Moya, 2011 This Oxford Handbook comprehensively examines the field of Latin American history The Deadlock of Democracy in Brazil Barry Ames, 2009-01-22 A sophisticated application of rational choice theory Conservative Parties, the Right, and Democracy in Latin America Kevin J. Middlebrook, 2000-09-29 Under what conditions do political institutions develop that are capable of promoting economic and social elites accommodation to democracy The importance of this question for research on regime change and democracy in Latin America lies in two established political facts alliances between upper class groups and the armed forces have historically been a major cause of military intervention in the region and countries with electorally viable national conservative parties have experienced significantly longer periods of democratic governance since the 1920s and 1930s than have countries with weak conservative parties The contributors to this book examine the relationship between the Right and democracy in Argentina Brazil Chile Colombia El Salvador Peru and Venezuela during the 1980s and 1990s The authors focus particularly on the challenges that democratization may pose to upper class groups the political role of conservative parties and their electoral performance during these two crucial decades and the relationships among conservative party strength or weakness different modes of

State, and Armed Forces in Independence-Era Brazil Hendrik Kraay, 2004-08-01 Focusing on the military institutions army militia and National Guard of Bahia Brazil this book analyzes the region's transition from Portuguese colony to province of the Brazilian Empire It examines the social racial and cultural dimensions of post independence state building in one of the principal slave plantation regions of the Americas Contrary to those who stress the autonomy of the Brazilian state this book documents the close connections between the locally organized armed forces and society in the late colonial period Racially segregated and mirroring the class hierarchies of the larger society these military institutions were profoundly transformed by the war for independence in the early 1820s In its aftermath the new Brazilian state gradually built a national army breaking the local orientation of the Bahian regulars by the 1840s The National Guard locally oriented and democratic in its 1831 organization was turned into a state controlled corporation in the 1840s These developments deeply affected the lives of the men and women involved in the armed forces and a main aim of this book is to examine their participation in the complex and convoluted process of state building The liberalism used to justify independence and the creation of an imperial state resonated among ordinary soldiers and officers as it provided an ideology and language with which to challenge important features of late colonial military organization such as racial segregation and corporal punishment Racial discrimination formally eliminated in the 1830s shaped racial politics in the military while the construction of a national army undermined the previously close connections of officers and soldiers to the mainstream of Bahian society Water and War at Pyreneus Mountains: Historical Eco-Archaeology of Lavras do Abade Diogo M. Costa, 2011-02 The Lavras do Abade research is a multiple perspective archaeological study about the environmental impacts of a gold mining village in Mid Western Brazil that was destroyed by neighboring villages at the end of the nineteenth century According to local narratives the conflict was the consequence of a dispute about the control and use of natural resources such as water However this investigation reveals that the conflict was caused also by economic and political disputes between the villages in the region In this work each stage of investigation is presented in separate chapters Research was conducted to validate hypotheses and
