Johnsen, 1921 Critical White Studies Richard Delgado, Jean Stefancic, 1997 No longer content with accepting whiteness as the norm critical scholars have turned their attention to whiteness itself In Critical White Studies Looking Behind the Mirror numerous thinkers including Toni Morrison Eric Foner Peggy McIntosh Andrew Hacker Ruth Frankenberg John Howard Griffin David Roediger Kathleen Heal Cleaver Noel Ignatiev Cherrie Moraga and Reginald Horsman attack such questions as How was whiteness invented and why How has the category whiteness changed over time Why did some immigrant groups such as the Irish and Jews start out as nonwhite and later

became white Can some individual people be both white and nonwhite at different times and what does it mean to pass for white At what point does pride in being white cross the line into white power or white supremacy What can whites concerned over racial inequity or white privilege do about it Science and pseudoscience are presented side by side to demonstrate how our views on whiteness often reflect preconception not fact For example most scientists hold that race is not a valid scientific category genetic differences between races are insignificant compared to those within them Yet the one drop rule whereby those with any nonwhite heritage are classified as nonwhite persists even today As the bell curve controversy shows race concepts die hard especially when power and prestige lie behind them A sweeping portrait of the emerging field of whiteness studies Critical White Studies presents for the first time the best work from sociology law history cultural studies and literature Delgado and Stefancic expressly offer critical white studies as the next step in critical race theory In focusing on whiteness not only do they ask nonwhites to investigate more closely for what it means for others to be white but also they invite whites to examine themselves more searchingly and to look behind the mirror

Selected Articles on the Negro Problem ,1921 **The Problem South** Natalie J. Ring,2012-04-01 For most historians the late nineteenth and early

twentieth centuries saw the hostilities of the Civil War and the dashed hopes of Reconstruction give way to the nationalizing forces of cultural reunion a process that is said to have downplayed sectional grievances and celebrated racial and industrial harmony In truth says Natalie J Ring this buoyant mythology competed with an equally powerful and far reaching set of representations of the backward Problem South one that shaped and reflected attempts by northern philanthropists southern liberals and federal experts to rehabilitate and reform the country's benighted region Ring rewrites the history of sectional reconciliation and demonstrates how this group used the persuasive language of social science and regionalism to reconcile the paradox of poverty and progress by suggesting that the region was moving through an evolutionary period of readjustment toward a more perfect state of civilization In addition The Problem South contends that the transformation of the region into a mission field and laboratory for social change took place in a transnational moment of reform Ambitious efforts to improve the economic welfare of the southern farmer eradicate such diseases as malaria and hookworm educate the southern populace uplift poor whites and solve the brewing race problem mirrored the colonial problems vexing the architects of empire around the globe It was no coincidence Ring argues that the regulatory state's efforts to solve the southern problem and reformers increasing reliance on social scientific methodology occurred during the height of U S imperial expansion

A Bibliography of the Negro in Africa and America ,1928 **An Old Creed for the New South** John David Smith,2008-02-12 An Old Creed for the New South Proslavery Ideology and Historiography 1865 1918 details the slavery debate from the Civil War through World War I Award winning historian John David Smith argues that African American slavery remained a salient metaphor for how Americans interpreted contemporary race relations decades after the Civil War Smith draws extensively on postwar articles books diaries manuscripts newspapers and speeches to counter the

belief that debates over slavery ended with emancipation After the Civil War Americans in both the North and the South continued to debate slavery's merits as a labor legal and educational system and as a mode of racial control The study details how white Southerners continued to tout slavery as beneficial for both races long after Confederate defeat During Reconstruction and after Redemption Southerners continued to refine proslavery ideas while subjecting blacks to new legal extralegal and social controls An Old Creed for the New South links pre and post Civil War racial thought showing historical continuity and treats the Black Codes and the Jim Crow laws in new ways connecting these important racial and legal themes to intellectual and social history Although many blacks and some whites denounced slavery as the source of the contemporary Negro problem most whites including late nineteenth century historians championed a new proslavery argument The study also traces how historian Ulrich B Phillips and Progressive Era scholars looked at slavery as a golden age of American race relations and shows how a broad range of African Americans including Booker T Washington and W E B Du Bois responded to the proslavery argument Such ideas Smith posits provided a powerful racial creed for the New South This examination of black slavery in the American public mind which includes the arguments of former slaves slaveholders Freedmen's Bureau agents novelists and essayists demonstrates that proslavery ideology dominated racial thought among white southerners and most white northerners in the five decades following the Civil War

The Methodist Unification

Morris L Davis, 2008-01-01 A ground breaking analysis of the intertwined political racial and religious dynamics in the early twentieth century Methodist Church Wendy J Deichmann Edwards United Theological Seminary Dayton Ohio In 1939 America's three major Methodist Churches sent delegates to Kansas City Missouri for what they called the Uniting Conference They formed the largest and arguably the most powerful Protestant church in the country Yet this newly unified denomination was segregated to its core In *The Methodist Unification* Morris L Davis examines this unification process and how it came to institutionalize racism and segregation in unprecedented ways Davis shows that Methodists in the early twentieth century including high profile African American clergy were very much against integration Many feared that mixing the races would lead to interracial marriages and threaten the social order of American society The Methodist Unification illuminates the religious culture of Methodism Methodists self identification as the primary carriers of American Christian Civilization and their influence on the crystallization of whiteness during the Jim Crow Era as a legal category and cultural symbol
