**Reworking Race** Moon-Kie Jung, 2010-02-26 In the middle decades of the twentieth century Hawai'i changed rapidly from a conservative oligarchy firmly controlled by a Euro American elite to arguably the most progressive part of the United States Spearheading the shift were tens of thousands of sugar pineapple and dock workers who challenged their powerful employers by joining the left led International Longshoremen and Warehousemen's Union In this theoretically innovative study Moon Kie Jung explains how Filipinos Japanese Portuguese and others overcame entrenched racial divisions and successfully mobilized a mass working class movement He overturns the unquestioned assumption that this interracial effort traded racial politics for class politics Instead the movement reworked race by incorporating and rearticulating racial meanings and practices into a new ideology of class Through its groundbreaking historical analysis Reworking Race radically rethinks interracial politics in theory and practice

**Everyday Practice of Race in America** Utz

McKnight,2010-04-13 An original contribution to political theory and cultural studies this work argues for a reinterpretation of how race is described in US society McKnight develops a line of reasoning to explain how we accommodate racial categories in a period when it has become important to adopt anti racist formal instruments in much of our daily lives The discussion ranges over a wide theoretical landscape bringing to bear the insights of Wittgenstein Stanley Cavell Michel Foucault Cornel West and others to the dilemmas represented by the continuing social practice of race The book lays the theoretical foundation for a politics of critical race practice it provides insight into why we have sought the legal and formal institutional solutions to racism that have developed since the 1960s and then describes why these are inadequate to addressing the new practices of racism in society The work seeks to leave the reader with a sense of possibility not pessimism and demonstrates how specific arguments about racial subjection may allow for changing how we live and thereby improve the impact race continues to have in our lives By developing a new way to critically study how race persists in dominating society the book provides readers with an understanding of how race is socially constructed today and will be of great interest to students and scholars of political theory American politics and race ethnic politics     **A Companion to Latin American Anthropology** Deborah Poole,2015-12-21 Comprised of 24 newly commissioned chapters this defining reference volume on Latin America introduces English language readers to the debates traditions and sensibilities that have shaped the study of this diverse region Contributors include some of the most prominent figures in Latin American and Latin Americanist anthropology Offers previously unpublished work from Latin America scholars that has been translated into English explicitly for this volume Includes overviews of national anthropologies in Mexico Cuba Peru Argentina Ecuador Bolivia Colombia and Brazil and is also topically focused on new research Draws on original ethnographic and archival research Highlights national and regional debates Provides a vivid sense of how anthropologists often combine intellectual and political work to address the pressing social and cultural issues of Latin America     **Playing the Race Card** George Jerry Sefa Dei,Leeno Luke Karumanchery,Nisha Karumanchery-Luik,2004 Playing the Race Card reflects and engages the dynamic nature of racialized experience in Western contexts It examines today s anti racism project to discern how it might benefit from integrating strategies that work toward the development of critical consciousness as its main goal So that the privileged and the oppressed alike may reflexively examine their own subject positions this book identifies and addresses the need to develop a working model for anti racism strategies Given the need to understand and move beyond static conceptions of race and racism Playing the Race Card offers both a critique of mainstream privileged perceptions of racial oppression as well as a direction forward within a more organic approach to social reform     **Racial Politics in Contemporary Brazil** Michael George Hanchard,Michael Hanchard,1999-05-25 This is an edited volume which discusses the racial politics of Brazil and the basis and understanding of labor market and residential segregation in Brazilian society     **Race and Racialization** Tania Das Gupta,2007 This provocative volume will influence the way people think of race and racialization It

provides a thorough examination of these complex and intriguing subjects with historical comparative and international contributions Edited as a theoretically strong cohesive whole this book unites a remarkable ensemble of academic thinkers and writers from a diversity of backgrounds Themes of ethnocentrism cultural genocide conquest and colonization disease and pandemics slavery and the social construction of racism run throughout Beyond Racism Charles V. Hamilton,2001 This study explores issues of race racism and strategies to improve the status of people of African descent in Brazil South Africa and the USA The authors provide in depth information about each country together with analyses of cross cutting themes and trends Fighting Against the Injustice of the State and Globalization A. Jalata,2002-02-08 The book examines compares and contrasts the African American and Oromo movements by locating them in the global context and by showing how life chances changed for the two peoples and their descendants as the modern world system became more complex and developed Since the same global system that created racialized and exploitative structures in African American and Oromo societies also facilitated the struggles of these two peoples this book demonstrates the dynamic interplay between social structures and human agencies in the system African Americans in the United States of America and Oromos in the Ethiopian Empire developed their respective liberation movements in opposition to racial ethnonational oppression cultural and colonial domination exploitation and underdevelopment By going beyond its focal point the book also explores the structural limit of nationalism and the potential of revolutionary nationalism in promoting a genuine multicultural democracy **New Right, New Racism** Amy Elizabeth Ansell,2016-07-27 New Right New Racism is a comparative analysis of the role of racialized symbols in the right turn of US and British politics in the late 1970s through to today The author argues that the symbol of race has been central to the New Right s project to redefine the cultural codes and broader social imaginary upon which the consensus politics of the post war years was built In the process of mobilizing race as an ideological articulator of the exit from consensus politics the New Right has promoted a new form of racism qualitatively distinct from more traditional forms Cannibal Democracy Zita Nunes,2008 Zita Nunes argues that the prevailing narratives of identity formation throughout the Americas share a dependence on metaphors of incorporation and often of cannibalism From the position of the incorporating body the construction of a national and racial identity through a process of assimilation presupposes a remainder a residue Nunes addresses works by writers and artists who explore what is left behind in the formation of national identities and speak to the limits of the contemporary discourse of democracy Cannibal Democracy tracks its central metaphor s circulation through the work of writers such as Mrio de Andrade W E B Du Bois and Toni Morrison and journalists of the black press as well as work by visual artists including Magdalena Campos Pons and Keith Piper and reveals how exclusion understood in terms of what is left out can be fruitfully understood in terms of what is left over from a process of unification or incorporation Nunes shows that while this remainder can be deferred into the future lurking as a threat to the desired stability of the present the residue haunts discourses of national unity undermining the ideologies of democracy

that claim to resolve issues of race Zita Nunes is associate professor of English at the University of Maryland College Park

**Negras in Brazil** Kia Caldwell, 2007-01-05 For most of the twentieth century Brazil was widely regarded as a racial democracy a country untainted by the scourge of racism and prejudice In recent decades however this image has been severely critiqued with a growing number of studies highlighting persistent and deep seated patterns of racial discrimination and inequality Yet recent work on race and racism has rarely considered gender as part of its analysis In *Negras in Brazil* Kia Lilly Caldwell examines the life experiences of Afro Brazilian women whose stories have until now been largely untold This pathbreaking study analyzes the links between race and gender and broader processes of social economic and political exclusion Drawing on ethnographic research with social movement organizations and thirty five life history interviews Caldwell explores the everyday struggles Afro Brazilian women face in their efforts to achieve equal rights and full citizenship She also shows how the black women s movement which has emerged in recent decades has sought to challenge racial and gender discrimination in Brazil While proposing a broader view of citizenship that includes domains such as popular culture and the body *Negras in Brazil* highlights the continuing relevance of identity politics for members of racially marginalized communities Providing new insights into black women s social activism and a gendered perspective on Brazilian racial dynamics this book will be of interest to students and scholars of Latin American Studies African diaspora studies women s studies politics and cultural anthropology

**Who Do We Think We Are?** Philip Yale Nicholson, 1999 In this timely and well argued book author Philip Nicholson offers a provocative explanation of the force and place of race in modern history showing that race and nation have a linked history Using the deliberately ironic metaphor of the double helix the author shows the close historical connection of race and nation as each interrelates with the other in shaping and carrying social and institutional practices over many centuries Five themes recur throughout the work modernity is built on the twin pillars of race and nation national instability rivalry and imperial conquest outside of dynastic religious or feudal disputes evoke differential i e racial human social categories loyalties and mythologies racial vilification emerges out of material and cultural expropriation racial degradation is typically the inverse projection of dominant national normative values beliefs or ideals and race and nation share in the twists and turns of modern history and are inseparably linked and interdependent
