Second Chance R Richard, 2010-07-01 In the 11th novel in the series Justin Imperiale is now the King of Ariby The nation of Mesodania to the North of Ariby is threatening war Justin s forces are outnumbered and he must develop a strategy to quickly defeat the powerful Army of Mesodania Justin then talks with the more powerful nations on Corin and tells them Help me defeat the Mesodanians or you get no oil Mesodania then invades its much small neighbour Characene to start a war The battle quickly settles into Justin s outnumbered advanced technology forces against the superior numbers of the Mesodanian Army with lots of action Justin then involves the Cleg people in the North of Mesodania in the war and the Mesodanian Army now faces a two front war Finally Justin destroys the communications facilities of the Dictator of Mesodania insuring defeat for the Dictator s forces With the war won Justin now has to win the peace and he pursues a strategy to convince the

conquered people that they're better off with him as King. Then the neighbouring nation of Avuls issues a challenge that Justin can't ignore. Avuls claims that Justin isn't the King of The Sky and that they have a warrior who can defeat him in single combat. Justin has to hope that his planning, preparation and some paranormal help will allow him to defeat a giant Arquellian warrior from off Corin. The series continues with the same kind of exciting action as the earlier novels. [Chance, Necessity, Love](#) Leonard M. Hummel, Gayle E. Woloschak, 2017-07-18 What exactly is cancer? And where is God and what is love amidst the complex evolutionary development of all cancers? In *Chance Necessity Love: An Evolutionary Theology of Cancer* Hummel and Woloschak address these questions that arise for many people with cancer and in all who grapple with making meaning of science about cancers. In order to do so, the authors first clarify new scientific findings about cancer and then offer faithful and wise theological perspectives on these discoveries. In doing so, they make plain what cannot and can be changed about cancer. And in doing so, they show how cancer is an evolutionary disease that develops according to the same dynamics of chance, that is, random occurrences and necessity, law-like regularities at work in all other evolutionary phenomena. Therefore, they ask where is God and what is love within the evolutionary chance and necessity operative throughout all aspects of cancer. They offer the readers thoughtful responses to this question and many others: life, death, hope, acceptance and love given the evolutionary nature of cancer. **Chance or Providence** Louise Hickman, 2014-11-10 Belief in some sort of providence is widespread even among those who do not profess any kind of conventional religious faith. The belief that some sort of benevolent divine force directs the events of the universe is one that has shaped our philosophical and theological convictions together with our economic and social political landscape. The 2013 conference of the Science and Religion Forum was convened to discuss some of the most pressing questions that arise from a consideration of providence: Is a belief in providence compatible with freedom? What of the suffering of non-human creatures? Should providence be thought of as general or as special intervention? How might a belief in providence be squared with the challenges raised by scientific naturalism and the theory of evolution? This book presents chapters that originated from that conference and explores a variety of responses to these critical questions. Insights from both science and theology are drawn together by some of the leading thinkers in this field. The result is a contribution to the theology of providence which will be of substantial value to all those interested in the conversation between science and religion. **A Journey of Serendipity** Pasquale De Marco, 2025-04-12 In the tapestry of life where the threads of chance and destiny intertwine, there lies a hidden treasure: the art of serendipity.
