**Race in Britain**, 1980      Race, Faith and Planning in Britain Richard Gale, Huw Thomas, 2020-09-21 Race Faith and Planning in Britain adopts a Critical Race Theory perspective to analyse and discuss challenges of planning in contemporary multi ethnic Britain Exploring how planning is affected by and affects the racialisation of social relations this book charts the history of the UK planning system s approach in terms of the spatial consequences of immigration and discourses of diversity cohesion citizenship and belonging Authors Richard Gale and Huw Thomas pay special attention to the experiences of minority groups in Britain including Gypsies and Travellers and British Muslims They underline that the struggle over planning in racialised societies must be construed as part of a wider political struggle over equality This book is an essential read for students and practitioners of planning in multi cultural contexts      Citizenship and Immigration in Postwar Britain Randall Hansen, 2000-06-01 In this contentious and ground breaking study the author draws on extensive archival research to provide a new account of the transformation of the United Kingdom into a multicultural society through an analysis of the evolution of immigration and citizenship policy since 1945 Against the prevailing academic orthodoxy he argues that British immigration policy was not racist but both rational and liberal In this ground breaking book the author draws extensively on archival material and theoretical advances in the social science literature Citizenship and Immigration in Post war Britain examines the transformation since 1945 of the UK from a homogeneous into a multicultural society Rejecting a dominant strain of sociological and historical inquiry emphasizing state racism Hansen argues that politicians and civil servants were overall liberal relative to the public to which they owed their office and that they pursued policies that were rational for any liberal democratic politician He explains the trajectory of British migration and nationality policy its exceptional liberality in the 1950s its restrictiveness after then and its tortured and seemingly racist definition of citizenship The combined effect of a 1948 imperial definition of citizenship adopted independently of immigration and a primary commitment to migration from the Old Dominions locked British politicians into a series of policy choices resulting in a migration and nationality regime that was not racist in intention but was racist in effect In the context of a liberal elite and an illiberal public Britain s current restrictive migration policies result not from the failing of its policy makers but from those of its institutions      Representing Race John D H Downing, Charles Husband, 2005-02-01 Well informed thoughtful and transnational in its perspectives Downing and Husband s work is likely to become the key text in the field The book is essential reading for anyone interested in the politics of race and representation Professor Daya K Thussu University of Westminster The media play a diverse and significant role in the practical expression of racism and in the everyday politics of ethnicity Written by two veterans of research on media and race this book offers a fresh comparative analyses of the issues and sets out the key agendas for future study Representing Race Racisms Ethnicities and Media Provides a conceptual framework for understanding the role of the media Addresses a number of pressing political concerns including racial justice and the drift to the Right Includes a

**Radicalism, Anti-Racism and Representation** Alastair Bonnett,2023-02-14 First published in 1993 Radicalism Anti  
 Racism and Representation is a study set within a wider political context for the discussion of racial representation and anti  
 racism The second half of the book is devoted to interview based exploration of the ambiguities and political characteristics  
 of race equality consciousness amongst public educators It is shown that there is no one anti racism Different ideals and  
 assumptions have been arrived at within different historical and geographical contexts It is suggested that this intellectual  
 plurality provides a resource for those wishing to rethink anti racism in the light of its contemporary malaise The study also  
 explores and explains the development of self critical reflexive anti racist and radical consciousness amongst educators The  
 book provides the first sociological study of anti racism Indeed it is the first to provide a substantive critique of anti racism  
 from outside the New Right It is also the first to look at this phenomenon geographically and to compare anti racism in  
 multiracial and white areas This book will be of interest to students of human geography sociology history ethnic studies and  
 race studies      *'Race', Sport and British Society* Ben Carrington,Ian McDonald,2002-01-04 Contrary to the popular belief  
 that sport is an arena largely free from the corrosive effects of racism this book argues that racism is evident throughout  
 British sport From playing fields and boardrooms of sports organisations to the offices of sports policy makers and the media  
 this book breaks new ground in showing how discourses of race and nation continue to pervade our sporting life Looking at a  
 range of sports including football rugby league and cricket this book covers key topics such as British nationalism and  
 nationalist ideology racial science and the images of Asian and black physicality sport racism and the law black feminism and  
 the issues of race gender and sport the role of the media in perpetuating and challenging racial stereotypes Challenging the  
 prevailing liberal view that sport is one area of society where good race relations are developed this book offers a wealth of  
 research material and a strong theoretical perspective on contemporary British sport It will therefore be of vital interest to  
 sociologists sports studies students sport policy makers and anyone with an interest in contemporary British sport      **Racial  
 Science and British Society, 1930-62** G. Schaffer,2008-09-02 From 1930 62 the idea of race was studied across a range of

academic disciplines This book explores expert thinkings on race in the period and explains the relationship between scientific racial research social policy and attitudes regarding immigration ultimately offering new insight into the evolving understanding of the idea of race
