Theology of Wagner's Ring Cycle II Richard H Bell, 2021-09-30 Wagner's Ring addresses fundamental concerns that have faced humanity down the centuries such as power and violence love and death freedom and fate Further the work seems particularly relevant today addressing as it does the fresh debates around the created order politics gender and sexuality In this second of two volumes on the theology of the Ring Richard Bell argues that Wagner's approach to these issues may open up new ways forward and offer a fresh perspective on some of the traditional questions of theology such as sacrifice redemption and fundamental questions about God A linchpin for Bell's approach is viewing the Ring in the light of the Jesus of Nazareth sketches which he argues confirms that the artwork does indeed address questions of Christian theology both for those inside and those outside the church

Theology of Wagner's Ring Cycle I Richard H Bell, 2021-07-29 Wagner's Ring is one of the greatest of all artworks of Western civilization but what is it all about The power and mystery of Wagner's creation was such that he himself felt he stood before his work as though before some puzzle A clue to the Ring's greatness lies in its multiple avenues of self disclosure and the corresponding plethora of interpretations that over the years has granted ample scope for directors and will no doubt do so well into the distant future One possible interpretation which Richard Bell argues should be taken seriously is the Ring as Christian theology In this first of two volumes Bell considers among other things how the composer's Christian interests may be detected in the forging of his Ring looking at how he appropriated his sources whether they be myths and sagas writers poets or philosophers and considering works composed around the same time especially his Jesus of Nazareth

personal identity and Gtterd mmerung destructively culminates with a tragi comedy about civic identity This study sees the Greeks through the lens of those scholars whose work influenced Wagner most focusing on epic lyric and comedy as well as Greek tragedy Most significantly the book interrogates the ways in which Wagner uses Greek aesthetics to further his own ideological goals
