Notes upon a proposed photographic survey of Warwickshire [a paper]. William Jerome Harrison, 1890 Diverse Voices in Photographic Albums Mary Trent, Kris Belden-Adams, 2022-07-29 Through a variety of case studies by global scholars from diverse academic fields this book explores photographic album practices of historically marginalized figures from a range of time periods geographic locations and socio cultural contexts Their albums stories span various racial ethnic gender and sexual identities nationalities religions and disabilities The vernacular albums featured in this volume present narratives that move beyond those reflected in our existing histories Essays examine the visual material and aural strategies that album makers have used to assert control over the presentation of their histories and identities and to direct what those narratives have to say a point of special relevance as these albums move out of private domestic space and into public archives institutions and digital formats This book does not consider photographic albums and scrapbooks as separate genres but as a continuum of modern creative practices of photographic and mass print collage aimed at self expression and narrative building that co evolved and were readily accessible The book will be of interest to scholars working in art history history of photography visual culture material culture media studies and cultural studies The Commercial Photographer, 1926

On the Camera Arts and Consecutive Matters Hollis Frampton, 2015-01-30 The collected writings of artist and filmmaker Hollis Frampton including all the essays from the long unavailable *Circles of Confusion* along with rare additional material As Hollis Frampton's photographs and celebrated experimental films were testing the boundaries of the camera arts in the 1960s and 1970s his provocative and highly literate writings were attempting to establish an intellectually resonant form of discourse for these critically underexplored fields It was a time when artists working in diverse disciplines were beginning to pick up cameras and produce films and videotapes well before these practices were understood or embraced by institutions of contemporary art This collection of Frampton's writings presents his critical essays many written for *Artforum* and *October* along with additional material including lectures correspondence interviews and production notes and scripts It replaces and supersedes the long unavailable *Circles of Confusion* published in 1983 Frampton ranged widely over the visual arts in his writing and the texts in this collection display his unique approaches to photography film and video as well as the

plastic and literary arts They include critically acclaimed essays on Edward Weston and Eadweard Muybridge as well as appraisals of contemporary photographers the influential essay For a Metahistory of Film along with scripts textual material and scores for his films writings on video that constitute a prehistory of the digital arts a dialogue with Carl Andre his friend and former Phillips Andover classmate from the early 1960s and two inventive almost unclassifiable pieces that are reminiscent of Borges Joyce and Beckett

synchronicities abounding in this true story make sense if not serving as proof of its existence Though the account is extremely personal it touches the universal and thus becomes meaningful to anyone reading it It s Donna s loving and enthusiastic eye that reveals it and Alan s charming and rational acceptance that gives it form I marvel that I had the privilege of playing a small part in this unusual drama Alice O Howell Author of *The Web in the Sea* and *The Dove in the Stone* You and Donna have experienced certainly at a feeling state at least one other cognitive band of this total reality and you appear to have some space time cognitive data in the form of your pictures to confirm that something extra ordinary was happening William A Tiller PhD Author of *Science and Human Transformation* written after viewing the photographs September 1995 This is a truly spiritual book in which the presence of divine love allows the experience of human love to flourish It can be read as a romantic story like *Bridges of Madison County* but here the romance is allowed to flourish and lead to a sustained relationship and there is an experience of divine grace as well as human passion Harvey Honig Jungian Analyst Exceptionally written by two brilliant souls one who although already knowing she was on her perfect path still continued to question the symbols along the way while the other s eyes were slowly beginning to focus on truth and authenticity instead of the superfluous Each overlooked the external to follow the twisting winding path that was filled with intent and purpose It is a rarity to find individuals so willing to lovingly examine and absorb the many messages the rest of us ignore as we go about our lives on auto pilot A wonderful refreshing true love story that affirms the closer we get to our own authentic selves the more blissful our joy joy that flourishes in the knowledge that there are no accidents and that cause never was the reason Kimberly Largent Managing Editor *The Health Strategist* *Eyes of Sophia* is a love story a grand and wondrous love story about the authors and their relationship with Sophia the Spirit in their hearts Further Donna May and Alan Chien have given us a story about synchronicity and destiny and the ability to listen to and the courage to follow our hearts Abundant synchronicities events that on the level of cause and effect are amazing coincidences brought Donna May and Alan together and together and together each time deepening their relationship Included in the synchronicities are a series of intriguing photographs which give credence to the story *Eyes of Sophia* is a transformational story that teaches the creative use of metaphor in understanding the relevance and significance of coincidences Creatively woven together in the events in this story are spiritual metaphors of the Wizard of Oz the Tree of Life Kabbala and the dynamics of the life force and chakras including the splenic chakra One important lesson *Eyes of Sophia* teaches us is that we must listen to our own hearts and not yield to the rules that others inflict upon us we must be true to ourselves We must stay attuned to our heart and listen to what it is telling us and keep our thoughts and the images in our mind centered in that Further we all have tremendous creative imagination working for us at all times It s so important to understand that we use the same power of imagination every moment and it will create in accordance with our intent and beliefs We can t afford not to pay attention to the quality of our beliefs motives and what we look for and how we picture it *Eyes of Sophia* tells a magical miraculous and

marvelous story of finding love and Spirit Donna May and Alan Chien are blessed and teach us that we too can achieve what is in our hearts a dream come true Richard Fuller Senior Editor Metaphysical Reviews
