provocative 1971 essay Today her insightful critique serves as a benchmark against which the progress of women artists may
be measured In this book four prominent critics and curators describe the impact of women artists on contemporary art since
the advent of the feminist movement Philippe Van Snick Marie-Pascale Gildemyn,2010 This publication is the first career
encompassing monographic study of the artistic production of Philippe Van Snick The result of a long term collaboration
between the artist a team of researchers and a group of designers it serves as an instrument for discovering Van Snick s
oeuvre as a totality This book reveals Van Snick s long standing experimentation with a wide variety of materials and
techniques such as drawings and works on paper photography film sculptures and works in situ A red thread through the
artworks is their close ties to everyday reality life and nature Contemporary Sculptors of the Low Countries Marc

Robbrecht and Hilde Daem can be considered as leading protagonists of their generation From their education at Sint Lucas
Institute and the Academy of Fine Arts to the present day their professional careers and legacy have been of great
importance to the development of Flemish architecture In their early works and writings they established a distinct
architectural language rooted in historical knowledge and with a reflection to art and craftsmanship Architecture was singled
out as a spatial phenomenon with an autonomous logic grounded in inhabitation and experience This generation represents a
significant turn towards architectural autonomy in Flanders which resonated with similar international developments in the
late 1970s Moreover they played a decisive role in the emancipation and professionalization of the architectural culture in
