Rabid Transit:

Rikisha to Rapid Transit Peter J. Rimmer, 2013-09-24 *Rikisha to Rapid Transit* Urban Public Transport Systems and Policy in Southeast Asia examines the historical development of urban public transport systems and policy in Southeast Asia. The focus is on the passenger transport sector of the urban economy and the dilemmas facing decision makers with regard to the choice of technology and organization. The prime target of the monograph is the development studies field in which urban public transport has been a neglected topic. The book is organized into three parts. Part 1 assesses Western Japanese and overseas Chinese models and their relevance to decision making in Southeast Asia. Part 2 examines the evolution of transport systems and policy in five capitals: Singapore, Bangkok, Jakarta, Manila, and Kuala Lumpur, and several provincial cities: Penang, Surabaya, Davao, City, Chiang Mai, Baguio, and Metro Cebu. Part 3 brings out the implications of this study for theory and practice. The argument is structured in this way in order to preserve the historical sequence which will become progressively clearer as the study unfolds, particularly as there is a very positive indication that the transport situation in cities results as much from historical development as from the interaction of forces currently at play. **American Motorcyclist**, 1983-04

Science fiction as a literature of fantasy goes beyond the mundane to ask the question: what if the world were different from the way it is? It often challenges the real, builds on imagination, places no limits on human capacities and encourages readers to think outside their social and cultural conditioning. This book presents a systematic study of Indian women's science fiction. It offers a critical analysis of the works of four female Indian writers of science fiction: Rokeya Sakhawat Hossain, Manjula Padmanabhan, Priya Sarukkai Chabria, and Vandana Singh. The author considers not only the evolution of science fiction writing in India but also discusses the use of innovations and unique themes including science fiction in different Indian languages, the literary, political, and educational activism of the women writers, and eco-feminism and the idea of cloning in writing to argue that this genre could be viewed as a vibrant representation of freedom of
