They served in all three armed force branches and all the major theatres of war yet nursing as a form of war work has long been under explored. *An Officer and a Lady* fills that gap. One hundred years of wartime nursing practices, 1854-1953 Jane Brooks, Christine Hallett, 2015-11-01 This book examines the work that nurses of many differing nations undertook during the Crimean War the Boer War the Spanish Civil War both World Wars and the Korean War. It makes an excellent and timely contribution to the growing discipline of nursing wartime work. In its exploration of multiple nursing roles during the wars it considers the responsiveness of nursing work as crisis scenarios gave rise to improvisation and the sometimes quite dramatic breaking of practice boundaries. The originality of the text lies not only in the breadth of wartime practices considered but also the international scope of both the contributors and the nurses they consider. It will therefore appeal to academics and students in the history of nursing and war nursing work and the history of medicine and war from across the globe.
