Practicing New Historicism:

Practicing New Historicism Catherine Gallagher, Stephen Greenblatt, 2001-09 Two literary scholars focus on five central aspects of the literary critical theory recurrent use of anecdotes preoccupation with the nature of representations fascination with the history of the body sharp focus on neglected details and skeptical analysis of ideology *Stephen Greenblatt's New Historicism. A Viable Theory?* Sebastian Langner, 2014-10-01 Seminar paper from the year 2011 in the subject Literature Comparative Literature grade 1.0 University of Constance course Kulturkontakte Theorien in den Geschichts und Literaturwissenschaften language English abstract By the 1990s New Historicism and its main progenitor Stephen Greenblatt rose to the attention of scholars worldwide and it is now a widely accepted theory If one can speak of a theory since New Historicism has often been accused of lacking a distinct theoretical program However this did not remain the sole critical reproach New Historicism had to deal with As with many a radically new idea the approach provoked discontent as well Inaccuracy and armchair historicism were among the accusations New Historicism had to cope with Nevertheless its popularity increased and it is well nigh impossible to imagine literary studies today without it Despite its importance and popularity the New Historicism has to this day successfully refused to be thoroughly theorized and classified to be forced into a strict set of rules It therefore remains a difficult task to label anything truly New Historicist as even New Historicists themselves are reluctant to give a subsumable definition of the concept The principal question of this thesis Is New Historicism a viable theory after all Despite the international acclaim it has earned does it keep its promises Has it revolutionized modern literary studies Historicizing Theory Peter C. Herman, 2003-12-04 Examines deconstruction New Historicism postcolonialism and other contemporary theoretical movements in their historical contexts *Narrating the Past* A. Robinson, 2011-10-04 In recent years controversy has surrounded the narrative turn in history and the historical turn in fiction This book clarifies what is at stake tracing connections between historiography and life writing arguing that the challenges posed in representing the past illuminate issues which are central to all literary narrative **The Arden Research Handbook of Contemporary Shakespeare Criticism** Evelyn Gajowski, 2020-10-15 The Arden Research Handbook of Contemporary Shakespeare Criticism is a wide ranging authoritative guide to research on critical approaches to Shakespeare by an international team of leading scholars It contains chapters on 20 specific critical practices each grounded in analysis of a Shakespeare play These practices range from foundational approaches including character studies close reading and genre studies through those that emerged in the 1970s and 1980s that challenged the preconceptions on which traditional liberal humanism is based including feminism cultural materialism and new historicism Perspectives drawn from postcolonial queer studies and critical race studies besides more recent critical practices including presentism ecofeminism and cognitive ethology all receive detailed treatment In addition to its coverage of distinct critical approaches the handbook contains various sections that provide non specialists with practical help an A Z glossary of key terms and concepts a

Shakespeare and Historical Formalism Stephen Cohen, 2016-04-01 Located at the intersection of new historicism and the new formalism historical formalism is one of the most rapidly growing and important movements in early modern studies taking seriously the theoretical issues raised by both history and form it challenges the anti formalist orthodoxies of new historicism and expands the scope of historicist criticism Shakespeare and Historical Formalism is the first volume devoted exclusively to collecting and assessing work of this kind With essays on a broad range of Shakespeare s works and engaging topics from performance theory to the emergence of the literary and from historiography to pedagogy the volume demonstrates the value of historical formalism for Shakespeare studies and for literary criticism as a whole Shakespeare and Historical Formalism begins with an introduction that describes the nature and potential of historical formalism and traces its roots in early modern literary theory and its troubled relationship with new historicism The volume is then divided into two sections corresponding to the two chief objectives of historical formalism a historically informed and politically astute formalism and a historicist criticism revitalized by attention to issues of form The first section Historicizing Form explores from a variety of perspectives the historical and political sources meanings and functions of Shakespeare s dramatic forms The second section Re Forming History uses questions of form to rethink our understanding of historicism and of history itself and in doing so challenges some of our fundamental literary critical pedagogical and epistemological assumptions Concluding with suggestions for further reading on historical formalism and related work Shakespeare and Historical Formalism invites scholars to rethink the familiar categories and principles of formal and historical criticism

The sense of early modern writing Mark Robson,2018-09-30 In *The sense of Early Modern writing*

Mark Robson pursues the relation between the concept of the early modern and modernity tracing the complex interactions of post Romantic philosophical aesthetics and early modern rhetoric and poetics The book therefore questions the status of what we now think of as literary texts in a period prior to the emergence of literature as a category In this way Robson argues for an attention to the classical notion of aisthesis that is for the crucial dimension of perception and response in reading and thinking and its rhetorical determination to be taken into account Robson's theoretically informed approach drawing in particular on the work of Jacques Derrida and Paul de Man fundamentally challenges the idea that critical theory is of little relevance in the reading of early modern texts The sense of Early Modern writing includes readings of both familiar and unfamiliar texts by Shakespeare Sidney Jonson Hester Pulter and others and considers topics such as ears eyes tongues hands and voices in order to ask How should we read early modern texts The book will therefore be of interest to all students and researchers in early modern or Renaissance studies as well as to those thinking through the theories and histories of literature aesthetics and rhetoric

Speaking With the Dead Jurgen Pieters, 2019-08-06 This book deals with the special power of literary texts to put us in contact with the past A large number of authors coming from different ages have described this power in terms of the conversation with the dead when we read these texts we somehow find ourselves conducting a special kind of dialogue with dead authors The book covers a number of texts and authors that make use of this metaphor Petrarch Machiavelli Sidney Flaubert Michelet Barthes In connecting these texts and authors in novel ways Jurgen Pieters tackles the all important question of why we remain fascinated with literature in general and with the specific texts that to us are still its backbone Situated in the aftermath of New Historicism the book challenges the idea that literary history as a reading practice stems from a desire to speak with the dead Key Features Offers a broad survey a combination of classical literature Renaissance literature and modern theory and history Issues a plea for the importance of reading literary texts and the power of literature Discusses key figures from the Western canon Homer Virgil Dante Machiavelli in light of the idea that we can learn from the past by talking to the dead Combines theoretical discussions of the relationship between literature and history with close reading of works by major literary authors and historians

Melville and the Question of Meaning David Faflik, 2018-01-17 This rich volume of essays restores meaning itself as the focal point of one of our most thoughtful modern writers Herman Melville Melville and the Question of Meaning thinks about thinking in Melville For if Melville's concerns with interpretation the contributors to one recent collection variously read the author for the meaning of the characters the meaning of the body recesses of meaning deepest levels of meaning double meaning and

the meaning of being and everything else overlap with our own concerns at a cultural moment when meaning feels especially strained we have lost sight of the central place of meaning making in Melville's work My own readings in Melville are a pedestrian's guide through the self-conscious complications of meaning we meet with in Melville across a range of different disciplines and endeavors Combining aesthetics and sociolinguistics history and theory rhetoric and politics philosophy and film studies Melville and the Question of Meaning demonstrates that the project of making meaning in Melville remains as vital as ever

New essays by a range of leading theorists on the interdisciplinary study of literature and history *Novel horizons* Gerd Bayer, 2016-07-15 Novel horizons analyses how narrative prose fiction developed during the English Restoration It argues that after 1660 generic changes within dramatic texts occasioned an intense debate within prologues and introductions This

discussion about the poetics of a genre was echoed in the paratextual material of prose fictions. In the absence of an official poetics that defined prose fiction, paratexts fulfilled this function and informed readers about the budding genre. This study traces the piecemeal development of these boundaries and describes the generic competence of readers through the analysis of paratexts and prose fictions. *Novel horizons* covers the surviving textual material widely, focusing on narrative prose fictions published between 1660 and 1710. In addition to tracing the paratextual poetics of Restoration fiction, this book also covers the state of the art of fiction writing during the period, discussing character development, narrative point of view, and questions of fictionality and realism.
