Race To The Moon The Story Of Apollo 11:

Race to the Moon Jen Green, David Salariya, 1998-01 Describes the events leading up to the Apollo 11 flight that put the first man on the moon and the technological advances that made this and later flights possible **Readers Theatre for American History** Anthony D. Fredericks, 2001-04-15 This participatory approach actively engages students in their own American history education Arranged chronologically these 24 readers theatre scripts put students in roles of selected historical figures giving them a you are there perspective on the unfolding of critical milestones memorable circumstances and colorful venues that have shaped the American experience Students can travel with a determined family along the Oregon Trail or to the moon with Neil Armstrong Other opportunities to make history come alive include scripts having students work alongside Father Junipero Serra at Mission San Juan Capistrano and stand alongside Thomas Jefferson as he drafts the Declaration of Independence Activity ideas and learning extensions follow each script Apollo 11 The Associated Press, 2016-08-23 In this fascinating history of the Apollo 11 mission The Associated Press chronicles America's journey to the moon In 1957 the Soviet Union sent Sputnik the first man made satellite into space America took up the challenge to explore the next frontier A dozen years and 25 billion dollars later the mission of Apollo 11 would yield man's finest hour For that was the first time man's foot left prints on another heavenly body And that was only the beginning Apollo 11 How America Won the Race to the Moon is the incredible story of how a nation forged the technology during the turbulent 1960s to slip humanity from the bonds of its native planet This inside look remembers those who made the great enterprise succeed The achievement of the astronauts especially Neil Armstrong Buzz Aldrin and Michael Collins was more than a victory for the United States it was a triumphant moment for all mankind And no other moment will seem as big until we reach beyond the moon for other planets other stars Apollo 11 How America Won the Race to the Moon features an introduction by AP's Aerospace Correspondent Marcia Dunn and select photographs from the archives of The Associated Press *The Space Race* John Hamilton, 2022-01-28 The Space Race tells the story of human spaceflight from the dawn of rocketry to the Apollo moon landings Every crewed American spaceflight is included from Project Mercury to Gemini to Apollo Also covered are vital details about important Soviet spaceflights as well as America's space shuttle the International Space Station and planned future missions Historical Guide to NASA and the Space Program Ann Beardsley, C. Tony Garcia, Joseph Sweeney, 2016-09-09 NASA the National Aeronautics and Space Administration created in the wake of the Space Act has and continues to accomplish those precepts every day With many hundreds of satellites launched into space and close to 200 human spaceflights NASA is a proven leader in space exploration Most of the US space exploration efforts have been led by NASA including the Apollo moon landing missions the Skylab space station and later the Space Shuttle Currently NASA is supporting the International Space Station and is overseeing the development of the Orion Multi Purpose Crew Vehicle the Space Launch System and Commercial Crew vehicles NASA is also responsible for the Launch Services Program which

provides oversight of launch operations and countdown management for unmanned NASA launches The Historical Guide to NASA and the Space Program contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 500 cross referenced entries on space missions astronauts technical terms space shuttles satellites and the international space station This book is an excellent access point for students researchers and anyone wanting to know more about NASA and space exploration *The First Men on the Moon* David M. Harland, 2007-10-14 On 12 April 1961 Yuri Gagarin became the first man to orbit the Earth One month later President John F Kennedy challenged the American nation to land a man on the Moon before the decade was out On 16 July 1969 Neil Armstrong Michael Collins and Buzz Aldrin set off in Apollo 11 to attempt this audacious mission and succeeded magnificently This book tells the story of Apollo 11 starting with crew selection and training the choice of the landing site and the assembly of the space vehicle then a detailed account of the mission featuring the lunar landing and moonwalk and a review of how our knowledge of the Moon s history was revolutionised as a result The story is enlivened by dialogue between the astronauts in space and the flight controllers in Mission Control Best STEM Resources for NextGen Scientists Jennifer L. Hopwood, 2015-06-30 Intended to support the national initiative to strengthen learning in areas of science technology engineering and mathematics this book helps librarians who work with youth in school and public libraries to build better collections and more effectively use these collections through readers advisory and programming A versatile and multi faceted guide Best STEM Resources for NextGen Scientists The Essential Selection and User s Guide serves as a readers advisory and collection development resource for youth services and school librarians seeking to bring STEM related titles into their collections and introduce teachers and young readers to them This book not only guides readers to hundreds of the best STEM related titles fiction and non fiction printed materials as well as apps DVDs websites and games it also includes related activities or programming ideas to help promote the use of the collection to patrons or students in storytime afterschool programs or passive library programs After a detailed discussion of the importance of STEM and the opportunities librarians have for involvement the book lists and describes best STEM resources for young learners Resources are organized according to the reading audiences for which they are intended from toddlers through teens and the book includes annotated lists of both fiction and nonfiction STEM titles as well as graphic novels digital products and online resources In addition the author offers a selection of professional readings for librarians and media specialists who wish to further expand their knowledge How We Got to the Moon John Rocco, 2020-10-06 LONGLISTED FOR THE NATIONAL BOOK AWARD YALSA EXCELLENCE IN NONFICTION FINALIST A ROBERT F SIBERT HONOR BOOK This beautifully illustrated oversized guide to the people and technology of the moon landing by award winning author illustrator John Rocco illustrator of the Percy Jackson series is a must have for space fans classrooms and tech geeks Everyone knows of Neil Armstrong s famous first steps on the moon But what did it really take to get us there The Moon landing is one of the most ambitious thrilling and dangerous ventures in

human history This exquisitely researched and illustrated book tells the stories of the 400 000 unsung heroes the engineers mathematicians seamstresses welders and factory workers and their innovations and life changing technological leaps forward that allowed NASA to achieve this unparalleled accomplishment From the shocking launch of the Russian satellite Sputnik to the triumphant splashdown of Apollo 11 Caldecott Honor winner John Rocco answers every possible question about this world altering mission Each challenging step in the space race is revealed examined and displayed through stunning diagrams experiments moments of crisis and unforgettable human stories Explorers of all ages will want to pore over every page in this comprehensive chronicle detailing the grandest human adventure of all time [The Last Supper on the Moon Bible Study Guide plus Streaming Video](#) Levi Lusko,2022-02-01 This Study Guide includes Individual access to five streaming video sessions Discussion and reflection questions with video notes Personal study between sessions Leader s Guide In the summer of 1969 Buzz Aldrin had a mission His goal was to fly 240 million miles from earth and along with fellow astronaut Neil Armstrong be the first to walk on the moon But moments before that historic step Aldrin poured a specially prepared drink into a cup and partook of a sacred celebration that had first occurred two thousand years before The lunar Last Supper was full of meaning just as it had been when Jesus himself took of the elements and acknowledged his calling and purpose But the significance didn t end there Today as we remember the sacrifice of Christ on the cross followed by his resurrection we are reminded that what seemed to be an end became the genesis of everything including the rescue and restoration of anyone who calls on Jesus name In this five session study bestselling author and pastor Levi Lusko journeys back in time and forward in hope using the 1969 lunar mission as an analogy of the metamorphosis that was unleashed by the man from Galilee Along the way he uncovers the remarkable seven statements that Jesus made from the cross words that provide us everything we need in the chaos of our world to conquer judgment persecution anxiety and pain Designed for use with The Last Supper on the Moon Video Study sold separately Streaming video access code included Access code subject to expiration after 12 31 2027 Code may be redeemed only by the recipient of this package Code may not be transferred or sold separately from this package Internet connection required Void where prohibited taxed or restricted by law Additional offer details inside **The Story of the Race to the Moon** Jen Green,2017 This captivating history for grade 5 readers is a presentation of Apollo 11 s journey to the moon Learn what daily life was like and how the astronauts survived the dangerous journey Readers get a high interest presentation of thrills and chills alongside comprehensive concrete history [The Smithsonian History of Space Exploration](#) Roger D. The Spacefaring Earth Michael G. Smith,2024-12-04 This engaging survey

of the Space Age links science and technology with politics and popular culture war and peace and crises and controversies It examines the history of spaceflight as a mirror of human thought and action across the Earth The volume encompasses the new astronomy and sciences of the modern era the early dreamers and pioneers after 1903 the national competitions of the First World War the rocket states that prepared for the Second World War the rivalries and space race of the Cold War between the US and USSR as well as more recent developments including the Space Shuttle the International Space Station national space programs orbital technologies transhumanism and military and commercial ventures in space It also stresses the importance of geography in the geopolitics of spaceflight competition and in the nature of the planetary biosphere Taking a chronological approach to lived human experience and threshold achievements the chapters show how these themes have been reflected in literature art music film and our new digital worlds This book is essential reading for students of the history of the Space Age as well as an excellent companion to courses on twentieth century science and technology the Cold War and American history

Spaceflight in the Shuttle Era and Beyond Valerie Neal, 2017-06-27 An exploration of the changing conceptions of the Space Shuttle program and a call for a new vision of spaceflight The thirty years of Space Shuttle flights saw contrary changes in American visions of space Valerie Neal who has spent much of her career examining the Space Shuttle program uses this iconic vehicle to question over four decades worth of thinking about and struggling with the meaning of human spaceflight She examines the ideas images and icons that emerged as NASA Congress journalists and others sought to communicate rationales for or critiques of the Space Shuttle missions At times concurrently the Space Shuttle was billed as delivery truck and orbiting science lab near Earth station and space explorer costly disaster and pinnacle of engineering success The book's multidisciplinary approach reveals these competing depictions to examine the meaning of the spaceflight enterprise Given the end of the Space Shuttle flights in 2011 Neal makes an appeal to reframe spaceflight once again to propel humanity forward Neal may be the one person who knows the space shuttle program better than the astronauts who flew this iconic vehicle Her book casts new light on the program exploring its cultural significance through a thoughtful analysis As one who lived this history I gained much from her broader perspective and deep insights Kathryn D Sullivan retired NASA astronaut and former Administrator of the National Oceanic and Atmospheric Administration A much needed look at how to create a cultural narrative for human spaceflight that resonates with millennials rather than the Apollo generation Quite valuable Marcia Smith Editor SpacePolicyOnline.com

Howard,Historycaps,2016-05-18 By Apollo 17 the space race was over and the fascination with the Apollo mission was not as great Though the mission is not the most covered mission it is one of the most important what its experiments proved paved the way for space missions to come The Story of Earth's Climate in 25 Discoveries Donald R. Prothero,2024-03-12 Over 4 5 billion years Earth s climate has transformed tremendously Before our more temperate recent past the planet swung from one extreme to another from a greenhouse world of sweltering temperatures and high sea levels to a snowball earth in which glaciers reached the equator During this history we now know living things and the climate have always influenced and even shaped each other But the climate has never changed as rapidly or as drastically as it has since the Industrial Revolution In this lively and entertaining book Donald R Prothero explores the astonishing connections between climate and life through the ages telling the remarkable stories of the scientists who made crucial discoveries Journeying through the intertwined evolution of climate and life he tackles questions such as Why do we have phytoplankton to thank for the air we breathe What kind of climate was necessary for the rise of the dinosaurs or the mammals their successors When and how have climatic changes caused mass extinctions Prothero concludes with the Ice Ages and the Holocene the role of climate in human history and the perils of anthropogenic climate change Understanding why the climate has changed in the past this timely book shows is essential to grasping the gravity of how radically human activity is altering the climate today
