ing on the payoff from scientific inquiry cannot be ignored. The committee has identified six major factors that, if successfully addressed, could optimize the gains made in each area of drug abuse research: stable funding; use of a comprehensive public health framework; wider acceptance of a medical model of drug dependence; better translation of research findings into practice; raising the status of drug abuse research; and facilitating interdisciplinary research.

Stable Funding

A stable level of funding in any area of biomedical research is needed to sustain and build on research accomplishments, to retain a cadre of experts in a field, and to attract young investigators. Drug abuse research, in comparison with many other research venues, has not enjoyed consistent federal support (IOM, 1990, 1995; see also Appendix B). The field has suffered from difficulties in recruiting and retaining young researchers and clinicians and in maintaining a stable research infrastructure (IOM, 1995). Society's capacity to contain and manage drug abuse
