Bristow,2018-07-01 In his day Walter Wellman 1858 1934 was one of America s most famous men To his contemporaries he seemed like a character from a Jules Verne novel He led five expeditions in search of the North Pole two by dogsled and three by dirigible airship and in 1910 made the first attempt to cross the Atlantic Ocean by air which the self styled expert on aerial warfare saw as a mission of world peace He endured hardships cheated death on more than one occasion and surrounded himself with a team of assistants as eccentric and audacious as he was In addition to his daring adventures Wellman became a nationally known political reporter and unofficial spokesman for the McKinley and Roosevelt administrations He was not the first newspaper sponsored adventurer but more than any of his predecessors he turned exploration into a real time media event and his reputation both flourished and suffered because of it Wellman lived during a time of rapid social and technological change when explorers were racing to fill in the last remaining blank spots on the map and when aviation promised to fulfill humanity s greatest hopes and darkest fears *Flight to the Top of the World* is a window into Wellman s time and illuminates many of its dreams and contradictions **The Super Friends Save Christmas/Race to the North Pole (DC Super Friends)** Billy Wrecks,J. Gärtner,Malin Wilckens,2022-02-14 Debates on historical and contemporary

racism have recently become the subject of increasing public interest The Black Lives Matter movement as well as the Covid 19 pandemic have underlined the importance and urgent necessity of examining racism in society from a multidisciplinary angle The many facets of racism in the past and present also challenge the way we deal with history historical culture in a globalized world Rather than focusing on the history of ideas and its discursive development this volume will focus on the practices of actors It examines how and which practices especially practices of comparing are constitutive in the construction of race and manifestations of racism This edited volume brings together interdisciplinary contributions from history sociology political science American studies literary studies and media studies An important focus lies on the social asymmetries created by racialization including inequalities and violence The chapters foreground historical and contemporary practices of racism and discuss their appearance in different epochs and locations
