## **Racial Problem In Christian Perspective:**

*The Racial Problem in Christian Perspective* Kyle Haselden, 1964      *Christianity and the Race Problem* Joseph Houldsworth Oldham, 1925      **Speech: The Racial Problem in Christian Perspective** Kyle Haselden, 2017 Description Series 2 Race Relations Institute 1943 1969 Race Relations Institute 1959      **A Reader in Sociology; Christian Perspectives** Charles P. De Santo, Calvin Redekop, William L. Smith-Hinds, 2001-03-07      *Race Relations in World Perspective* Andrew W. Lind, 2021-05-25 No detailed description available for Race Relations in World Perspective      *Race, Religion, and the Continuing American Dilemma* C. Eric Lincoln, 2011-04-01 A classic work on religion and the racial problems of modern America now brought up to date Since the early days of the Republic Americans exuberant unchastened idealism their commitment to the notion of a perfect society in the New World has clashed with the reality of ugly American society and religious groups have all too often accommodated themselves to these injustices In *Race Religion and the Continuing American Dilemma* C Eric Lincoln reevaluates what Gunnar Myrdal called the American dilemma and studies particularly the influence of the black church This revised edition takes into account the weakening of welfare and affirmative action and argues that the black church must serve today as a vital moral authority to lead us in to the twenty first century      **The Anatomy of Racial Attitudes** Richard A. Apostle, Charles Y. Glock, Thomas Piazza, Marijean Suelzle, 2023-04-28 Racial tension divides American society Racial equality remains a distant goal Although the position of Black Americans has improved in recent years the widespread enthusiasm for the Civil Rights movement has waned Why has progress slowed What makes racial problems in America so difficult to solve A principal cause according to *The Anatomy of Racial Attitudes* is the way in which white Americans explain or account for the social conditions in which most black Americans find themselves A substantial proportion of whites believe that stereotypes that Black Americans are relatively less well off because blacks do not try hard enough to better themselves or because of the difference due to genetics or to God's plan Whites who hold such views have relatively little sympathy for programs designed to improve the social conditions In contrast whites who believe that Black Americans are kept back either by deliberate discrimination or by the accumulated social results of past discrimination are much more receptive to policies designed to help blacks Using qualitative and quantitative data this book explores the variety and extent of these explanations for social differences it also describes how each explanation or combination of explanations influences a person's views on policies designed to bring about greater racial equality This study promises to influence not only the course of future academic research on race relations but also the formulation of public policy to deal with racial problems It reveals that the resistance of many whites to policies favorable to racial equality are not isolated phenomenon but instead is part of a comprehensive view of how society works If strides toward racial equality are to be made in the foreseeable future the insights provided here must be considered seriously by policy makers and be incorporated into their strategies This title is part of UC Press's Voices Revived program which

**Faith, Diversity, and Education** Allison Blosser,2019-06-12 This volume explores how conservative Christian schools are shaping education in America and in turn students attitudes about diversity Based on data collected as part of a year long ethnographic study of a K 12 conservative Christian school in the South this volume analyzes the way that diversity was thought about and acted upon in a school and how these decisions affected students and teachers across racial differences The book demonstrates that conservative Christian theology defined a school's diversity efforts It also reveals the complexity of addressing diversity in a context that is largely wary of it at least in its typical secular usage The findings presented in the book raise important questions about school vouchers the influence of religious beliefs on educators decision making in

Williams,2023-10-03 In **The Cross of Christ in African American Christian Religious Experience** Piety Politics and Protest Demetrius K Williams examines and explores the ideational importance and rhetorical function of cross language and terminology in Black religious experience through an ideological lens Williams argues that for the first time in Christian history the European nation of

Portugal under the guidance of Prince Henry used the theology of the cross to justify and sustain an exclusive trade of Sub Saharan African peoples Claiming that Jesus died on the cross only to save lost souls provided a convincing rationale for Henry's exploratory voyages of discovery to West African to exclusively enslave Black bodies With the confirmation of Catholic Popes and the competition of other European nations this same rationale would inspire empire building colonization and slave trading justified on their newly constructed ideological narrative of compassionate evangelism to save lost souls Over time with massive conversions to the faith of their enslavers Black people's Christian religious experiences would articulate a response to the world that held them in thrall That response would be articulated most consistently and effectively through their understanding of the cross of Christ Williams affirms Howard Thurman's claim that by some amazing but vastly creative spiritual insight the slave undertook the redemption of a religion that the master had profaned in his midst
