Pauahi The Kamehameha Legacy:

Pauahi George H. Kanahele, George S. Kanahele, 1986 **Speak Not** James Griffiths, 2021-10-21 A New Yorker Best Book of 2022 A Globe Mail Book of the Year A stimulating work on the politics of language LA Review of Books As globalisation continues languages are disappearing faster than ever leaving our planet's linguistic diversity leaping towards extinction The science of how languages are acquired is becoming more advanced and the internet is bringing us new ways of teaching the next generation however it is increasingly challenging for minority languages to survive in the face of a handful of hegemonic super tongues In **Speak Not** James Griffiths reports from the frontlines of the battle to preserve minority languages from his native Wales Hawaii and indigenous American nations to southern China and Hong Kong He explores the revival of the Welsh language as a blueprint for how to ensure new generations are not robbed of their linguistic heritage outlines how loss of indigenous languages is the direct result of colonialism and globalisation and examines how technology is both hindering and aiding the fight to prevent linguistic extinction Introducing readers to compelling characters and examining how indigenous communities are fighting for their languages Griffiths ultimately explores how languages hang on what happens when they don't and how indigenous tongues can be preserved and brought back from the brink

Who Owns the Crown Lands of Hawai'i? Jon M. Van Dyke, 2007-12-31 The 1846 1848 Mahele division transformed the lands of Hawai'i from a shared value into private property but left many issues unresolved Kamehameha III agreed to the Mahele which divided all land among the monarch the ali'i chiefs and the maka'āinana commoners in the hopes of keeping the lands in Hawaiian hands even if a foreign power claimed sovereignty over the Islands The king's share was further divided into Government and Crown Lands the latter managed personally by the ruler until a court decision in 1864 and a statute passed in 1865 declared that they could no longer be bought or sold by the monarch and should be maintained intact for future monarchs After the illegal overthrow of the monarchy in 1893 Government and Crown Lands were joined together and after annexation in 1898 they were managed as a public trust by the United States At statehood in 1959 all but 373 720 acres of Government and Crown Lands were transferred to the State of Hawai'i The legal status of Crown Lands remains controversial and misunderstood to this day In this engrossing work Jon Van Dyke describes and analyzes in detail the complex cultural and legal history of Hawai'i's Crown Lands He argues that these lands must be examined as a separate entity and their unique status recognized Government Lands were created to provide for the needs of the general population Crown Lands were part of the personal domain of Kamehameha III and evolved into a resource designed to support the monarch who in turn supported the Native Hawaiian people The question of who owns Hawai'i's Crown Lands today is of singular importance for Native Hawaiians in their quest for recognition and sovereignty and this volume will become a primary resource on a fundamental issue underlying Native Hawaiian birthrights 64 illus 6 maps Lost Kingdom Julia Flynn Siler, 2012-01-03 The New York Times bestselling author delivers a riveting saga about Big Sugar flexing

its imperialist muscle in Hawaii A real gem of a book Douglas Brinkley author of *American Moonshot* Deftly weaving together a memorable cast of characters *Lost Kingdom* brings to life the clash between a vulnerable Polynesian people and relentlessly expanding capitalist powers Portraits of royalty and rogues sugar barons and missionaries combine into a sweeping tale of the Hawaiian Kingdom's rise and fall At the center of the story is Lili'uokalani the last queen of Hawaii i Born in 1838 she lived through the nearly complete economic transformation of the islands Lucrative sugar plantations gradually subsumed the majority of the land owned almost exclusively by white planters dubbed the Sugar Kings Hawaii i became a prize in the contest between America Britain and France each seeking to expand their military and commercial influence in the Pacific The monarchy had become a figurehead victim to manipulation from the wealthy sugar plantation owners Lili'u was determined to enact a constitution to reinstate the monarchy's power but was outmaneuvered by the United States The annexation of Hawaii i had begun ushering in a new century of American imperialism An important chapter in our national history one that most Americans don't know but should The New York Times Book Review Siler gives us a riveting and intimate look at the rise and tragic fall of Hawaii's royal family A reminder that Hawaii remains one of the most breathtaking places in the world Even if the kingdom is lost *Fortune* A well researched nicely contextualized history Indeed one of the most audacious land grabs of the Gilded Age *Los Angeles Times*

Women Who Changed the World Candice Goucher, 2022-01-24 This indispensable reference work provides readers with the tools to reimagine world history through the lens of women's lived experiences Learning how women changed the world will change the ways the world looks at the past *Women Who Changed the World Their Lives Challenges and Accomplishments through History* features 200 biographies of notable women and offers readers an opportunity to explore the global past from a gendered perspective The women featured in this four volume set cover the full sweep of history from our ancestral forbearer Lucy to today's tennis phenoms Venus and Serena Williams Every walk of life is represented in these pages from powerful monarchs and politicians to talented artists and writers from inquisitive scientists to outspoken activists Each biography

follows a standardized format recounting the woman's life and accomplishments discussing the challenges she faced within her particular time and place in history and exploring the lasting legacy she left. A chronological listing of biographies makes it easy for readers to zero in on particular time periods while a further reading list at the end of each essay serves as a gateway to further exploration and study. High interest sidebars accompany many of the biographies offering more nuanced glimpses into the lives of these fascinating women.

The Seeds We Planted Noelani Goodyear-Ka'opua, 2013-03-22 In 1999 Noelani Goodyear-Ka'opua was among a group of young educators and parents who founded Hānau Kūmāna, a secondary school that remains one of the only Hawaiian culture-based charter schools in urban Honolulu. *The Seeds We Planted* tells the story of Hānau Kūmāna against the backdrop of the Hawaiian struggle for self-determination and the U.S. charter school movement, revealing a critical tension: the successes of a school celebrating indigenous culture are measured by the standards of settler colonialism. How, Goodyear-Ka'opua asks, does an indigenous people use schooling to maintain and transform a common sense of purpose and interconnection of nationhood in the face of forces of imperialism and colonialism? What roles do race, gender, and place play in these processes? Her book, with its richly descriptive portrait of indigenous education in one community, offers practical answers steeped in the remarkable and largely suppressed history of Hawaiian popular learning and literacy. This uniquely Hawaiian experience addresses broader concerns about what it means to enact indigenous cultural political resurgence while working within and against settler colonial structures. Ultimately, *The Seeds We Planted* shows that indigenous education can foster collective renewal and continuity.

Imperial Islands Joseph R. Hartman, 2021-11-30 When the USS Maine mysteriously exploded in Havana's harbor on February 15, 1898, the United States joined local rebel forces to avenge the Maine and liberate Cuba from the Spanish empire. Remember the Maine! To Hell with Spain! So went the popular slogan. Little did the Cubans know that the United States was not going to give them freedom in less than a year; the American flag replaced the Spanish flag over the various island colonies of Cuba, Guam, Puerto Rico, and the Philippines. Spurred by military successes and dreams of an island empire, the US annexed Hawai'i that same year, even establishing island colonies throughout Micronesia and the Antilles. With the new governmental orders of creating new art, architecture, monuments, and infrastructure from the United States, the island cultures of the Caribbean and Pacific were now caught in a strategic scope of a growing imperial power. These spatial and visual objects created a visible confrontation between local indigenous, African, Asian, Spanish, and US imperial expressions. These material and visual histories often go unacknowledged but serve as uncomplicated proof for the visible confrontation between the US and the new island territories. The essays in this volume contribute to an important art historical, visual, cultural, architectural, and materialist critique of a growing body of scholarship on the US Empire and the War of 1898. *Imperial Islands* seeks to reimagine the history and cultural politics of art, architecture, and visual experience in the US insular context. The authors of this volume propose a new direction of visual culture and spatial experience through nuanced terrains for writing, envisioning, and revising US, American, Caribbean, and

Pacific histories These original essays address the role of art and architecture in expressions of state power racialized and gendered representations of the United States and its island colonies and forms of resistance to US cultural presence Featuring interdisciplinary approaches Imperial Islands offers readers a new way of learning the ongoing significance of vision and experience in the US empire today particularly for Caribbean Latinx Pilipinx and Pacific Island communities

Pedagogies of the Image Hannah M. Tavares, 2016-06-15 This work considers the potential of photographs for orienting in a critical direction the scope questions and interests of the disciplinary conventions of the field of educational inquiry Visual objects may help illuminate broader socio-historical events and logics that are deeply entwined with education yet remain marginal to or outside of what constitutes its domain of study In this work photographic images are treated as resources for re-visioning the founding disciplinary objects of educational studies by reorienting its proper objects of study traditional archives persistent categories frames of reference and accepted portals of research and inquiry A theoretic framing shapes the question taken up in this work How might an engagement with photo archives open new horizons in the study of education from a postfoundationalist multi-theoretic and cross-disciplinary perspective The author constructs a rather unconventional vantage point to explore this question that opens on to the discursive spaces of three photographs made of three women in the years 1897 1949 and 1966 The photographs are analysed from three theoretic approaches First it is indicated how each photographic image not only marks a relationship to the past the present and the future but to the rules and conventions of photographic practices These particular images give an account of what both persists and exceeds the photographic image and permit to rewrite the bodies and lives pictured Second the subject matter of each photographic image while singular and local bears witness to the complex network of racial patriarchal and colonial logics and their profound imbrication with a technically mediated inscription For all their singularity the photographs cannot but evoke their relation to the deeply historical character of photography Finally the photographs make possible an account of broader occurrences subterranean histories contexts and differently situated experiences that illuminate much like the principle of montage a sequence of overlapping events crosscutting with one another consequently throwing open the possibility of responding to and transforming the histories and archives we are given This book *Pedagogies of the Image* is a winner of the 2017 American Educational Studies Association Critics Choice Award

Contemporary Immigration in America
Kathleen R. Arnold, 2015-02-03 State and local immigration issues and policies for all 50 states are thoroughly examined in this unique up to date and accessibly written encyclopedia Immigration continues to be a timely and often controversial

subject particularly regarding legislation at the state level While many books cover U S immigration both historical and contemporary few if any reference works examine the role of contemporary immigration in individual states This two volume encyclopedia fills that gap Chapters address legal social political and cultural issues of immigrant groups on a state by state basis and explore immigration trends and issues faced by individual ethnic populations The encyclopedia will enable students to research the impact contributions and issues of immigration for each state to make comparisons between states and regions of the United States and to understand state versus national policies By combining the history of immigration policy with current information the work shows readers that many of the issues making news today are the same as those the nation dealt with in past decades Studying state and local dynamics provide a unique perspective on this history *Captive*

Oceania and the Victorian Imagination Peter H. Hoffenberg, 2016-05-23 Oceania or the South Pacific loomed large in the Victorian popular imagination It was a world that interested the Victorians for many reasons all of which suggested to them that everything was possible there This collection of essays focuses on Oceania's impact on Victorian culture most notably travel writing photography international exhibitions literature and the world of children Each of these had significant impact The literature discussed affected mainly the middle and upper classes while exhibitions and photography reached down into the working classes as did missionary presentations The experience of children was central to the Pacific's effects as youthful encounters at exhibitions chapel home or school formed lifelong impressions and experience It would be difficult to fully understand the Victorians as they understood themselves without considering their engagement with Oceania While the contributions of India and Africa to the nineteenth century imagination have been well documented examinations of the contributions of Oceania have remained on the periphery of Victorian studies *Oceania and the Victorian Imagination* contributes significantly to our discussion of the non peripheral place of Oceania in Victorian culture
