Re Imagining Policing In Canada:

Re-imagining Policing in Canada Dennis Cooley, 2005-12-15 Policing in Canada is in the process of change similar to other nations in the western world many of the policing services that were provided by public forces in the past are being gradually handed over to private security agencies Complex networks of policing that reflect a mix of public and private security providers are emerging and this transformation has serious implications for how Canadians interact with one another For instance if residents of a gated community or members of a downtown business association pay for their own policing services rather than relying on the public police whose law is being enforced With this collection Dennis Cooley has brought together some of the top minds in criminology and policing to examine the phenomenon of the changing nature of policing in Canada The essays describe the character and constitution of security in Canada and explore the implications of these changes in terms of larger questions about power social control justice and law Wide ranging and topical *Re imagining Policing in Canada* will prove essential reading for policy makers and scholars alike

Reimagining Police Dr. Artika R. Tyner, 2023-10-03 Large scale protests marches and demonstrations in cities all over the globe have followed high profile fatal encounters involving law enforcement and people of color Citizens have taken to the streets and demanded answers to the chronic problems of police violence and lack of accountability particularly at the intersection of law enforcement and race in the United States Many have demanded reform defunding and even the outright abolishment of police departments How did we get here And what does the future of public safety look like US police forces took shape in colonial times when private groups sought to suppress Indigenous peoples enforce slavery and preserve the economic interests of the ruling class Law enforcement and the societies it serves have evolved since but the dark roots of policing have endured resulting in centuries of historical pain and trauma in Black and other communities of color In *Reimagining Police* Dr Artika R Tyner explores this troubled past and present as well as the underlying problems of a flawed criminal justice system and unjust social structures By examining various alternative policing models and addressing systemic societal issues such as breaking the poverty cycle instituting restorative justice and investing in education and community resources Tyner debunks the misconception that calls for change are anti police while offering hope for a more harmonious future between law enforcement and the people it swears to protect and serve Tyner encourages readers to get involved in this difficult conversation and to feel empowered to lead social change that helps build safe and strong communities

disclosures in conjunction with interview data archival data and other datasets this collection explains how researchers can systematically analyse FOI disclosures Considering the challenges and dilemmas in using FOI processes in research it examines the reasons why many scholars continue to rely on more easily accessible data when much of the real work of governance the more clandestine but consequential decisions and policy moves made by government officials can only be accessed using FOI requests

Policing Integration Chris Giacomantonio,2015-07-20 This book critically examines coordination work between police officers and agencies Police work requires constant interaction between police forces and units within those forces yet the process by which police work with one another is not well understood by sociologists or practitioners At the same time the increasing inter dependence between police forces raises a wide set of questions about how police should act and how they can be held accountable when locally based police officers work in or with multiple jurisdictions This rearrangement of resources creates important issues of governance which this book addresses through an inductive account of policing in practice Policing Integration builds on extensive fieldwork in a multi jurisdictional environment in Canada alongside a detailed review of ongoing research and debates In doing so this book presents important theoretical principles and empirical evidence on how and why police choose to work across boundaries or create barriers between one another

relation to certain aspects of law enforcement In each instance there is a cross border provision of resources with a view to shaping the kind of policing provided in recipient nations Why do some countries engage in these activities Why has policing become a preferred form of foreign policy engagement in some countries What forms of policing development are provided How are they delivered And how are they received How should these kinds of assistance and or interventions be conducted in future In this regard is there a non negotiable core of good policing that needs to be developed and nurtured as an integral part of all defensible transnational policing engagements These are some of the questions raised by the contributions to this book The book arises primarily from papers presented at a workshop held in Onati Spain in July 2004 on the emergence of a global constabulary ethic The book has also been supplemented by two solicited chapters Security Lucia Zedner,2009-05-07 Today security is a central theme in criminology as security governs our lives governing security becomes a priority This important text provides an authoritative introduction to security serving simultaneously as an introduction and as a timely reflection upon the significance implications and dangers of security Beyond Control Shirley Paré,Vern Neufeld Redekop,2010-02-05 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com What is refreshing about Beyond Control is the vision for the kind of society in which protestors and police recognize their mutual humanity as well as how both are needed for a democratic society to function well From the Foreword by Archbishop Desmond Tutu How can large protest crowds be better and more respectfully managed by police This topical book applies the principles of community based conflict resolution to the policing of large crowds suggesting a completely new approach that moves away from the discourse of rabble rousing mobs towards negotiated management and a paradigm of mutual respect for protesters as principled dissenters and for police as non repressive agents of public order Both are needed the authors argue in order for democracy to flourish **Changing of the Guards** Alex Luscombe,Kevin Walby,Derek Silva,2022-06-15 Although service outsourcing has spread throughout Canada s prisons and jails into its police courts and national security institutions and along the border in recent decades the expanding scope and pace of corporate involvement in criminal justice functions has not been closely investigated Changing of the Guards provides a comprehensive assessment of privatization and private influence across the twenty first century Canadian criminal justice system It illuminates the many consequences of public private arrangements for law and policy transparency accountability the administration of justice equity and public debate Within the contexts of policing sentencing imprisonment border control and national security the contributors explore crucial questions about legitimacy policy diffusion racism inequality corruption and democracy itself Changing of the Guards is a long overdue account of the social political and historical uniqueness of the Canadian criminal justice field and the key issues raised by this trenchant analysis are relevant both within and beyond Canada **Roads to Prosperity** Gary S. Sands,Laura A. Reese,2017-11-06 Explores popular economic development strategies in midsize Canadian urban areas Roads to Prosperity Economic Development Lessons from

Midsize Canadian Cities explores the relative prosperity of midsize Canadian urban areas population 50 000 to 400 000 over the past two decades Communities throughout North America have strived for decades to maintain and enhance the prosperity of their residents In the areas that are the focus of this research the results of these efforts have been mixed some communities have been relatively successful while others have fallen further behind the national averages Midsize cities often lack the resources both internal and external to sustain and enhance their prosperity Policies and strategies that have been successful in larger urban areas may be less effective or unaffordable in smaller ones Roads to Prosperity first examines the economic structure of forty two Canadian urban regions that fall within the midsize range to determine the economic specializations that characterize these communities and to trace how these specializations have evolved over the time period between 1991 and 2011 While urban areas with an economic base of natural resource or manufacturing industries tend to retain this economic function over the years communities that rely on the service industries have been much more likely to experience some degree of restructuring in their economies over the past twenty years The overall trend among these communities has been for their employment profiles to become more similar and for their economic specialization to fade over time The second part of the book looks at a number of currently popular economic development strategies as they have been applied to midsize urban areas and their success and failures While there appears to be no single economic development strategy that will lead to greater prosperity for every community Sands and Reese explore the various factors that help explain why some work and others don't Those with an interest in urban planning and community development will find this monograph highly informative

Policing and Crime Control in Post-apartheid South Africa Anne-Marie Singh, 2016-04-22 Once a marginal political issue crime control now occupies a central place on the social political and economic agenda of contemporary liberal democracies Nowhere more so than in post apartheid South Africa where the transition from apartheid rule to democratic rule was marked by a shift in concern from political to criminal violence In this book Anne Marie Singh offers a comprehensive account of policing transformations in post apartheid South Africa Her analysis of crime and mechanisms for its control is linked to an analysis of neo liberal policies providing the basis for a critique of existing analyses of liberal democratic governance Themes addressed in the book include the exercise of coercive authority state and non state expertise in policing the rationally choosing criminal and the importance of developing an active and responsible citizenship
