Democracy and Deterrence: Foundations for an Enduring World Peace Walter Gary Sharp, 2009-05 Two fundamental strategies are necessary to create lasting peace in the world facilitating the spread of democracy and maintaining comprehensive deterrence mechanisms targeted at individual world leaders Sharp surveys conventional approaches to avoiding war and presents evidence to validate the democratic peace principle the notion that democracies are inherently more peaceful than non democracies and the incentive theory of war avoidance formulated by John Norton Moore Sharp proposes a mathematical formula that can be used to predict the probability of peace for a given nation

From Cape to Congo Mwesiga Laurent Baregu, Chris Landsberg, 2003 From the ongoing war in Angola to sporadic instability in Zimbabwe and Lesotho to the conflict in Congo to issues of land reform and the ravages of AIDS southern Africa faces varied and complex threats to its peace and security The authors of *From Cape to Congo* assess the region s major security challenges as well as the roles of local regional and external actors in managing them Their theoretically informed but practical approach encompasses the political economic and military arenas

Democracy and Deterrence Walter Gary Sharp, 2008 Examines the causes of warfare in the context of a deterrence model or specifically the deterrence factors inherent in the checks and balances of a democratic state and the absence of such factors in the nondemocratic state Sharp analyzes the concepts in John Norton Moore s seminal work *Solving the War Puzzle* 2005 i e 2004

which describes Moore's incentive theory of war avoidance Forward ix Protection Against Genocide Neal Riemer, 2000-03-30 Without succumbing to utopian fantasies or realistic pessimism Riemer and his contributors call for strengthening the key institutions of a global human rights regime developing an effective policy of prudent prevention of genocide working out a sagacious strategy of keenly targeted sanctions political economic military judicial and adopting a guiding philosophy of just humanitarian intervention They underscore significant changes in the international system the end of the Cold War economic globalization the communications revolution that hold open the opportunity for significant if modest movement toward strengthening key institutions The essays explore key problems in working toward prevention of genocide They highlight the existence of considerable early warning of genocide and emphasize that the real problem is a lack of political will in key global institutions Sanctions especially economic sanctions may punish a genocidal regime but at the expense of innocent civilians Thus more clearly targeted sanctions are seen as essential The argument on behalf of a standing police force to deal with the crime of genocide as they show is powerful and controversial powerful because the need is persuasive controversial because political realists question its cost and political feasibility Implementing a philosophy of just humanitarian intervention requires an appreciation of the difficulties of interpreting those principles in difficult concrete situations A permanent international criminal tribunal to deter and punish genocide they argue will put into place a much needed component of a global human rights regime A thoughtful analysis for scholars and students of international politics and law and human rights in general Geopolitical Traditions David Atkinson, Klaus Dodds, 2002-09-26 Geopolitical Traditions brings together scholars working in a variety of disciplines and locations in order to explore a hundred years of geopolitical thought **Peacemaking by Democracies** Norrin M. Ripsman, 2010-11-01 Challenging this assumption Peacemaking by Democracies breaks down the category of democracy to argue that differences in structural autonomy among democratic states have a lot to do with how foreign security policies are chosen and international negotiations are carried out The more structural autonomy the foreign security policy executive possesses the greater the policy independence from public and legislative opinion it is able to achieve Jacket The Peacebuilding Process in Postwar Liberia Alžběta Šváblová, 2021 Who are the most important actors in the peacebuilding process in post war Liberia How do they interact in specific institutions on the ground and what are the factors behind the slow pace of the post war reform process This book designed as a qualitative case study with a strong descriptive component provides answers to these questions It highlights the importance of the domestic political landscape for the ultimate fate of the reforms and the role of influential individuals in the process Its findings indicate that despite a rich critical academic debate the current practice of peacebuilding remains shaped by the neo liberal paradigm and remains rather disconnected from the post conflict realities and individuals on the ground *Soviet Strategic Thought, 1917-91* Andrei A. Kokoshin, 1998-01-15 During the Cold War Westerners were obsessed with the military policies of the Soviet Union Until the demise of the Soviet Union however few

details of Moscow's thinking on military matters were available. In this book Andrei Kokoshin reveals how Soviet military theorists developed and debated the concepts that provided the basis for the Kremlin's defense policies. Drawing on Soviet era archives and unpublished materials he sheds light on this important chapter in the history of Russia and the world. The book covers three main themes: the relationship between politics and military strategy in the Soviet Union; how the Soviet political and military leadership assessed threats to Soviet security; the nature of future wars and methods of warfare; and the relationship between offense and defense in Soviet military strategy. Kokoshin places the strategic concepts behind Moscow's military policies in the context of internal and international struggles for power and assesses the future role of military power in Russia's national security strategy.

Georgievich Arbatov, 1997. This collaborative effort by Russian and American scholars documents Russian policy toward ethnic national conflict in its near abroad; American policy toward these conflicts; and the attempts of international organizations to prevent and resolve them. Government Policies and Ethnic Relations in Asia and the Pacific Michael E. Brown, Sumit Ganguly, 1997-10-20. Efforts to contend with

tensions inherent in multiethnic societies: case studies of India, Pakistan, Sri Lanka, Burma, Thailand, Malaysia, Singapore, Indonesia, the Philippines, China, Australia, New Zealand, Papua New Guinea, Fiji, Vanuatu, and the Federated States of Micronesia. Ethnic conflict, one of the most serious and widespread problems in the world today, can undermine efforts to promote political and economic development as well as political, economic, and social justice. It can also lead to violence and open warfare, producing horrifying levels of death and destruction. Although government policies on ethnic issues often have profound effects on a country, the subject has been neglected by most scholars and analysts. This volume analyzes different policies governments have pursued in their efforts to contend with the tensions inherent in multiethnic societies. The book focuses on Asia and the Pacific, the most populous and economically vibrant part of the world. The heart of the book is a set of case studies of government policies in sixteen countries: India, Pakistan, Sri Lanka, Burma, Thailand, Malaysia, Singapore, Indonesia, the Philippines, China, Australia, New Zealand, Papua New Guinea, Fiji, Vanuatu, and the Federated States of Micronesia. The studies consider a wide range of political, economic, educational, linguistic, and cultural policies and how these policies have evolved over time. Using a broad comparative perspective to assess the effectiveness of different governmental approaches, the authors offer policy recommendations that cut across individual countries and regions.

Allies Divided

Robert D. Blackwill, Michael Stürmer, 1997. Many Transatlantic security concerns in the coming decades will originate not in Europe but in the Greater Middle East, which encompasses the area from the Maghreb to the Caspian basin. This volume juxtaposes essays from U.S. and European scholars on selected areas and issues: the Arab-Israeli peace process, the Persian Gulf, Turkey, and the Caspian Basin; the proliferation of weapons of mass destruction; and military force projection. Each author

considers American and European strategies toward a particular issue and makes suggestions for future policy collaboration between the countries on both sides of the Atlantic **Political Science Quarterly** Columbia University. International and Regional Security Benjamin Miller,2016-11-10 This volume is a collection of the best essays of Professor Benjamin Miller on the subjects of international and regional security The book analyses the interrelationships between international politics and regional and national security with a special focus on the sources of international conflict and collaboration and the causes of war and peace More specifically it explains the sources of intended and unintended great power conflict and collaboration The book also accounts for the sources of regional war and peace by developing the concept of the state to nation balance Thus the volume is able to explain the variations in the outcomes of great power interventions and the differences in the level and type of war and peace in different eras and various parts of the world For example the book s model can account for recent outcomes such as the effects of the 2003 American intervention in Iraq the post 2011 Arab Spring and the conflicts between Russia and Ukraine The book also provides a model for explaining the changes in American grand strategy with a special focus on accounting for the causes of the invasion of Iraq in 2003 Finally the book addresses the debate on the future of war and peace in the 21st century This book will be essential reading for students of international security regional security Middle Eastern politics foreign policy and IR **Hellenic Studies** ,2000 *The British National Bibliography* Arthur James Wells,1998

Paths to Peace Miriam Fendius Elman,1997 Many political scientists have hailed the apparent existence of Democratic Peace the absence of wars between democracies as proof that a world of democracies would be a world without war This idea challenges traditional approaches to international politics which focus on the balance of power between states regardless of their political systems It also has important implications for world politics especially as President Clinton has made the promotion of democracy a cornerstone of U S foreign policy on the grounds that democracies never fight each other This volume examines historical cases that shed light on various arguments that might account for a Democratic Peace Focusing on international crises between democratic democratic nondemocratic and nondemocratic pairs of states that either escalated to war or were resolved peacefully *Paths to Peace* explores the extent to which domestic norms and institutions influence threat perceptions and the process of foreign policymaking Cases involving democratic pairs include the Anglo French entente cordiale the Spanish American War Anglo American peace since 1815 and Finland versus the Western democracies in World War II Cases involving democracies and nondemocratic counterparts include the British Argentine war over the Falklands the Indo Pakistani conflict and Israel s

invasion of Lebanon Finally cases involving nondemocratic relationships include events such as the Iran Iraq War and examples of nondemocratic peace such as the resolution of crises between Peru and Colombia Indonesia and Malaysia and Turkey and Greece Contributors Kurt Dassel Miriam Fendius Elman Lawrence Freedman Sumit Ganguly Arie M Kacowicz Christopher Layne Martin Malin John C Matthews III John M Owen Stephen R Rock
