Egypt in Croatia: Croatian Fascination with Ancient Egypt from Antiquity to Modern Times Mladen Tomorad, 2019-11-20 Elements from Ancient Egypt have been present in Croatia ever since Antiquity Egypt in Croatia considers artefacts discovered in present day Croatia 16th 20th century travellers Egyptian collections and early collectors 1820s 1950s the development of Egyptology as a field of study as well as the various elements of Egyptomania Historical Geography of Bible Lands a Manual for Teachers with Fourteen Maps Richard Morse Hodge, 1915 *Decolonizing the Map* James R. Akerman, 2017-06-16 Almost universally newly independent states seek to affirm their independence and identity by making the production of new maps and atlases a top priority For formerly colonized peoples however this process neither begins nor ends with independence and it is rarely straightforward Mapping their own land is fraught with a fresh set of issues how to define and administer their territories develop their national identity establish their role in the community of nations and more The contributors to *Decolonizing the Map* explore this complicated relationship between mapping and decolonization while engaging with recent theoretical debates about the nature of decolonization itself These essays originally delivered as the 2010 Kenneth Nebenzahl Jr Lectures in the History of Cartography at the Newberry Library encompass more than two centuries and three continents Latin America Africa and Asia Ranging from the late eighteenth century through the mid twentieth contributors study topics from mapping and national identity in late colonial Mexico to the enduring complications created by the partition of British India and the racialized organization of space in apartheid and post apartheid South Africa A vital contribution to studies of both colonization and cartography *Decolonizing the Map* is the first book to systematically and comprehensively examine the engagement of mapping in the long and clearly unfinished parallel processes of decolonization and nation building in the modern world **Niagara through the stereoscope** Niagara, 1902 **Egypt on the Pentateuch's Ideological Map** Franz V. Greifenhagen, 2003-04-01 This book explores the references to Egypt in the Pentateuch twice as dense as in the rest of the Hebrew Bible in the context of the production of the text's final form during the Persian period Here as Greifenhagen shows Egypt functions ideologically as the primary other over against which Israel's identity is constructed while its role in Israel's formation appears as subsidiary and as a superseded stage in a master narrative which locates Israel's ethnic roots in Mesopotamia But the presentation of this powerful neighbour is equivocal a dominant anti Egyptian stance coexists with alternative though subordinate pro Egyptian views suggesting that the Pentateuchal narrative was produced within a context of ideological conflict over attitudes towards a land that provided a home for Jewish fugitives and emigrants **The World Map, 1300-1492** Evelyn Edson, 2007-07-15 A history of the development of world maps during the later medieval period in the centuries leading up to Columbus's journey In the two centuries before Columbus mapmaking was transformed *The World Map 1300 1492* investigates this important transitional period of mapmaking Beginning with a 1436 atlas of ten maps produced by Venetian Andrea Bianco Evelyn Edson uses maps

of the fourteenth and fifteenth centuries to examine how the discoveries of missionaries and merchants affected the content and configuration of world maps She finds that both the makers and users of maps struggled with changes brought about by technological innovation the compass quadrant and astrolabe rediscovery of classical mapmaking approaches and increased travel To reconcile the tensions between the conservative and progressive worldviews mapmakers used a careful blend of the old and the new to depict a world that was changing and growing before their eyes This engaging and informative study reveals how the ingenuity creativity and adaptability of these craftsmen helped pave the way for an age of discovery A comprehensive and complex picture of the changing face of medieval geography With the mastery of a formidable palette of historiographic knowledge and well reasoned discussions of the sources *The World Map 1300 1492* will certainly remain an important work to consult for both medieval and early modern scholars for many years to come Ian J Aebel *Terrae Incognitae*

Tracing the Jerusalem Code Eivor Andersen Oftestad, Joar Haga, 2021-04-19 With the aim to write the history of Christianity in Scandinavia with Jerusalem as a lens this book investigates the image or rather the imagination of Jerusalem in the religious political and artistic cultures of Scandinavia through most of the second millennium Jerusalem is conceived as a code in this volume focussing on Jerusalem's impact on Protestantism and Christianity in Early Modern Scandinavia *Tracing the Jerusalem Code* in three volumes Volume 1 *The Holy City Christian Cultures in Medieval Scandinavia ca 1100 1536* Volume 2 *The Chosen People Christian Cultures in Early Modern Scandinavia 1536 ca 1750* Volume 3 *The Promised Land Christian Cultures in Modern Scandinavia ca 1750 ca 1920* **The Best Books** William Swan Sonnenschein, 1891

Dr. William Smith's Dictionary of the Bible William Smith, 1873 **A Dictionary of the Bible: Kabzeel-Red-heifer** William Smith, 1863 **Cyclopaedia of Biblical, Theological, and Ecclesiastical Literature** John McClintock, James Strong, 1889 *Cruchley's Picture of London ...* G. F. Cruchley, 1847 *A Dictionary of the Bible, Comprising Its Antiquities, Biography, Geography and Natural History. Edited by W. Smith* William Smith, 1860 *Cruchley's Picture of London, or visitor's assistant* George Frederick Cruchley, 1831 **Portraying the Land** Rehav Rubin, 2018-05-22 The book presents and discusses a large corpus of Jewish maps of the Holy Land that were drawn by Jewish scholars from the 11th to the 20th century and thus fills a significant lacuna both in the history of cartography and in Jewish studies The maps depict the biblical borders of the Holy Land the allotments of the tribes and the forty years of wanderings in the desert Most of these maps are in Hebrew although there are several in Yiddish Ladino and in European languages The book focuses on four aspects it presents an up to date corpus of known maps of various types and genres it suggests a classification of these maps according to their source shape and content it presents and analyses the main topics that were depicted in the maps and it puts the maps in their historical and cultural contexts both within the Jewish world and the sphere of European cartography of their time The book is an innovative contribution to the fields of history of cartography and Jewish studies It is written for both professional readers and the general public The Hebrew edition 2014 won the Izhak Ben Zvi Prize **Cruchley's**
