Creolization in the Americas David Buisseret, Steven G. Reinhardt, 2000 Creolization the process of cultural interchange in this case between peoples of the continents bordering the Atlantic Ocean is an important aspect of the American experience Language literature food dress and social relations are all affected by the interplay of cultures Only recently though have scholars fully begun to understand creolization as a mutual exchange rather than the acculturation of colonized peoples to a dominant culture Focusing on diverse settings and different aspects of culture five scholars here examine the process of creolization its origins historical and modern meanings of the term and the various manifestations of the complex continuing process of cultural exchange and adaptation that began when Africans American Indians and Europeans came into contact with each other While the authors vary in their approaches and in some respects their conclusions they essentially agree that the notion of cultural syncretism whether described as acculturation or creolization is a conceptual tool of crucial importance for analyzing the interchange that occurred between peoples of Europe and the Americas Contributors to this ground breaking volume and their respective chapters are David Buisseret The Process of Creolization in Seventeenth Century Jamaica Daniel H Usner Jr The Facility Offered by the Country The Creolization of Agriculture in the Lower Mississippi Valley Mary L Galvin Decoctions for Carolinians The Creation of a Creole Medicine Chest in Colonial South Carolina Richard Cullen Rath Drums and Power Ways of Creolizing Music in Coastal South Carolina and Georgia 1730 1790 and J L Dillard The Evidence for Pidgin Creolization in Early American English Buisseret also contributes an introduction that places the other articles within the context of recent scholarship on creolization

Representations of the Orient in Western Music Nasser Al-Taei, 2017-07-05 This book focuses on the cultural political and religious representations of the Orient in Western music Dr Nasser Al Taei traces several threads in a vast repertoire of musical representations concentrating primarily on the images of violence and sensuality Al Taei argues that these prevailing traits are not only the residual manifestation of the Ottoman threat to Western Europe but also the continuation of a long and complex history of fear and fascination towards the Orient and its Islamic religion In addition to analyses of musical works Al Taei draws on travel accounts paintings

biographies and political events to engage with important issues such as gender race and religious differences that may have contributed to the variously complex images of the Orient in Western music The study extends the range of Orientalism to cover eighteenth century Austria nineteenth century Russia and twentieth century America The book challenges those scholars who do not see Orientalism as problematic and tend to ignore the role of musical representations in shaping the image of the Other within a wider interdisciplinary study of knowledge and power **Staying Power** Peter

Fryer,2010-09-06 Staying Power is recognised as the definitive history of black people in Britain an epic story that begins with the Roman conquest and continues to this day BR BR In a comprehensive account Peter Fryer reveals how Africans Asians and their descendants previously hidden from history have profoundly influenced and shaped events in Britain over the course of the last two thousand years BR BR This edition includes a foreword by Paul Gilroy explaining the genesis of the book and its continuing significance in black history today **Observations on the Florid Song** Pier Francesco Tosi,1743

Symphony no. 2 in D Minor, op. 24 ("Jullien") George Frederick Bristow, 2011-01-01 URL <https://www.areditions.com/rrrra/a072.html> George Frederick Bristow 1825-98 American composer conductor teacher and performer was a pillar of the New York musical community for the second half of the nineteenth century His participation in an important mid century battle of words between William Henry Fry and the journalist Richard Storrs Willis and concerning a lack of support for American composers by the Philharmonic Society has unfortunately overshadowed his accomplishments as a composer which were significant Bristow is remembered today primarily for his opera Rip van Winkle 1855 and oratorio Daniel 1866 but he was also a skillful and productive composer of orchestral music one of only a handful of American orchestral composers active at mid century Bristow wrote his Symphony no 2 Jullien in 1853 It is a substantial work in four movements scored for the standard orchestra of the early nineteenth century and strongly influenced by the personal styles of Beethoven and Mendelssohn whose works were performed regularly by the Philharmonic Society The symphony is skillfully crafted melodious and an intrinsically worthy work of musical artistry It was named to honor the French conductor Louis Jullien who visited the United States in 1853-54 with an unparalleled orchestra While in the United States Jullien both commissioned and performed American works including this symphony his support served as the catalyst for the Fry Willis battle The introductory essay to this symphony examines Bristow's career the composition of orchestral music in America at mid century and Jullien's role in the musical battle the edition makes available for the first time an important work that has been undeservedly forgotten for over 150 years

Tuning the Antipodes: Battles for performing pitch in Melbourne Simon Purtell, 2016-12-01 Examining the many controversies associated with pitch standards in Melbourne over more than a hundred years Simon Purtell discovers their impact on the tuning of the city's orchestras and organs as well as its defence municipal and Salvation Army bands This

fascinating history involves famous local and touring singers conductors and organists including Nellie Melba Malcolm Sargent and William McKie revealing just how complex a problem it was to ensure that Melbourne's music makers remained in tune Harry Potter and the Cursed Child has nothing on the saga of Pitch pitch that cursed pitch the seemingly endless and frequently caustic attempts to establish a uniform performing pitch for music in the Antipodes It is a typically Melburnian drama of mixed deference to Britain and stubborn upholding of local interests that the author so eloquently and patiently chronicles and it ranges from the almost theocratic intervention of Dame Nellie Melba at the beginning of the twentieth century to the Stanthorpe Apple and Grape Harvest Festival of 1972 At the same time it will have been a battle taking place comparably in all the major cities of the British Empire and beyond though each with its peculiar twists and turns What Simon Purtell has done is show us in immaculate detail just how pervasive and intricate not to mention costly this tectonic realignment of a fundamental element of musical infrastructure must have been in all places over a very long period of time Emeritus Professor Stephen Banfield Centre for the History of Music in Britain the Empire and the Commonwealth University of Bristol
