The year 1774 was a sea of turbulence in America. The brigantine Peggy Stewart sailed in this sea laden with a cargo of unbridled hatred and undying love. The tides of social change ebbed and flowed while the winds of newfound faith pushed those who had to cleave unto this ship to uncertain destinies. At a critical time for those touched by the Peggy Stewart, a simple message of faith reached across the Atlantic to transform despair into hope. *Cleave* is a word in English that though spelled the same has diametrically opposite meanings. The definitions of the word cleave found in modern dictionaries validate that it is indeed contradictory: cleave to divide or cleave to cling. This word is an apt description of today's American society. Ask almost anyone today about the political mood of the United States, and they will begin to describe how America is deeply divided. United States. Many believe we have unreconcilable differences as never seen before. This novel seeks to contest this belief and to tell an old American story when our political cleave, a division, led to dreadful violence, right or wrong, but ultimately to a cleave, a clinging together, and eventually the birth of a United States of America. What is often lost to most in a simple narrative of pre-Revolutionary history is the turmoil up and down the Atlantic Coast preceding and following the Tea Party in Boston. Our ship, the brigantine Peggy Stewart, sailed into infamy in this 1774 sea of turmoil on American land. Ordinary folks like you and I, farmers, merchants, seamen, and laborers, were pulled and pushed by the tides and winds of social change. So we were then, so we are today. Are you aboard? 2 **Patriot Acts** Catherine Crier, 2011-11-01

WHY WE NEED THE TRUTH THE WHOLE TRUTH AND NOTHING BUT THE TRUTH. The noise from both Washington and the media is deafening; the deeds of our lawmakers alarming. America needs a break from the posturing and the politicking. We need information: how we got here and where we are headed. Catherine Crier, one of the most respected figures in television journalism, presents an incisive, unbiased analysis of America's political crisis, delivering a message we cannot afford to ignore. America must move beyond political parties to invest in our nation's future. Not just with money, but with vision, wisdom, and reason. Looking back at the foundations of our country, from Adam Smith to Alexander Hamilton, from Jefferson to Roosevelt,

Crier cuts through the nonsense to show what really works and doesn't work for our nation today including The staggering disconnect between the financial health of corporations and the well being of consumers that defies everything Adam Smith wrote about free enterprise The role that government must play in regulations and job creation and how the Republican Party's anti government rhetoric would appall the founders of American conservatism Why our health care system is not the best in the world but the most mismanaged and bloated and how to change it How today's vitriolic partisan politics are in direct opposition to the very democracy on which our country is founded Americans love our country deeply and when told we're losing it nothing can stop us from fighting But there seems to be a lot of confusion these days about the mission What exactly did the Founders establish What is now at risk and what must be done to preserve the Republic Our Founders created a constitutional government that would protect and promote a free and diverse society Those who argue otherwise are misleading you intentionally or are ignorant of historical facts As a patriot I believe that our founding principles and system of governing are not negotiable We must recognize the difference between honest debate over policies and philosophy and those measures that skew or upend our extraordinary system for partisan advantage Such tactics may produce short term gains but in the end everyone loses From Patriot Acts The American Indian Magazine, 1916 *A Patriot's A to Z of America* Edward Moser, 2011-11-09 America is a nation of firsts from its pioneering innovation in technology and science to its politics social affairs and culture But despite its intriguing and unique history many Americans aren't as well versed as they think they are when it comes to knowledge of the monumental events people and ideas that shaped this revolutionary country Chock full of surprising snippets of history you should know about A Patriot's A to Z of America Things Every Good American Should Know is the eye opening remedy for every aspiring good American featuring heroic events and creative individuals who surmounted great difficulties to achieve great things going to the moon wiring the planet defeating the Nazis setting up the first large democratic republic and largely banishing starvation overseas achievements of which no other nation can boast Organized from A to Z these exceptional tales are America's to tell and for you to discover *The Patriot*, 1819 **The Partly Cloudy Patriot** Sarah Vowell, 2003-10 The author shares her perspective on such topics as the 2000 election present day civil rights activists and the relationship between the United States and Canada **The American Manual and Patriot's Handbook** Bp.
