**Racialization** Karim Murji, John Solomos, 2005 Racialization has become one of the central concepts in the study of race and racism It is widely used in both theoretical and empirical studies of racial situations There has been a proliferation of texts that use this notion in quite diverse ways It is used broadly to refer to ways of thinking about race as well as to institutional processes that give expression to forms of ethno racial categorization An important issue in the work of writers such as Robert Miles for example concerns the ways in which the construction of race is shaped historically and how the usage of that idea forms a basis for exclusionary practices The concept therefore refers both to cultural or political processes or situations where race is invoked as an explanation as well as to specific ideological practices in which race is deployed It is evident however that despite the increasing popularity of the concept of racialization there has been relatively little critical analysis exploring its theoretical and empirical usages It is with this underlying concern in mind that *Racialization Studies in Theory and Practice* brings together leading international scholars in the field of race and ethnicity in order to explore both the utility of the concept and its limitations

*The Politics of Race and Racialisation in the Middle East* Burcu Ozcelik, 2022-06-08 This book explores the extent to which race and racialisation offer us an explanatory framework to study the contemporary politics of identity in the Middle East today Most studies of the Middle East commonly presume that the race signifier is reserved for the juxtaposition of Black and White identity to which the Arab Persian and Turkish world counts itself as exterior Up until now few works on the Middle East have discussed race as central to their analysis This book works to remedy this shortcoming by extending the critical scholarship on race and racial subordination to the region's states and societies Crucially how does race interact with and confront other categories of identity such as gender religion sect and nationality What can a consideration of racialisation reveal about structures of oppression in the Middle East and evolving forms of belonging and dispossession Adopting race as the focus of enquiry allows us to unpack what we are really talking about when we talk about difference in the region the reproduction and resilience of power and the insidious harmful mutations of identity based discrimination in unequal societies *The Politics of Race and Racialisation in the Middle East* is a significant new contribution to racial and ethnic studies and will be a great resource for academics researchers and advanced

students of sociology politics history social anthropology political and cultural geography The chapters in this book were originally published as a special issue of Ethnic and Racial Studies

**The Color Line and the Assembly Line** Elizabeth Esch, 2018-05-04 The Color Line and the Assembly Line tells a new story of the impact of mass production on society Global corporations based originally in the United States have played a part in making gender and race everywhere Focusing on Ford Motor Company's rise to become the largest richest and most influential corporation in the world The Color Line and the Assembly Line takes on the traditional story of Fordism Contrary to popular thought the assembly line was perfectly compatible with all manner of racial practice in the United States Brazil and South Africa Each country's distinct racial hierarchies in the 1920s and 1930s informed Ford's often divisive labor processes Confirming racism as an essential component in the creation of global capitalism Elizabeth Esch also adds an important new lesson showing how local patterns gave capitalism its distinctive features

**Racial Union** Julie Lavonne Novkov, 2009-09-11 In November 2001 the state of Alabama opened a referendum on its long standing constitutional prohibition against interracial marriage A bill on the state ballot offered the opportunity to relegate the state's antimiscegenation law to the dustbin of history The measure passed but the margin was alarmingly slim more than half a million voters 40 percent of those who went to the polls voted to retain a racist and constitutionally untenable law Julie Novkov's Racial Union explains how and why nearly forty years after the height of the civil rights movement Alabama struggled to repeal its prohibition against interracial marriage the last state in the Union to do so Novkov's compelling history of Alabama's battle over miscegenation shows how the fight shaped the meanings of race and state over ninety years Novkov's work tells us much about the sometimes parallel sometimes convergent evolution of our concepts of race and state in the nation as a whole A remarkably nuanced account of interlocked struggles over race gender class and state power Novkov's site is Alabama but her insights are for all America Rogers M Smith Christopher H Browne Distinguished Professor of Political Science University of Pennsylvania Hannah Arendt shocked Americans in the 1950s by suggesting that interracial intimacy was the true measure of a society's racial order Julie Novkov's careful illuminating powerful book confirms Arendt's judgment By ruling on who may be sexually linked with whom Alabama's courts and legislators created a racial order and even a broad political order Novkov shows us just how it worked in all of its painful humiliating power Jennifer L Hochschild Henry LaBarre Jayne Professor of Government Professor of African and African American Studies and Harvard College Professor

**Racial Domination** Loïc Wacquant, 2024-06-07

Race is arguably the single most troublesome and volatile concept of the social sciences in the early 21st century It is invoked to explain all manner of historical phenomena and current issues from slavery to police brutality to acute poverty and it is also used as a term of civic denunciation and moral condemnation In this erudite and incisive book based on a panoramic mining of comparative and historical research from around the globe Lo c Wacquant pours cold analytical water on this hot topic and infuses it with epistemological clarity conceptual precision and empirical breadth Drawing on Gaston Bachelard Max Weber and Pierre Bourdieu Wacquant first articulates a series of reframings starting with dislodging the United States from its Archimedean position in order to capture race making as a form of symbolic violence He then forges a set of novel concepts to rethink the nexus of racial classification and stratification the continuum of ethnicity and race as disguised ethnicity the diagonal of racialization and the pentad of ethnoracial domination the checkerboard of violence and the dialectic of salience and consequentiality This enables him to elaborate a meticulous critique of such fashionable notions as structural racism and racial capitalism that promise much but deliver little due to their semantic ambiguity and rhetorical malleability notions that may even hamper the urgent fight against racial inequality Wacquant turns to deploying this conceptual framework to dissect two formidable institutions of ethnoracial rule in America Jim Crow and the prison He draws on ethnographies and historiographies of white domination in the postbellum South to construct a robust analytical concept of Jim Crow as caste terrorism erected in the late 19th century He unravels the deadly symbiosis between the black hyperghetto and the carceral archipelago that has coproduced and entrenched the material and symbolic marginality of the African American precariat in

the metropolis of the late 20th century Wacquant concludes with reflections on the politics of knowledge and pointers on the vexed question of the relationship between social epistemology and racial justice Both sharply focused and wide ranging synthetic yet controversial Racial Domination will be of interest to students and scholars of race and ethnicity power and inequality and epistemology and theory across the social sciences and humanities

The Problem of Race in the 21st Century Thomas C. Holt, 2009-06-30 An analysis of how the conditions of race and racism in our culture have changed in our time and what this means for our future The problem of the twentieth century is the problem of the color line W E B Du Bois wrote in 1903 and his words have proven sadly prophetic As we enter the twenty first century the problem remains and yet it and the line that defines it have shifted in subtle but significant ways This brief book speaks powerfully to the question of how the circumstances of race and racism have changed in our time and how these changes will affect our future Foremost among the book s concerns are the contradictions and incoherence of a system that idealizes black celebrities in politics popular culture and sports even as it diminishes the average African American citizen The world of the assembly line boxer Jack Johnson s career and The Birth of a Nation come under Thomas Holt s scrutiny as he relates the malign progress of race and racism to the loss of industrial jobs and the rise of our modern consumer society Understanding race as ideology he describes the processes of consumerism and commodification that have transformed but not necessarily improved the place of black citizens in our society As disturbing as it is enlightening this timely work reveals the radical nature of change as it relates to race and its cultural phenomena It offers conceptual tools and a new way to think and talk about racism as social reality Praise for The Problem of Race in the Twenty first Century Debates about race often take the form of a mind game designed to establish whether or not a particular word or act is racially motivated This book provides a compelling argument for rethinking our ideas about race Frank Furedi New Statesman Holt rightly asserts that our racial legacy should be a point of departure not a destination in examining the enduring nature of racial enmity As a nation and as individuals we must imagine ourselves beyond while remaining aware of those forces that are at the root of the enmity Vernon Ford Booklist Readers will benefit from Holt s expert and careful examination of these narratives of contradiction and incoherence as he attempts to forecast the reigning racial ethos for the next millennium Holt writes in clear precise prose and makes an important contribution to both public and academic discussions of race and labor and their intersections in U S politics Publishers Weekly
