Rachel Carson Preserving A Sense Of Wonder:

Rachel Carson Thomas Locker, 2009 **Rachel Carson** Joseph Bruchac, Thomas Locker, 2009-04 A biography of Rachel Carson interspersed with her own memorable quotes *More Picture-perfect Science Lessons* Karen Rohrich Ansberry, Emily Rachel Morgan, 2007 Teacher's handbook for teaching science Rachel Carson Mary Ellen Snodgrass, 2021-04-02 Rachel Carson was a marine biologist credited with the founding of the ecology movement and the rise in ecofeminism One of her most popular works was *Silent Spring* which challenged the use of DDT an insecticide infamous for its negative environmental effects and questioned the claims of modern industry Carson also wrote essays reviews articles and speeches to educate the public about the impacts of chemical pollutants on both the environment and the human body This literary companion provides readers with Carson's key messages via an A to Z index of topics discussed in her works including carcinogens endangered species and radioactivity **Wonder and Wisdom** Celia Deane-Drummond, 2006 What has wonder that apparently innocent feeling of amazement so common in little children to do with wisdom often thought to be the privilege of those who are old What has theology and religious experience to do with scientific investigation of the natural world Professor Celia Deane Drummond's exploration of these themes expands the dialogue between science and religion She begins her study with reflections on the emotion of wonder tracing the history of its meaning from its Indo European roots to the present focusing on the experience of the natural world including that described by contemporary cosmology Incorporating insights from both Eastern and Western religious traditions as well as African spirituality she segues to a discussion of wisdom She considers natural wisdom looking at evolutionary convergence and design in the natural world and how it might mesh with theological understanding of natural wisdom human identity and the notion of God as wisdom She also discusses the origin of the cosmos and the role of God as creator as well as whether there is wisdom in nature and what the role if any of neuroscience in wisdom as a facet of human nature might be Returning to the theme of wonder she muses on wonder as it relates to the wisdom of God and the wisdom of the cross She shows that by weaving wonder and wisdom together a deeper spirituality can surface that integrates theology and science If wisdom is the voice for theology at the boundary of science so wonder reminds theology that science too offers its own wisdom that needs to be taken into account she concludes Think Green, Take Action Daniel A. Kriesberg, 2010-08-16 This book provides an annotated bibliography of age appropriate literature and activities showing children the importance of environmental issues and teaching them the skills to take action In past years teaching children about conservation and environmental issues might have been an optional side topic to complement an earth science curriculum but in today's educational climate being green is a subject with great relevance and importance This book combines a wide variety of techniques to help students understand environmental issues and gain the skills needed to take action The children's literature and classroom activities suggested in *Think Green Take Action* Books and Activities for Kids are appropriate for elementary school students from

grades three through seven covering three major environmental issues endangered species resource depletion and pollution After students have a grasp of the causes of these environmental problems the final chapter presents ways to take easy action that can create ripples of change across the world Educators in museums and nature centers home schooled children and their parents comprise an appropriate secondary audience for this instructive text Peace, Love, Action! Tanya Zabinski,2019-08-27 An invitation to young readers to roll up their sleeves get inspired and take action to build a sustainable just and loving world Peace Love Action is an illustrated illuminated A Z of everyday actions that directly make a peaceful fun and vibrant world With original artworks bringing each action to life make friends go local cooperate forgive seemingly small deeds can really add up Illustrated by Tanya Zabinski in her characteristic earthy style each action comes with an inspirational mini bio of a real hero who exemplifies that action from Thich Nhat Hanh breathe to Wangari Maathai plant and follows with a set of What You Can Do prompts With a foreword by singer songwriter and activist legend Ani DiFranco

Environmental Solidarity Pablo Martínez de Anguita,2012-05-23 The past few decades have seen the beginnings of a convergence between religions and ecological movements The environmental crisis has called the religions of the world to respond by finding their voice within the larger Earth community At the same time a certain religiosity has started to emerge in some areas of secular ecological thinking Beyond mere religious utilitarianism rooted in an understanding of the deepest connections between human beings their worldviews and nature itself this book tries to show how religious believers can look at the world through the eyes of faith

and find a broader paradigm to sustain sustainability proposing a model for transposing this paradigm into practice so as to develop long term sustainable solutions that can be tested against reality

Expect More: Children Can Do Remarkable Things Anne Grall Reichel, Ed.D.,2010-09-22 This book encourages teachers parents grandparents and volunteers who work with children to expect more It focuses on the skills children will need to compete in a highly competitive global economy From systems thinking to interpreting complex visual images to integrative thinking our children need a whole new skill set For too long science and social studies have been moved to the back burner Ironically these subjects hold great interest and opportunity to investigate concepts in depth We need to bring them to center stage Throughout the book the author provides many concrete examples of ways for teachers and parents to engage children in meaningful conversation and problem solving Somewhere along the way we seem to have stopped challenging children and started enabling them instead Perhaps this is through no fault of our own As teachers and parents we genuinely care about children We feel for them when they are sick when they are bullied or when they are struggling Quite simply it is our nature to protect With the best of intentions we tend to try and eliminate the struggle But the struggle is essential to growth and a personal sense of accomplishment As children work their way through challenges they build the confidence and habits of mind needed to embrace the next challenge that comes along This book is an invitation to adults to expect more of themselves and of the children they care about The invitation is yours to accept
