Literary Motifs and Patterns in the Hebrew Bible Shemaryahu Talmon, 2013-07-01 This collection gathers together Professor Shemaryahu Talmon's contributions to the literary study of the Bible and complements his acclaimed Literary Studies in the Hebrew Bible Form and Content Collected

Studies Jerusalem Magnes Leiden Brill 1993 The articles included herein span a broad range of topics closely and comprehensively assessing fundamental themes and stylistic conceits present in biblical literature Each study picks up one of these motifs or patterns and traces its meaning and usage throughout the entire Bible In Talmon's estimation these literary markers transcend all strata of the Bible and despite diachronic developments they retain their basic meanings and connotations throughout even when employed by different authors over a span of hundreds of years He demonstrates this convincingly by marshaling dozens of examples each of which is valuable in its own right and when taken all together these building blocks form a solid edifice that validate his approach He judiciously employs this synchronic method throughout frequently invoking an exegetical principle according to which one biblical verse can be employed to interpret the other if they are found in similar contexts and with overlapping formulation To use an expression that he coined elsewhere his hermeneutical method can be described first and foremost as The World of the Bible from Within Throughout the articles that appear in this volume one is repeatedly struck by his sensitivity to the language and style of the biblical authors He was blessed with a rich literary intuition and shares with his readers his ability to see hear and understand the rhythms and poetics of biblical literature In this volume many of Talmon's contributions are made accessible in fresh form to the benefit of both those who already know his work and to a newer generation of scholars for whom his work continues to prove important
