Photography in the Third Reich: Art, Physiognomy and Propaganda Christopher Webster,2021-01-07 This lucid and comprehensive collection of essays by an international group of scholars constitutes a photo historical survey of select photographers who embraced National Socialism during the Third Reich These photographers developed and implemented physiognomic and ethnographic photography and through a Selbstgleichschaltung a self co ordination with the regime continued to practice as photographers throughout the twelve years of the Third Reich The volume explores through photographic reproductions and accompanying analysis diverse aspects of photography during the Third Reich ranging from the influence of Modernism the qualitative effect of propaganda photography and the utilisation of technology such as colour film to the photograph as ideological metaphor With an emphasis on the idealised representation of the German body and the role of physiognomy within this representation the book examines how select photographers created and developed a visual myth of the master race and its antitheses under the auspices of the Nationalist Socialist state Photography in the Third Reich approaches its historical source photographs as material culture examining their production construction and proliferation This detailed and informative text will be a valuable resource not only to historians studying the Third Reich but to scholars and students of film history of art politics media studies cultural studies and holocaust studies

Design and Visual Culture from the Bauhaus to Contemporary Art Edit Tóth,2018-05-16 This book complements the more textually based Bauhaus scholarship with a practice oriented and creative interpretive method which makes it possible to consider Bauhaus related works in an unconventional light Edit Toth argues that focusing on the functionalist approach of the Bauhaus has hindered scholars from properly understanding its design work With a global scope and under studied topics the book advances current scholarly discussions concerning the relationship between image technologies and the body by calling attention to the materiality of image production and strategies of re channeling image culture into material processes and physical body space the space of dimensionality and everyday activity

Bauhaus, 1919-1933 Magdalena Droste,2002 Seventy years after its foundation in Weimar the Bauhaus has become a concept indeed a catchphrase all over the world The respect which it commands is associated above all

with the design it pioneered one which we know describe as Bauhaus style This volume traces the history of Bauhaus
