 *A Study of the Assimilation and Substitution in Arabic* Pallas Athena 2010 *The Essentials of the Class of the Strong Verb in Arabic* Pallas Athena 2010 *The Complexity of the Irregular Verbal Nominal Forms the Phonological Changes in Arabic* Pallas Athena Distribution 2009 *Arabic Morphology and Phonology Based on the Marah Al Arwah* by Ahmad B Ali B Masud *Studies in Semitic Languages and Linguistics* Brill Academic Publishers 2001 and Ahmad B Ali B Mas Ud on *Arabic Morphology Marah Al Arwah Part 1 The Strong Verb* *Studia Orientalia Ludensia Vol 4* Brill Academic Pub 1990 She has also published several articles about Arabic linguistics in two Journals the *Journal of Arabic Linguistics* the *ZAL* or *Zeitschrift fur Arabische Linguistik* Wiesbaden and the previous *Acta Orientalia* Denmark She has also written a lemma about sarf morphology phonology in the *Encyclopaedia of Arabic Language and Linguistics* vol 4 Leiden Brill 20

Formal Problems in Semitic Phonology and Morphology John J. McCarthy, 2018-10-03 First published in 1985 Two basic issues figure in this study The first concerns the representation of syllabic and accentual structure and the effects of those structures on the formulation of phonological rules In the second section of this title a solution to the traditional problem of the root and pattern morphological system of Semitic is proposed and illustrated by an extensive treatment of Classical Arabic This title will be of particular interest to students of linguistics

The Basics & Intricacies of Arabic Morphology Joyce Akesson, 2010-07 Product Description Despite the amount of material about Arabic grammar phonology and morphology the need for a book combining an independent study in morphology with theoretical discussions is more than evident This book fills that void by proposing an in depth analysis of various morphological issues based on the seven classes of verbs and their nine derivatives These classical classes are the strong verb the doubled the hamzated the verb with 1st radical w or y the verb with 2nd radical w or y the verb with 3rd radical w or y and the verb that is doubly weak The nine derivatives are the perfect imperfect imperative infinitive noun active participle passive participle noun of time noun of place and noun of instrument The different sections introduce several paradigms of verbs a carefully explored data and explicit information about the morphological structures and the various phonological changes that can affect them such as the addition transfer or elision of a vowel or letter the assimilation of two letters and the substitution of one letter for another The study pays also particular attention to the most representative works from the 8th century until our days About the Author Joyce Akesson has studied the Semitic languages at Lund s University Sweden and has previously been a lecturer there during many years Beside the present book she is the author of *The Phonological Changes due to the Hamza and Weak Consonant in Arabic* Pallas Athena 2010 *A Study of the Assimilation and Substitution in Arabic* Pallas Athena 2010 *The Essentials of the Class of the Strong Verb in Arabic*

Pallas Athena 2010 The Complexity of the Irregular Verbal Nominal Forms the Phonological Changes in Arabic Pallas Athena Distribution 2009 Arabic Morphology and Phonology Based on the Marah Al Arwah by Ahmad B Ali B Masud Studies in Semitic Languages and Linguistics Brill Academic Publishers July 2001 and Ahmad B Ali B Mas Ud on Arabic Morphology Marah Al Arwah Part 1 The Strong Verb Studia Orientalia Ludensia Vol 4 Brill Academic Pub October 1990 She has also published several articles about Arabic linguistics in two Journals the Journal of Arabic Linguistics the ZAL or Zeitschrift fur Arabische Linguistik Wiesbaden and the previous Acta Orientalia Denmark She has also written a lemma about sarf morphology phonology in the Encyclopaedia of Arabic Language and Linguistics vol 4 Leiden Brill 20

Perspectives on Arabic Linguistics XXIV-XXV Samira Farwanah, Hamid Ouali, 2014-07-15 This volume provides important contributions to Arabic linguistics and Linguistic research in general by presenting new empirical facts and innovative theoretical analyses It consists of two major parts the first contains four papers on phonology and morphology most of which deal with phonology morphology interface while the second part includes five papers on syntax The papers featured represent some of the current trends in Arabic Linguistics especially in the areas of Phonology and Syntax Some of the articles are contributions to ongoing debates on the nature and properties of specific aspects of Arabic such as gemination and stress assignment in Phonology and negation in Syntax Other papers introduce new topics such as analyzing intonational patterns in Arabic Phonology investigating the source of the morpheme in the less studied varieties of Central Asian Arabic in Morphology and analyzing sluicing in Syntax

Causes and Principles in Arabic Joyce Akesson, 2011-06 One of the interesting features in Arabic linguistics is the reference to causes and principles in the explanation of many linguistic phenomena This scientific approach seems to have developed from the middle of the 8th century and onwards with the influence of Greek philosophy on Arabic linguistics and on other disciplines The present book provides information on several causes and principles in Arabic morphology and phonology with a strong focus on the words letters and vowels Examples qur anic quotations and verses are presented in both Arabic script and Roman transcription and different theories are explored Some of the causes that are discussed are the choice of a certain letter or vowel to a form different phonological changes such as the elision or the addition of a vowel or a letter and the likes or dislikes of certain combinations The references to several works of linguistics from the classical period until our days elucidate many intricacies and reflect the interests of several linguists in these topics Joyce Akesson has studied the Semitic languages at Lund s University Sweden and has previously been a lecturer there during many years Beside the present book she is the author of A Study in Arabic Phonology Pallas Athena 2010 The Basics Intricacies of Arabic Morphology Pallas Athena 2010 The Phonological Changes due to the Hamza and Weak Consonant in Arabic Pallas Athena 2010 A Study of the Assimilation and Substitution in Arabic Pallas Athena 2010 The Essentials of the Class of the Strong Verb in Arabic Pallas Athena 2010 The Complexity of the Irregular Verbal Nominal Forms the Phonological Changes in Arabic Pallas Athena Distribution 2009 Arabic Morphology and Phonology Based on the Marah Al

The Phonology and morphology of Algiers Arabic Lies Mairi,1981 **The Oxford Handbook of Arabic Linguistics** Jonathan Owens,2013-10-03 Until about 60 years ago linguistic research on the Arabic language in the West was restricted to inquiries on Classical Arabic and the Classical tradition and spoken Arabic dialects with historical studies embedded within the broader field of Semitic languages This situation is changing quickly not only through the continuation of older research traditions but also with the integration of new research fields and perspectives With this expansion comes the danger of specialists in Arabic losing an overview of the field and of leaving non specialists without basic resources for evaluating domains of research which they may be interested in for comparative purposes The Oxford Handbook of Arabic Linguistics will confront this problem by combining state of the art overviews with essays on issues of perspective controversy and point of view In twenty four chapters leading experts from around the world will lay out their own stances on controversial issues The book not only evaluates ways in which questions and theories established in general linguistics and its sub fields elucidate Arabic but also challenges approaches which might result in accommodating Arabic to non Arabic interpretations and brings out the Arabic specificity of individual problems The Handbook in one compact volume gives critical expression to a language which covers large populations and geographical areas has a long written tradition and has been the locus of major intellectual fervor and debate **The Arabic Dialect of the Jews of Baghdad** Assaf Bar-Moshe,2019 The Jewish community in Baghdad used to speak its own dialect of Arabic which was distinct from the one spoken by its Muslim and Christian neighbors This dialect served as their mother tongue for centuries up until the massive immigration of Iraqi Jews to Israel following its establishment Today a few thousand native speakers of the dialect are still alive but unfortunately in the next few decades this ancient dialect will evidently become extinct To commemorate this historical community this volume glances into its language and culture It provides the reader with a firsthand opportunity to read transcriptions and translations of original oral texts by native speakers The texts cover different aspects of the community s lives including its history traditions cuisine folk stories personal stories of immigration absorption difficulties in Israel and even a collection of small talks The volume opens with a grammatical sketch of the phonological and morphological system of the dialect It focuses on the most important features to enable readers a fluent reading **The Phonology and Morphology of Algiers Arabic** ,1982 **Some Aspects of Qatari Arabic Phonology and Morphology** Latifa Mubarak Al-Sulaiti,1993 **Tripolitanean Arabic Phonology and Morphology** Abdalla Salem Elgadi,1986
