

Photographing History: Fred J. Maroon and the Nixon Years, 1970–1974

The images that you are about to see — one photographer's account of President Richard Nixon's years in office — offer a powerful record of an unsettling time in American history. Fred Maroon, a freelance photographer known for images of Washington monuments and landscapes, won unusual access to President Nixon in 1970 with a proposal for a book on the Nixon White House.

After publication of the book the following year, he was invited to record Nixon's reelection campaign operations. As the Watergate controversy unfolded in 1972–1974, Maroon continued to document the Nixon years, photographing the Senate investigation, the House impeachment hearings, and the president's historic resignation on August 8, 1974.

“I didn’t realize how extraordinary this was going to be, or that I was starting on a four-year project when I began.” —Fred J. Maroon in an oral

history interview at the National Museum of American History in June 1998

Photojournalists like Maroon record history in the making. The images they create shape

Henry Louis Gates Jr Alphonse Fletcher University Professor Harvard University **Photography: History and Theory** Jae Emerling, 2013-03-01 Photography History and Theory introduces students to both the history of photography and critical theory From its inception in the nineteenth century photography has instigated a series of theoretical debates In this new text Jae Emerling therefore argues that the most insightful way to approach the histories of photography is to address simultaneously the key events of photographic history alongside the theoretical discourse that accompanied them While the nineteenth century is discussed the central focus of the text is on modern and contemporary photographic theory Particular attention is paid to key thinkers such as Baudelaire Barthes and Sontag In addition the centrality of photography to contemporary art practice is addressed through the theoretical work of Allan Sekula John Tagg Rosalind Krauss and Vil m Flusser The text also includes readings of many canonical photographers and exhibitions including Atget Brassai August Sander Walker Evans The Family of Man Diane Arbus Lee Friedlander Cindy Sherman Bernd and Hilla Becher Sebastiao Salgado Jeff Wall and others In addition Emerling provides close readings of key passages from some major theoretical texts These glosses come between the chapters and serve as a conceptual line that connects them Glosses include Roland Barthes *The Rhetoric of the Image* 1964 Susan Sontag *Regarding the Pain of Others* 2002 Michel Foucault on the archive 1969 Walter Benjamin *Little History of Photography* 1931 Vil m Flusser *Towards a Philosophy of Photography* 1983 A substantial glossary of critical terms and names as well as an extensive bibliography make this the ideal book for courses on the history and theory of photography **Photography** Mary Warner Marien, 2006 Each of the eight chapters takes a period of up to forty years and examines the medium through the lenses of art science social science travel war fashion the mass media and individual practitioners Back Cover *Photography and Jewish History* Amos Morris-Reich, 2022-11-15 It is a sign of the accepted evidentiary status of photographs that historians regularly append them to their accounts Amos Morris Reich observes Very often however these photographs are treated as mere illustrations simple documentations of the events that transpired Scholars of photography on the other hand tend to prioritize the photographs themselves relegating the historical contexts to the background For Morris Reich however photography exists within reality it partakes in and is very much a component of the history it records Morris Reich examines how photography affects categories of history and experience how it is influenced by them and the ways in which our understanding of the relationship between history and photography can be theorized and reoriented Morris Reich here turns to five twentieth century cases in which photography and Jewish history

intersect Albert Kahn's utopian attempt to establish a photographic archive in Paris in order to advance world peace the spectacular failed project of Helmar Lerski the most prominent photographer in British Mandate Jewish Palestine photography in the long career of Eugen Fischer a Nazi professor of genetics the street photography of Robert Frank and the first attempt to introduce photography into the study of Russian Jewry prior to World War I as seen from the post Holocaust perspective of the early twenty first century Illustrated with nearly 100 images Photography and Jewish History moves beyond a focus on Jewish photographers or the photographic representation of Jews or Jewish visibility to plumb the deeper and more significant registers of twentieth century Jewish political history **History of Photography** Octavia

Photography and History in Colonial Southern Africa Lorena Rizzo, 2019-09-16. This book studies the relationship between photography and history in colonial Southern Africa using a series of encounters with Southern African photographic archives to reflect on photography as a distinct historical form. Through use of private and public archives, images produced by African itinerant photographers, white settlers, and colonial state institutions, this book explores the relationship between photography and history in colonial Southern Africa. Late nineteenth-century Cape Colonial prison albums, police photographs from German Southwest Africa, African studio portraits, identity documents, travel permits, and passports from the 1920s and 1930s, visual studies of whiteness and blackness authored by settler photographers, South African dompas photographs from the 1950s and 1960s, and aerial photography from the Eastern Cape in the mid twentieth century are examined to highlight the ways in which photographic images cut across conventional institutional boundaries and complicate rigid distinctions between the private and the public, the political and the aesthetic, the colonial and the vernacular, or the subject and the object. Photography and History in Colonial Southern Africa argues that rather than understanding photographs as a means of preserving and recreating the past in the present, we can value them for how they evoke at once the need for and the limits of historical reconstruction. This book will be of interest to students and scholars of colonial history, photographic history, visual media, and African studies.
