Large amounts of African-Americans left the South for more opportunity in the Northern cities, and West.

Unfortunately not all people in these cities welcomed their new neighbors.

Racial Conflict And The American Mayor:

Racial Conflict and the American Mayor Charles H. Levine, 1974 **African-American Mayors** David R. Colburn, Jeffrey S. Adler, 2001 On November 7 1967 the voters of Cleveland Ohio and Gary Indiana elected the nation's first African American mayors to govern their cities Ten years later more than two hundred black mayors held office and by 1993 sixty seven major urban centers most with majority white populations were headed by African Americans Once in office African American mayors faced vexing challenges In large and small cities from the Sunbelt to the Rustbelt black mayors assumed office during economic downturns and confronted the intractable problems of decaying inner cities white flight a dwindling tax base violent crime and diminishing federal support for social programs Many encountered hostility from their own parties city councils and police departments others worked against long established power structures dominated by local business owners or politicians Still others while trying to respond to multiple demands from a diverse constituency were viewed as traitors by blacks expecting special attention from a leader of their own race All struggled with the contradictory mandate of meeting the increasing needs of poor inner city residents while keeping white businesses from fleeing to the suburbs This is the first comprehensive treatment of the complex phenomenon of African American mayors in the nation's major urban centers Offering a diverse portrait of leadership conflict and almost insurmountable obstacles this volume assesses the political alliances that brought black mayors to office as well as their accomplishments notably increased minority hiring and funding for minority businesses and the challenges that marked their careers Mayors profiled include Carl B Stokes Cleveland Richard G Hatcher Gary Dutch Morial New Orleans Harold Washington Chicago Tom Bradley Los Angeles Marion Barry Washington D C David Dinkins New York City Coleman Young Detroit and a succession of black mayors in Atlanta Maynard Jackson Andrew Young and Bill Campbell Probing the elusive economic dimension of black power African American Mayors demonstrates how the same circumstances that set the stage for the victories of black mayors exaggerated the obstacles they faced **Race And Ethnic Conflict** Fred L Pincus, Howard J Ehrlich, 2019-04-18 In the revised and updated second edition of this comprehensive book the first anthology to integrate social psychological literature on prejudice with sociological and historical investigations contributors introduce readers to the key debates and principal writings on racial and ethnic conflict representing conservative liberal and radical perspectives *The American Mayor* Melvin G. Holli, 1999 Politics in Black and White Raphael J. Sonenshein, 2018-06-05 This book reaches deep into the past of the city of Los Angeles and carries through to the dramatic events that have recently received global attention the Rodney King beating and the uprising in South Central L A Tracing the evolution of an extraordinary biracial coalition in Los Angeles behind Mayor Tom Bradley Raphael Sonenshein shows how crossover politics and racial violence coexist in urban America While challenging the prevailing pessimism about biracial coalitions in general he also compares their relative successes in Los Angeles to their disheartening failures in New York City What emerges is a probing look at a crucial issue of politics in

the United States can whites and minorities find common ground *The State of Black America* Janet Dewart, National Urban League, 1988 The Obama Phenomenon Charles P. Henry, Robert Allen, Robert Chrisman, 2011-09-28 Barack Obama's campaign and electoral victory demonstrated the dynamic nature of American democracy This collection shows the impact of the Obama phenomenon on the future of race relations within the United States through readings on Barack Obama's campaign as well as the idealism and pragmatism of the Obama administration **Uncertainty in American Politics** Barry C. Burden, 2003-07-07 This book represents an exciting intellectual meeting of researchers from diverse subfields to analyze how and why uncertainty affects American politics It seeks to reconnect research traditions that have seldom spoken to one another Though used by formal theorists empiricists and historians in a parallel fashion for a number of years the notion of uncertainty has often been introduced only to explain away anomalies provide backing for a larger argument or justify a particular methodology Uncertainty has rarely been considered in its own right or as a concept that might connect researchers from different subfields *Reagan and the Cities* George E. Peterson, Carol Weiss Lewis, 1986 *Handbook of Black Studies* Molefi Kete Asante, Maulana Karenga, 2006 Publisher Description Subordination or Empowerment? Richard A. Keiser, 1997-09-18 Why have Blacks won political empowerment in some cities and in others remained subordinated or had their achievements rolled back Why do some cities have many Black leaders with multi racial appeal while other cities have none Subordination or Empowerment answers these questions through detailed historical examinations of the Black struggle for political power in Chicago Gary Philadelphia and Atlanta Keiser argues that electoral competition among White factions has created opportunities for Black leaders to win genuine political empowerment and avoid subordination When electoral competition among Whites does not exist Black votes lose their electoral leverage leading to the rise of extra electoral strategies Keiser's dynamic theory of leadership formation explains the current appeal of Black separatism and messianism at the local and national levels and the consequent rise of leaders such as Louis Farakhan and offers a rejoinder to Cornel West's critique of Black leadership in *Race Matters* *Local Politics and Mayoral Elections in 21st Century America* Sean D. Foreman, Marcia L. Godwin, 2014-11-20 Some of the most populated and storied American cities had mayoral elections in 2013 Open contests in New York City Los Angeles and Boston for example offer laboratories to examine electoral trends in urban politics Cities are facing varied predicaments Boston was rocked by the bombing of the marathon on April 15 Detroit is roiled by being the largest U S city to declare bankruptcy and Chicago which had an open competitive election in 2011 is dealing with significant gun violence San Diego's mayor resigned in August 2013 due to sexual harassment charges and other mayors are surrounded by corruption scandals Houston and St Louis had non competitive elections recently but their mayors are notable for their tenure in office and emphasis will be on public policy outcomes in those cases Leaders in most cities face dramatic changes and challenges due to economic and social realities *The Keys to City Hall* offers a complete and succinct review and analysis of the top mayoral campaigns in major American cities in recent years as well as the politics and

public policy management of those urban areas Emerging theories of urban governance demographic changes and economic conditions are examined in introductory chapters the introduction will provide a unique and comprehensive focus on major trends in advertisement changes in campaign strategies fundraising and the use of social media at the local level In Part Two scholars with expertise in local politics urban public policy and the governance explore some of the largest and most noteworthy U S cities each of which has a recent competitive mayoral election They will also provide updated data on mayoral powers and problems faced by local executives Written as lively narratives in a highly readable style this book advances theory on urban politics by reviewing developments in the field and aligning theoretical approaches with realities on the ground based on the most recent elections and governance structures As such it will be a much needed resource to scholars interested in local politics and the public policy debates of specific major urban and metropolitan areas

Changing White Attitudes toward Black Political Leadership Zoltan L. Hajnal, 2006-12-25 Despite the hopes of the civil rights movement researchers have found that the election of African Americans to office has not greatly improved the well being of the black community By shifting the focus to the white community this book shows that black representation can have a profound impact Utilizing national public opinion surveys data on voting patterns in large American cities and in depth studies of Los Angeles and Chicago Zoltan Hajnal demonstrates that under most black mayors there is real positive change in the white vote and in the racial attitudes of white residents This change occurs because black incumbency provides concrete information that disproves the fears and expectations of many white residents These findings not only highlight the importance of black representation they also demonstrate the critical role that information can play in racial politics to the point where black representation can profoundly alter white views and white votes
