Gomez,2000-11-09 The transatlantic slave trade brought individuals from diverse African regions and cultures to a common destiny in the American South In this comprehensive study Michael Gomez establishes tangible links between the African American community and its African origins and traces the process by which African populations exchanged their distinct ethnic identities for one defined primarily by the conception of race He examines transformations in the politics social structures and religions of slave populations through 1830 by which time the contours of a new African American identity had begun to emerge After discussing specific ethnic groups in Africa Gomez follows their movement to North America where they tended to be amassed in recognizable concentrations within individual colonies and later states For this reason he argues it is possible to identify particular ethnic cultural influences and ensuing social formations that heretofore have been considered unrecoverable Using sources pertaining to the African continent as well as runaway slave advertisements ex slave narratives and folklore Gomez reveals concrete and specific links between particular African populations and their North American progeny thereby shedding new light on subsequent African American social formation

The Political Languages of Emancipation in the British Caribbean and the U.S. South Demetrius L. Eudell, 2003-04-03 This comparative study examines the emancipation process in the British Caribbean particularly Jamaica during the 1830s and in the United States particularly South Carolina during the 1860s Analyzing the intellectual and ideological foundations of postslavery Anglo America Demetrius Eudell explores how former slaves former slaveholders and their societies central governments understood and discussed slavery emancipation and the transition between the two Eudell investigates the public policies which addressed issues of labor control access to land and the general social behaviors of former slaves used to execute emancipation In both regions government appointed officials special magistrates in Jamaica and agents of the Freedmen s Bureau in South Carolina were crucial in implementing these policies While many former slaves were fighting for the right to be paid for their labor and to own land many officials came to view their role as part of a new civilizing mission whose goal was to eradicate the psychic damage supposedly caused by slavery Eudell concludes by examining the 1865 Morant Bay rebellion in Jamaica and the retreat from Reconstruction in South Carolina part of the larger movement of Redemption that occurred in 1877 Both of these occurrences represented the incomplete victory of emancipation Eudell argues and should provoke scholarly questions regarding the persistent thesis of U S exceptionalism

Reidy, 2000-11-09 Reidy has produced one of the most thoughtful treatments to date of a critical moment in southern history placing the social transformation of the South in the context of the age of capital and the changes in the markets ideologies etc of the Atlantic world system Better than anyone perhaps Reidy has elaborated both the large and small narratives of this development connecting global forces with the initiatives and reactions of ordinary southerners black and white Thomas C Holt University of Chicago Joseph Reidy s detailed analysis of social and economic developments in central Georgia during and after slavery will take its place among the standard works on these subjects Its discussions of the expansion of the cotton kingdom and of the changes after emancipation make it necessary reading for all concerned with southern and African American history Stanley Engerman University of Rochester Successfully places the experience of one region s people into the larger theoretical context of world capitalist development and in the process challenges other scholars to do the same Rural Sociology **Race, Sex, and Social Order in Early New Orleans** Jennifer M. Spear, 2009-06-15 Winner 2009 Kemper and Leila Williams Prize in Louisiana History The Historic New Orleans Collection and the Louisiana Historical Association A microcosm of exaggerated societal extremes poverty and wealth vice and virtue elitism and equality New Orleans is a tangled web of race cultural mores and sexual identities Jennifer M Spear s examination of the dialectical relationship between politics and social practice unravels the city s construction of race during the eighteenth and early nineteenth centuries Spear brings together archival evidence from three different languages and the most recent and respected scholarship on racial formation and interracial sex to explain why free people of color became a significant population in the early days of New Orleans and to show how authorities attempted to use concepts of race and social hierarchy to impose order on a decidedly disorderly society She recounts and analyzes the major conflicts that influenced New Orleanian culture legal attempts to impose racial barriers and social order political battles over propriety and freedom and cultural clashes over place and progress At each turn Spear s narrative challenges the prevailing academic assumptions and supports her efforts to move exploration of racial formation away from cultural and political discourses and toward social histories Strikingly argued richly researched and methodologically sound this wide ranging look at how choices about sex triumphed over established class systems and artificial racial boundaries supplies a refreshing contribution to the history of

early Louisiana **Abraham Lincoln and Reconstruction** Peyton McCrary, 2015-03-08 After victorious federal troops swept through southern Louisiana in 1862 the state became the testing ground for Abraham Lincoln's approach to reconstruction and thus the focal point for the debate over post war policy in Washington Peyton McCrary offers a comprehensive account of the social and political upheavals in Louisiana set against the background of a new interpretation of the revolutionary dimensions of the Civil War party system He compares the moderate Republican regime set up by Lincoln with the antebellum social and political system and contrasts it with the reactionary government established in 1865 under the aegis of Andrew Johnson and the Democratic Party The author also explores the social history of the contract labor system the evolution of the Freedmen's Bureau and the growing participation of blacks in the Louisiana Republican movement Drawing on extensive research in unpublished manuscripts party records and newspapers and using sophisticated quantitative analysis of electoral and legislative behavior Professor McCrary suggests a significant revision of earlier interpretations of Lincoln's reconstruction policies He finds that the real architect of the gradualist approach with which the President was publicly identified was his commanding general in Louisiana Nathaniel P Banks who was less open to the idea of Negro suffrage than was Lincoln himself Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
