Quiet Helpers Achim von Borries, 2000 **Historical Dictionary of the Friends (Quakers)** Margery Post Abbott, Mary Ellen Chijioke, Pink Dandelion, John William Oliver, 2011-12-01 The modern reputation of Friends in the United States and Europe is grounded in the relief work they have conducted in the presence and aftermath of war Friends also known as Quakers have coordinated the feeding and evacuation of children from war zones around the world They have helped displaced persons without regard to politics They have engaged in the relief of suffering in places as far flung as Ireland France Germany Ethiopia Egypt China and India Their work was acknowledged with the award of the Nobel Peace Prize in 1947 to the American Friends Service Committee AFSC and the Friends Service Council of Great Britain More often however Quakers live worship and work quietly without seeking public attention for themselves Now the Friends are a truly worldwide body and are recognized by their Christ centered message of integrity and simplicity as well as their nonviolent stance and affirmation of the belief that all people women as well as men may be called to the ministry The expanded second edition of the *Historical Dictionary of the Friends Quakers* relates the history of the Friends through a chronology an introductory essay an extensive bibliography and over 700 cross referenced dictionary entries on concepts significant figures places activities and periods This book is an excellent access point for scholars and students who will find the overviews and sources for further research provided by this book to be enormously helpful **Quakers in the Israeli-Palestinian**

Encounters in the Rubble Erica J. Lansberg, 2025-08-12 The US occupation of Germany after World War II was a time in which encounters between American soldiers and young German civilians were especially ubiquitous Overall German children and youth played a fundamental role in the US occupation impacting both personal and political relations Using a blend of sources ranging from German children s diaries to official US military records this work provides a wide reaching examination of the youngest civilians under occupation in the postwar aftermath of the Nazi regime It centers on the personal experiences of both German children and American military personnel during the occupation and also examines the

ways that young Germans impacted transatlantic policies especially in the context of the emerging Cold War including during the Berlin Airlift This work thus considers the youngest members of the occupied German population as important historical actors during a time of major transition from war to peace marked by encounters made in the rubble The Quaker World C. Wess Daniels,Rhiannon Grant,2022-11-04 The Quaker World is an outstanding comprehensive and lively introduction to this complex Christian denomination Exploring the global reach of the Quaker community the book begins with a discussion of the living community as it is now in all its diversity and complexity The book covers well known areas of Quaker development such as the formation of Liberal Quakerism in North America alongside topics which have received much less scholarly attention in the past such as the history of Quakers in Bolivia and the spread of Quakerism in Western Kenya It includes over sixty chapters by a distinguished international and interdisciplinary team of contributors and is organised into three clear parts Global Quakerism Spirituality Embodiment Within these sections key themes are examined including global Quaker activity significant Quaker movements biographies of key religious figures important organisations pacifism politics the abolition of slavery education industry human rights racism refugees gender disability sexuality and environmentalism The Quaker World provides an authoritative and accessible source of information on all topics important to Quaker Studies As such it is essential reading for students studying world religions Christianity and comparative religion and it will also be of interest to those in related fields such as sociology political science anthropology and ethics Saving Germany James Enns,2017-03-01 Historians have mainly concentrated on the significance of the Marshall Plan the creation of NATO and exports of pop culture to describe the role of North Americans in the development of West Germany after the devastation of the Second World War In Saving Germany James Enns brings an entirely new focus to West Germany s recovery by demonstrating how North American missionaries played a formative role in cultivating the humanitarian and spiritual conscience of postwar Germany Enns begins by categorizing the kinds of Protestant missionary agencies active in West Germany which ranged from mainline churches overseeing ecumenical humanitarian and church reconstruction projects to independent evangelical mission agencies working alongside local church groups He then identifies notable themes that contextualize the spectrum of missionary responses including the degree to which missionaries intentionally functioned as agents of Western democracy In addition to discussions of well known figures such as US evangelist Billy Graham Enns highlights the important contributions of the Janz Quartet from the Canadian prairies and Robert Kreider of the Mennonite Central Committee Tracking thirty years of transnational Christian missionary work Saving Germany demonstrates the significant role of North American missionary agencies in the reconstruction of Germany Voluntary Organisations, the Red Cross, and the Features of Humanitarian Reconstruction in Western Europe after the World Wars Romain Fathi,Melanie Oppenheimer,Paul-André Rosental,2025-06-11 This book explores the ways in which non government organisations have contributed to the reconstruction of and care for populations in Western European countries including but not limited to

Belgium France Germany Italy and the United Kingdom in the aftermath of the World Wars Historical research on voluntary or non government organisations and their contribution to the reconstruction of states communities and humanitarian assistance to civilian populations following conflicts epidemics and disasters through the twentieth century has generally focused on non Western European countries except for Second World War II The historiography suggests that it is mostly in Eastern Europe the Middle East Asia and Africa that natural or man made disasters have occurred and that these places have been the focus for humanitarian assistance Rather the humanitarian enterprise is viewed through the binary of the Global North Global South those who save and those who are saved The chapters in this volume investigate how the Red Cross movement the League of Red Cross Societies the International Committee of Red Cross and individual national societies and other voluntary organisations such as the Rockefeller Foundation and a range of other international and local non government bodies have contributed to reconstruction in these countries at both national and local levels following times of crises such as wars civilian upheavals and disasters This book will appeal to scholars and students of history humanitarian studies international relations and social sciences The chapters in this book were originally published as special issues in *European Review of History Revue européenne d'histoire* **Quaker Life**, 2000 Warlands P. Gatrell, N. Baron, 2009-10-22 The displacement of population during and after the Second World War took place on a global scale and formed part of a longer historical process of violence territorial reconfiguration and state development This book focuses on the profound political social and economic upheavals in the Soviet Union and Eastern Europe at this time **Picking Up the Pieces from Portugal to Palestine** Howard Wriggins, 2004-06-14 As a conscientious objector prior to World War II author Howard Wriggins joined the American Friends Service Committee a non governmental organization that with its British counterpart would receive the Nobel Peace Prize in 1947 for their many years of refugee relief work A young idealist who left his graduate studies in political science to assist refugees fleeing Hitler's madness Wriggins batted out daily letters on an ancient Underwood portable to describe the cruel events he witnessed He shares his experiences as he came to know numberless refugees and prisoners in Portugal internees in Algiers Yugoslavs fleeing in transport ships refugees and Vatican officials in Italy anguished French colleagues after years of Occupation and Palestinians jammed into Gaza camps Wriggins reviewed these letters five decades later after he retired from Columbia University as the Bryce Professor of the History of International Relations In them he discovered a world far from the market driven prosperity and political peace Europe enjoys today Professor Wriggins has used his letters to tell a riveting personal story about the horrors of governmental persecution and a war to end it in the midst of which idealism nevertheless persisted **A Christian Peace Experiment** Ian M. Randall, 2018-03-14 This book examines part of the development of the Bruderhof community which emerged in Germany in 1920 Community members sought to model their life on the New Testament This included sharing goods The community became part of the Hutterite movement with its origins in sixteenth century Anabaptism After the rise to power of

the Nazi regime the Bruderhof became a target and the community was forcibly dissolved. Members who escaped from Germany and travelled to England were welcomed as refugees from persecution and a community was established in the Cotswolds. In the period 1933 to 1942 when the Bruderhof's witness was advancing in Britain its members were in touch with many individuals and movements. This book covers the Bruderhof's connections with among others the Fellowship of Reconciliation, Dietrich Bonhoeffer, the Peace Pledge Union, the social work of Muriel and Doris Lester in East London, Jewish refugee groups and artistic pioneers like Eric Gill. As significant numbers of British people joined the Bruderhof its farming, publishing and arts and crafts activities extended considerably. But with the outbreak of the Second World War German members came to be regarded with suspicion and British members became unpopular locally because they were pacifists. Although the Bruderhof was defended in Parliament notably by Lady Astor it seemed that German members would be interned as enemy aliens. The consequence was that by 1942 over 300 community members had left England. With Mennonite assistance they began to forge a new life in South America. This book traces a remarkable Christian peace experiment being undertaken in a time of great political upheaval.

A Journey Abroad Roland J. Harris, 2018-02-28. The poems in this book were written between 1944 and 1946 whilst the author was serving with the Friends Ambulance Unit first in London hospitals and then in northwest Europe following the Allied advance. He remained in Germany during the aftermath of the war working with displaced persons, refugees and civilians. Roland J. Harris 1919-1969 became a teacher and pioneering educational researcher and author of textbooks and articles on the teaching of English grammar and poetry. On the Schools Council he was instrumental in raising the school leaving age to sixteen. Together with his wife Martha Harris he conceived and started the Schools Counselling course at the Tavistock Clinic. Later he taught psycholinguistics at Brunel University. *A Journey Abroad* his own title is accompanied by photographs that he took at the time. These complex poems constitute a historical record, an analysis of pacifist convictions, a deeply introspective autobiographical narrative and above all a celebration of life.
