Studies in Weimar Classicism Roger H. Stephenson, 2010 This book is a study of central aspects of Weimar Classicism written in the light of Ernst Cassirer's cultural theory. It provides a close reading of key texts ranging across Goethe and Schiller's oeuvre as a whole from their philosophical poems through their drama prose writing and theoretical reflections on cultural and scientific topics. The work seeks to demonstrate the attested but hitherto largely unanalysed aesthetic power at the very heart of their writings which in turn underpins their epistemological and ethical significance. The main theme of Weimar Classicism is the role of symbolism in Classicism as distinct from the centrality of semiosis in competing cultural norms. The overall aim of the book is thus to see Weimar Classicism anew both historically and analytically as an enlightening context in which to reconsider many of the central tenets of contemporary often called postmodern cultural theory.
