Phonology Of Armenian:

The Phonology of Armenian Bert Vaux, 1998 Armenian is geographically one of the most widespread languages of the world with distinct dialects located as far west as Poland and as far east as India It has a rich literary history dating from the fourth century translation of the Bible into Classical Armenian It is one of the most linguistically divergent of the Indo European languages having undergone a host of complicated phonological morphological and syntactic changes that continue to resist satisfactory analysis However the language has yet to receive a comprehensive treatment by theoretical linguists Bert Vaux remedies this problem bringing Armenian into the sphere of phonological discussion by making available to Western readers the results of Armenological work published in Armenian and Russian and by presenting theoretical analyses of many of the more striking phonological phenomena described in these sources or culled from the author's fieldwork The topics addressed include syllabification stress assignment vowel harmony feature geometry consonant-vowel interactions and prosodic structure Series Information The Phonology of the World's Languages Series Editor Professor Jacques Durand Universit de Toulouse le Mirail Series ISBN 0 19 961355 9 Series Description The phonology of most languages has until now been available only in a fragmented way through unpublished theses or articles scattered in more or less accessible journals Each volume in this series will offer an extensive treatment of the phonology of one language within a modern theoretical perspective and will provide comprehensive references to recent and more classical studies of the language Armenian Phonology Bert Richard Vaux, 1997 **Armenian** Jasmine Dum-Tragut, 2009 This grammar of Modern Eastern Armenian gives a precise and explicit description of the Eastern Armenian language of the Republic of Armenia It covers not only the normative tradition but more importantly also describes the colloquial language as it is used in Armenia today With regard to methodological approach and terminology it fully meets the demands of modern general linguistics and typology This grammar will be of interest not only to the specialised readership of descriptive and comparative linguists of typologists and of armenologists but to all those who would like to acquaint themselves with linguistic data from living Armenian It will also be of use to students wishing to learn Modern Eastern Armenian and to lecturers in Modern Eastern Armenian language courses **Armenian phonology** Bert Richard Vaux, 1994 A grammar of Iranian Armenian Hossep Dolatian, Afsheen Sharifzadeh, Bert Vaux, 2023-10-20 Iranian Armenian is the variety of spoken Armenian that was developed by Armenians in Tehran Iran over the last few centuries It has a substantial community of speakers in California This variety or lect is called Persian Armenian p s k h j e n or Iranian Armenian i n h j e n by members of the community The present book is not a comprehensive grammar of the language It occupies a gray zone between being a simple sketch versus a sizable grammar We attempt to clarify the basic aspects of the language such as its phoneme inventory noticeable morphophonological processes various inflectional paradigms and some peculiar aspects of its syntax We likewise provide a sample text of Iranian Armenian speech Many aspects of this variety seem to be identical to Standard

Eastern Armenian SEA so we tried to focus more on those aspects of Iranian Armenian which differ from SEA The phonology has developed new phonemes and intonational contours due to contact with Persian The morphophonology has grammaticalized allomorphic patterns that are phonosyntactic meaning they reference syntactic information Nominal morphology is largely identical to SEA but with some simplification of irregular processes Verbal morphology is similar to SEA but with major innovations in the aorist paradigm The aorist or past perfective paradigm has undergone a change whereby irregular patterns have been reanalyzed as regular patterns The syntax is largely the same as SEA but with innovations due to contact with Persian such as object clitics and the use of resumptive pronouns Armenian and Indo-European Stuart Edward Mann,1963 Problems of Armenian Phonology, 1 Werner Winter,1954 **A Generative Phonology of Old Armenian** Stephen John Hammalian,1984 Phonology and Morphology of Modern Spoken West Armenian Gordon H. Fairbanks,1948 **The Languages and Linguistics of Western Asia** Geoffrey Haig,Geoffrey Khan,2018-12-03 The languages of Western Asia belong to a variety of language families including Indo European Kartvelian Semitic and Turkic but share numerous features on account of being in areal contact over many centuries This volume presents descriptions of the modern languages contributed by leading specialists and evaluates similarities across the languages that may have arisen by areal contact It begins with an introductory chapter presenting an overview of the various genetic groupings in the region and summarizing some of the significant features and issues relating to language contact In the core of the volume the presentation of the languages is divided into five contact areas which include i eastern Anatolia and northwestern Iran ii northern Iraq iii western Iran iv the Caspian region and south Azerbaijan and v the Caucasian rim and southern Black Sea coast Each section contains chapters devoted to the languages of the area preceded by an introductory section that highlights significant contact phenomena The volume is rounded off by an appendix with basic lexical items across a selection of the languages The handbook features contributions by Erik Anonby Denise Bailey Christiane Bulut David Erschler Geoffrey Haig Geoffrey Khan Rene Lacroix Parvin Mahmoudveysi Hrach Martirosyan Ludwig Paul Stephan Proch zka Laurentia Schreiber Don Stilo Mortaza Taheri Ardali Christina van der Wal Anonby *Handbook of Comparative and Historical Indo-European Linguistics* Jared Klein,Brian Joseph,Matthias Fritz,2017-10-23 This book presents the most comprehensive coverage of the field of Indo European Linguistics in a century focusing on the entire Indo European family and treating each major branch and most minor languages The collaborative work of 120 scholars from 22 countries Handbook of Comparative and Historical Indo European Linguistics combines the exhaustive coverage of an encyclopedia with the in depth treatment of individual monographic studies *The Sound of Indo-European* Benedicte Nielsen Whitehead,2012 This contribution in this volume discuss a large variety of issues from the realm of Indo European phonology in its broadest definition stretching from minute phonetic to more abstract levels of phonemics and morphophonemics and centering upon all varieties of Indo European including the protolanguage and its recent pre stages and in effect all of its

post stages till this day **An Introduction to the Indo-European Languages** Philip Baldi, 1983 This comprehensive linguistic survey of the Indo European groups synthesizes the vast amount of information contained in the specialized handbooks of the individual stocks The text begins with an introduction to the concept of the Indo European language family the history of its discovery and the techniques of analysis The introduction also gives a structural sketch of Proto Indo European the parent language from which the others are descended Baldi then devotes a chapter to each of the 11 major branches of Indo European Italic Celtic Indo Iranian Greek Armenian Albanian Baltic Slavic Germanic Tocharian and Anatolian Each chapter provides an outline of the external history of the branch its people dialects and other relevant history This outline is followed by a structural sketch of the most important language or languages of the branch e g Old Irish for Celtic Sanskrit and Avestan for Indo Iranian Latin and Oscan Umbrian for Italic The sketch also contains the phonology morphology and syntax of each language There is lastly a sample text of each language containing both interlinear and free translation In those branches where there are special issues e g the relation of Italic to Celtic and Baltic to Slavic or the problem of archaism in Hittite additional discussions of these issues are provided Baldi's final chapter gives a brief outline of the minor Indo European languages such as Illyrian Thracian Raetic and Phrygian Adding further to the usefulness of the book are extensive bibliographies an up to date map showing the geographical distribution of the Indo European languages throughout the world and a detailed family tree diagram of the members of each sub group within the Indo European language family and their interrelationships Studies in Classical and Modern Armenian Phonology Martin Jakub Macak, 2016 This dissertation offers a comprehensive review of the current literature on the historical sound changes that underlie the diachronic development of the Armenian sounds from their Proto Indo European origin Additionally it presents novel analyses of the following six phonological or morphophonological phenomena i The original phonological distinction between the two Armenian historical laterals is analyzed in terms of voicing contrast ii The fate of the inherited final nasals in the classical language is argued to be fully predictable based on the duration of the preceding inherited vowels iii The non realization of a word final palatal glide is explained as a morphophonological process that targets specific suffixes iv The non realization of the aorist augment is analyzed as a metrically conditioned zero allomorphy v The affricate dissimilation in the aorist subjunctive is interpreted with reference to the prosodically conditioned reduction of i in the subjunctive suffix Finally vi modern Armenian plural allomorphy is analyzed in terms of the interaction between morphophonological REALIZATION and ALIGNMENT requirements and syllabic well formedness in the framework of Optimality Theory Prince and Smolensky 1993 2004 Comparative Indo-European Linguistics Robert S.P. Beekes, 2011-10-18 This book gives a comprehensive introduction to Comparative Indo European Linguistics It starts with a presentation of the languages of the family from English and the other Germanic languages the Celtic and Slavic languages Latin Greek and Sanskrit through Armenian and Albanian and a discussion of the culture and origin of the Indo Europeans the speakers of the Indo European proto language

The reader is introduced into the nature of language change and the methods of reconstruction of older language stages with many examples from the Indo European languages A full description is given of the sound changes which makes it possible to follow the origin of the different Indo European languages step by step This is followed by a discussion of the development of all the morphological categories of Proto Indo European The book presents the latest in scholarly insights like the laryngeal and glottalic theory the accentuation the ablaut patterns and these are systematically integrated into the treatment The text of this second edition has been corrected and updated by Michiel de Vaan Sixty six new exercises enable the student to practice the reconstruction of PIE phonology and morphology *Indo-European Language and Culture* Benjamin W. Fortson, IV, 2011-09-07 This revised and expanded edition provides a comprehensive overview of comparative Indo European linguistics and the branches of the Indo European language family covering both linguistic and cultural material Now offering even greater coverage than the first edition it is the definitive introduction to the field Updated corrected and expanded edition containing new illustrations of selected texts and inscriptions and text samples with translations and etymological commentary Extensively covers individual histories of both ancient and modern languages of the Indo European family Provides an overview of Proto Indo European culture society and language Designed for use in courses with exercises and suggestions for further reading included in each chapter Includes maps a glossary a bibliography and comprehensive word and subject indexes *Etymological Dictionary of Armenian* Hrach K. Martirosyan, 2010 As an Indo European language Armenian has been the subject of etymological research for over a hundred years There are many valuable systematic handbooks studies and surveys on comparative Armenian linguistics Almost all of these works with a few exceptions mostly concentrate on Classical Armenian and touch the dialects only sporadically Non literary data taken from Armenian dialects have largely remained outside of the scope of Indo European etymological considerations This book provides an up to date description of the Indo European lexical stock of Armenian with systematic inclusion of dialectal data It incorporates the lexical phonetic and morphological material in the Armenian dialects into the etymological treatment of the Indo European lexicon In this respect it is completely new *Phonologies of Asia and Africa* Alan S. Kaye, 1997-06-30 This large 2 volume work presents more than 50 authoritative articles by leading specialists on a wide variety of ancient medieval and modern languages and dialects of the greater Near East and Africa from a variety of language families The articles are concise descriptive narratives presenting the basics of the phonology of the languages and dialects with an emphasis on the phonological processes operative in them A major goal of the work is a definite statement on the language and or dialect in question with regard to genetics typology and or universal elements Of interest to general linguists as well as those specializing in Afro Asiatic languages *Epenthesis and beyond* Ji Yea Kim, Veronica Miatto, Andrija Petrović, Lori Repetti, 2024-12-17 The study of epenthesis or the insertion of a non etymological segment has been at the core of phonological theory from the start and recent approaches extend beyond phonology to include phonetic considerations as

well as morphological morphosyntactic and lexical interactions This volume includes 12 of the many papers presented at the workshop Epenthesis and Beyond held at Stony Brook University in 2021 whose goal was to provide a forum for scholars who approach epenthesis and other types of insertion from new perspectives The articles selected for this volume represent the exciting new approaches to epenthesis that linguists are engaged in They cover a wide range of research questions including how different types of insertion within the same language can use different epenthetic segments and how across languages the same phonetic material can have different phonological interpretations Topics like feature epenthesis insertion vs deletion vowel predictability nucleus less syllables and epenthetic segment quality are also explored Some of the new tools employed by the authors include ultrasound Information Theory and textsetting the study of the way poets map their text onto a metrical grid The breadth of languages investigated is noteworthy as well Kru languages spoken in Western Africa Anindilyakwa spoken in Australia Yuman languages spoken in the border area between Mexico California Arizona Motu Oceanic language spoken in Papua New Guinea Kaqchikel Mayan language spoken in Guatemala Arabic Turkish Korean and many others

The Indo-European Languages Mate Kapović, 2017-01-20 The Indo European Languages presents a comprehensive survey of the individual languages and language subgroups within this language family With over four hundred languages and dialects and almost three billion native speakers the Indo European language family is the largest of the recognized language groups and includes most of the major current languages of Europe the Iranian plateau and the Indian subcontinent Written by an international team of experts this comprehensive single volume tome presents in depth discussions of the historical development and specialized linguistic features of the Indo European languages This unique resource remains the ideal reference for advanced undergraduate and postgraduate students of Indo European linguistics and languages but also for more experienced researchers looking for an up to date survey of separate Indo European branches It will be of interest to researchers and anyone with an interest in historical linguistics linguistic anthropology and language development
