Race To Velasco:

Race to Velasco Paul N. Spellman,1995 Henry Woods and Antonio Gonzales head for adventure with rebel Texans at the Battle of Velasco before the Texas Revolution The Milwaukee Police and Latino Community Relations, 1964-2000 Antonio G. Guajardo Jr.,2019-12-06 This study examines the relationship between the Milwaukee Police Department and the Latino community in the second half of the twentieth century Los Tucsonenses Thomas E. Sheridan,2016-05-26 Originally a presidio on the frontier of New Spain Tucson was a Mexican community before the arrival of Anglo settlers Unlike most cities in California and Texas Tucson was not initially overwhelmed by Anglo immigrants so that even until the early 1900s Mexicans made up a majority of the town s population Indeed it was through the efforts of Mexican businessmen and politicians that Tucson became a commercial center of the Southwest Los Tucsonenses celebrates the efforts of these early entrepreneurs as it traces the Mexican community s gradual loss of economic and political power Drawing on both statistical archives and pioneer reminiscences Thomas Sheridan has written a history of Tucson s Mexican community that is both rigorous in its factual analysis and passionate in its portrayal of historic personages The Color of Being/El Color del Ser Susie Kalil,2016-08-23 Born in Bryan Texas and raised in Houston Dorothy Hood won a scholarship to the Rhode Island School of Design in the early 1930s then worked as a model in New York to earn money for classes at the Art Students League On a whim she drove a roadster to Mexico City with friends in 1941 and ended up staying for more than twenty years Hood was front and center at the cultural political and social crossroads of Mexico and Latin America during a period of intense creative ferment She developed close friendships with the exiled European intelligentsia and Latin American surrealists artists composers poets playwrights and revolutionary writers She married the Bolivian composer Jos Mar a Velasco Maidana and together they traveled all over the world Once back in Houston Hood produced epic paintings that evoked the psychic void of space large scale works evoking primordial seas volcanic explosions and the cosmos contained within the mind The Color of Being El Color del Ser establishes a vital connection among Texas Latin America New York and Europe It celebrates this important Modernist painter whose oeuvre is integral to the ongoing dialogue of abstraction by artists of the postwar period Sponsored by the Art Museum of South Texas **Impurity of Blood** Joshua Goode,2009-12 Impurity of Blood analyzes the proposition of Spanish racial thought in the late 19th and early 20th centuries that racial strength came from a fusion of different groups rather than from a kind of racial purity By providing a history of ethnic thought in Spain in the medieval and early modern era and by studying the formation of racial thought in Spain s nascent human sciences and its political and cultural manifestations leading into the Franco regime it provides a new view of racial thought in Europe and its connections to the larger twentieth century formation of racial thought in the West Visions for the Global Economy John R. Gagain Jr,2012-08 Visions for the Global Economy explores a collection of global issues that are vital to every student of world affairs It addresses key topics on the global stage focusing on the foundational aspects of these

global issues It gets to the heart of diverse arguments that create roadblocks to progress in the global economy and combines current affairs with key turning points in history This guide examines topics of the global economy at their core as each chapter traces the storyline of one issue Global issues and the decisions world leaders make are complex and there never is one clear reason as to why something exists or why something takes place Visions for the Global Economy also considers economic growth global economic governance and political economy providing a solid base for understanding the increasingly complex world today The global economy has changed exponentially over the last decade and a half Today students cannot exclusively study politics or economics They need to study both and have a good grasp of the political economy to succeed in today s world

Jesuit Accounts of the Colonial Americas Marc André Bernier, Clorinda Donato, Hans-Jürgen Lüsebrink, 2014-09-17 In recent years scholars have turned their attention to the rich experience of the Jesuits in France and Spain s American colonies That attention has brought a flow of new editions and translations of Jesuit accounts of the Americas it is now time for a study that examines the full range of that work in a comparative perspective Jesuit Accounts of the Colonial Americas offers the first comprehensive examination of such writings and the role they played in solidifying images of the Americas The collection also provides a much needed re examination of the work of the Jesuits in relation to Enlightenment ideals and the modern social sciences and humanities two systems of thought that have in the past appeared radically opposed but which are brought together here under the rubric of modern ethnographic knowledge Linking Jesuit texts the rhetorical tradition and the newly emerging anthropology of the Enlightenment this collection traverses the vast expanses of Old and New World France and Spain in fascinating new ways

Indian and Nation in Revolutionary Mexico Alexander S. Dawson, 2020-08-04 During the 1920s and 1930s in Mexico both intellectuals and government officials promoted ethnic diversity while attempting to overcome the stigma of race in Mexican society Programs such as the Indigenista movement represented their efforts to redeem the Revolution s promise of a more democratic future for all citizens This book explores three decades of efforts on the part of government officials social scientists and indigenous leaders to renegotiate the place of native peoples in Mexican society It traces the movement s origins as a humanitarian cause among intellectuals the involvement of government in bringing education land reform cultural revival and social research to Indian communities and the active participation of Indian peoples Traditionally scholars have seen Indigenismo as an elitist formulation of the Indian problem Dawson instead explores the ways that the movement was mediated by both elite and popular pressures over time By showing how Indigenismo was used by a variety of actors to negotiate the shape of the revolutionary state from anthropologist Manuel Gamio to President L zaro C rdenas he demonstrates how it contributed

to a new pact of domination between indigenous peoples and the government Although the power of the Indigenistas was limited by the fact that Indian remained a racial slur in Mexico the indigenas capacitados empowered through Indigenismo played a central role in ensuring seventy years of PRI hegemony In studying the confluence of state formation social science and native activism Dawson's book offers a new perspective for understanding the processes through which revolutionary hegemony emerged **Yachting**, 1983-08 *Breeding Barley in the New Millennium* Hugo E. Vivar, 2001 These proceedings cover topics as various as breeding for resistance to disease such as stripe rust Fusarium head blight and barley yellow dwarf virus trends and impacts over two decades of barley breeding in Latin America the impacts of barley breeding in Chile Ecuador and Peru the contributions of yield and crop management to improving barley yields the development of hull less barley and other topics *Making Ecuadorian Histories* O. Hugo Benavides, 2010-01-01 In Ecuador as in all countries archaeology and history play fundamental roles in defining national identity Connecting with the prehistoric and historic pasts gives the modern state legitimacy and power But the state is not the only actor that lays claim to the country's archaeological patrimony nor is its official history the only version of the story Indigenous peoples are increasingly drawing on the past to claim their rights and standing in the modern Ecuadorian state while the press tries to present a neutral version of history that will satisfy its various publics This pathfinding book investigates how archaeological knowledge is used for both maintaining and contesting nation building and state hegemony in Ecuador Specifically Hugo Benavides analyzes how the pre Hispanic site of Cochasqui has become a source of competing narratives of Native American Spanish and Ecuadorian occupations which serve the differing needs of the nation state and different national populations at large He also analyzes the Indian movement itself and the recent controversy over the final resting place for the traditional monolith of San Birtute Offering a more nuanced view of the production of history than previous studies Benavides demonstrates how both official and resistance narratives are constantly reproduced and embodied within the nation state's dominant discourses
