Controversies in the Management of Lymphomas John M. Bennett, 2012-12-06 Where do you begin to look for a recent authoritative article on the diagnosis or management of a particular malignancy The few general oncology textbooks are generally out of date Single papers in specialized journals are informative but seldom comprehensive these are more often preliminary reports on a very limited number of patients Certain general journals frequently publish good in depth reviews of cancer topics and published symposium lectures are often the best overviews available Unfortunately these reviews and supplements appear sporadically and the reader can never be sure when a topic of special interest will be covered Cancer Treatment and Research is a series of authoritative volumes which aim to meet this need It is an attempt to establish a critical mass of oncology literature covering virtually all oncology topics revised frequently to keep the coverage up to date easily available on a single library shelf or by a single personal subscription We have approached the problem in the following fashion First by dividing the oncology literature into specific subdivisions such as lung cancer genitourinary cancer pediatric oncology etc Second by asking eminent authorities in each of these areas to edit a volume on the specific topic on an annual or biannual basis Each topic and tumor type is covered in a volume appearing frequently and predictably discussing current diagnosis staging markers all forms of treatment modalities basic biology and more *Imaging in Oncology* Janet Husband, Rodney H. Reznick, Janet E. Husband, 2016-04-19 Building on the foundation laid down by the first edition the 1998 winner of the Royal Society's award for the Multi author Textbook of the Year *Imaging in Oncology* Second Edition presents an extensively referenced evidence based analysis of the role of imaging in planning treatment Emphasizing image interpretation for tumor staging and follow Animal Cancer Research Act United States.
