Cultures of violence Ivan Evans, 2013-07-19 This book deals with the inherent violence of race relations in two important countries that remain iconic expressions of white supremacy in the twentieth century *Cultures of violence* does not just reconstruct the era of violence Instead it convincingly contrasts the lynch culture of the American South to the bureaucratic culture of violence in South Africa By contrasting mobs of rope wielding white Southerners to the gun toting policemen and administrators who formally defended white supremacy in South Africa *Cultures of violence* employs racial killing as an optic for examining the distinctive logic of the racial state in the two contexts Combining the historian's eye for detail with the sociologist's search for overarching claims the book explores the systemic connections amongst three substantive areas to explain why contrasting traditions of racial violence took such firm root in the American South and South Africa

A Realist Metaphysics of Race Jeremy Pierce, 2014-12-11 In *A Realist Metaphysics of Race* A Context Sensitive Short Term Retentionist Long Term Revisionist Approach Jeremy Pierce defends a social kind view of racial categories On this view the biological features we use to classify people racially do not make races natural kinds Rather races exist because of contingent social practices single out certain groups of people as races give them social importance and allow us to name them as races Pierce also identifies several kinds of context sensitivity as central to how racial categorization works and argues that we need racial categories to identify problems in how our racial constructions are formed including the harmful effects of racial constructions Hence rather than seeking to eliminate such categories Pierce argues that we should also make efforts to change the conditions that
