Dullemen,2018-05-17 Scores of books exist about the life and teachings of the Russian spiritual visionary G I Gurdjieff 1866 1949 yet few devote significant coverage to the Gurdjieff Movements These several hundred precise and mostly asymmetrical gestures arranged into detailed choreographies for groups of practitioners were designed by Gurdjieff himself This new book reconsiders the eminent role of the Movements revealing them as a vital yet often neglected component in the transmission of Gurdjieff s legacy Van Dullemen whose first Movements teacher received her instruction from Gurdjieff himself is in a unique position to offer background theory and first hand experience about this subject He is a professional musician and a long time practitioner of the Gurdjieff work who trained in these Movements and served as a master accompanist for the practice for over thirty years No book can teach the Movements the author clearly asserts And he makes no such attempt here Far from an instruction manual The Gurdjieff Movements A Communication of Ancient Wisdom offers invaluable insight into and greater understanding of the whys and wherefores of this fourth arm of the vast teaching that comprises Gurdjieff s complete communication his books his oral teachings his music and finally his Movements Along with fascinating stories of his own journey of discovery van Dullemen has skillfully integrated autobiographical descriptions of the master Gurdjieff interviews with direct pupils of Gurdjieff diligent research within a wide range of firsthand sources descriptions of the scientific cultural and social climate during Gurdjieff s time and the relationship between these and his teaching The book is also a rare accomplishment While highly authoritative it is nonetheless written in a direct style with clear language making it accessible to the public at large who may have interest but little background in this esoteric science and practice

The Bloomsbury Handbook of Culture and Identity from Early Childhood to Early Adulthood Ruth Wills, Marian de Souza, Jennifer Mata-McMahon, Mukhlis Abu Bakar, Cornelia Roux, 2021-07-15 How do children determine which identity becomes paramount as they grow into adolescence and early adulthood Which identity results in patterns of behaviour as they develop To whom or to which group do they feel a sense of belonging How might children adolescents and young adults negotiate the gap between their own sense of identity and the values promoted by external influences The contributors explore the impact of globalization and pluralism on the way most children and adolescents grow into early adulthood They look at the influences of media and technology that can be felt within the living spaces of their homes competing with the religious and cultural influences of family and community and consider the ways many children and adolescents have developed multiple and virtual identities which help them to respond to different circumstances and

contexts They discuss the ways that many children find themselves in a perpetual state of shifting identities without ever being firmly grounded in one potentially leading to tension and confusion particularly when there is conflict between one identity and another This can result in increased anxiety and diminished self esteem This book explores how parents educators and social and health workers might have a raised awareness of the issues generated by plural identities and the overpowering human need to belong so that they can address associated issues and nurture a sense of wholeness in children and adolescents as they grow into early adulthood
