## **Race Ethnicity And Adoption:**

**'Race', Ethnicity and Adoption** Derek Kirton, 2000 This important study provides a unique and comprehensive analysis of research into the development of adoption policy and practice regarding black and minority ethnic children in the care of local authorities I found this book intellectually stimulating and often provocative it does not make comfortable reading but in the final analysis the case for retaining a commitment to placing children in families which reflect their ethnicity is strongly made Felicity Collier the Director of British Agencies for Adoption and Fostering What are the needs of adopted minority ethnic children To what extent can white families meet these needs Should the emphasis on ethnic matching of children and families in adoption be relaxed This book reviews the long running and often fierce controversy surrounding the adoption of black and minority ethnic children either transracially into white families or into matched same race placements Through analysis of research and the writings of protagonists the core concepts namely the nature and salience of racial ethnic identity cultural heritage and dealing with racism are explored and located within broader debates on race and the family The history of the controversy is set out in terms of the competing paradigms offered by liberalism and black radicalism and more recent post structuralist influences The author argues the need to see adoption and especially that of black children as inherently political and contested While broadly supporting the case for same race adoption it is suggested that this must rest on acknowledgement of and engagement with social and psychological complexities rather than their suppression beneath doctrinaire formulae **Race Ethnicity and Adoption** sets the issues in the wider context of a multiracial society and its politics and will be of particular interest to social workers and child care professionals but will also appeal more widely to students of sociology and social and public policy

**Choosing Ethnicity, Negotiating Race** Mia Tuan, Jiannbin Lee Shiao, 2011-01-13 Transnational adoption was once a rarity in the United States but Americans have been choosing to adopt children from abroad with increasing frequency since the mid twentieth century Korean adoptees make up the largest share of international adoptions 25 percent of all children adopted from outside the United States but they remain understudied among Asian American groups What kind of identities do adoptees develop as members of American families and in a cultural climate that often views them as foreigners **Choosing Ethnicity Negotiating Race** is the only study of this unique population to collect in depth interviews with a multigenerational random sample of adult Korean adoptees The book examines how Korean adoptees form their social identities and compares them to native born Asian Americans who are not adopted How do American stereotypes influence the ways Korean adoptees identify themselves Does the need to explore a Korean cultural identity or the absence of this need shift according to life stage or circumstance In **Choosing Ethnicity Negotiating Race** sixty one adult Korean adoptees representing different genders social classes and communities reflect on early childhood young adulthood their current lives and how they experience others perceptions of them The authors find that most adoptees do not identify themselves strongly in ethnic terms although they will at times identify as Korean or Asian American in order to

deflect questions from outsiders about their cultural backgrounds Indeed Korean adoptees are far less likely than their non adopted Asian American peers to explore their ethnic backgrounds by joining ethnic organizations or social networks Adoptees who do not explore their ethnic identity early in life are less likely ever to do so citing such causes as general aversion lack of opportunity or the personal insignificance of race ethnicity and adoption in their lives Nonetheless the choice of many adoptees not to identify as Korean or Asian American does not diminish the salience of racial stereotypes in their lives Korean adoptees must continually navigate society's assumptions about Asian Americans regardless of whether they chose to identify ethnically

**Choosing Ethnicity Negotiating Race** is a crucial examination of this little studied American population and will make informative reading for adoptive families adoption agencies and policymakers The authors demonstrate that while race is a social construct its influence on daily life is real This book provides an insightful analysis of how potent this influence can be for transnational adoptees and all Americans

depending at least in part upon their heritage Drawing also on popular adoption literature and information in the public domain the book provides a critical interpretation of the discursive practices of private adoption and argues that despite the current discourse of equity in contemporary adoption African American children continue to be marginalized as bargain basement deals Color blind individualism extends beyond the U S to our new global reality where children are simply another commodity within the transnational marketplace of adoption Handbook of Population Dudley L.
