Patinaje En Linea:

Juegos aplicados a la enseñanza del patinaje en línea Víctor Jesús Moreno Alcaraz,Antonio Cejudo

Palomo,2021-12-06 El patinaje en linea ha experimentado un gran auge en los últimos años siendo cada vez mayor el número de patinadores y patinadoras de todas las edades tanto niños y niñas como adultos que se inician en esta práctica. Como consecuencia de este reciente auge cada vez son más las escuelas de patinaje que abren sus puertas para atender la demanda creciente de estos patinadores tanto de forma privada como es el caso de clubes deportivos y asociaciones como en colegios con la incorporación del patinaje a las actividades extraescolares. Además de la creación de escuelas de patinaje cada vez son más los maestros y profesores de Educación Física que están incluyendo en sus programaciones unidades didácticas y actividades de patinaje como medio para el desarrollo del currículo en las diferentes etapas y niveles educativos. Desde el punto de vista del docente el presente libro pretende aportar nuevas ideas y recursos a los monitores, entrenadores y profesionales de la educación en general que se dediquen o quieran iniciarse en la enseñanza del patinaje en cualquiera de sus facetas siendo un material práctico y un complemento muy adecuado para incluir y aplicar en sus clases diarias y en su programación. También en este libro se aportan aspectos fundamentales de seguridad a tener en cuenta a la hora de poner en práctica estos juegos así como medidas de prevención para evitar accidentes de manera que se consigan obtener los mayores beneficios con los niños riesgos.

Jovenes Patinadores en Linea Chris Edwards,1997-03 Presenta información básica sobre las habilidades esenciales técnicas y equipos para el deporte popular del patinaje en linea.

Juegos y actividades sobre patines en línea. El hockey en la escuela. Unidades didácticas para Secundaria VI Jordi Díaz Burrull,1997 La aplicación de la Reforma Educativa ha Enriquecido de tal forma el área de Educación Física que ha adquirido un status que era inimaginable en el sistema anterior. Al pleno reconocimiento dentro del currículum académico se ha añadido la extensión de la formación universitaria de especialistas lo que ha provocado en los últimos años una innegable expansión cuantitativa y cualitativa de propuestas educativas dentro de este área. La primera unidad didáctica Juegos y actividades sobre patines en linea está configurada en torno a un eje común la utilización de este medio de desplazamiento pero va más allá del simple uso de un instrumento deslizante. No es una serie de valores añadidos a la simple oferta de actividad física que le hacen adquirir un enorme interés desde el punto de vista educativo social y deportivo. La segunda unidad didáctica El hockey en la escuela trata de incorporar el aprendizaje y la práctica de un nuevo deporte al sistema educativo. El hecho de programar una gran diversidad de prácticas deportivas en la oferta formativa del área de Educación Física es interesante por sí mismo pero en este caso la proposición del autor tiene el aliciente de presentar un deporte que ha proporcionado grandes éxitos al deporte español.
