Paul G Hoffman Architect Of Foreign Aid:

Paul G. Hoffman Alan R. Raucher, 2014-07-15 Having gained fame and success in business Paul G Hoffman went on to become involved in a wide range of public concerns In this new and revealing biography Alan R Raucher provides the first assessment of Hoffman's entire career beginning with his rise to the presidency of Studebaker and his success in applying progressive management to lift it from bankruptcy to profitability A firm believer in the automobile Hoffman became known as a sales genius as a promoter of the new human relations approach to labor management and as the industry s apostle of automotive safety Raucher follows the movement of Hoffman's career into the broad public arena Having developed a reputation as a progressive industrial statesman Hoffman was a logical choice in 1948 to become the first administrator of the Marshall Plan a key position in which he used economic foreign aid primarily to rebuild Western Europe in order to contain the spread of Communism As the Cold War continued he came to regard economic foreign aid as a necessary sacrifice and dismissed all suggestions that the U S actually gave away billions of dollars in order to promote its own prosperity Hoffman became convinced that foreign aid could promote peace and prosperity especially through economic development in the poorer countries As the first president of the new Ford Foundation as a confidant of President Eisenhower and as a top official of the U N Secretariat from the late 1950s to the early 1970s Hoffman continued to confront the problems of the emerging Third World in a career that sheds light on the rise of the powerful development establishment and on its attitudes and policies George F. Kennan and the Making of American Foreign Policy, 1947-1950 Wilson D. Miscamble, 1992 Discussion and decision within the State Department and beyond Miscamble argues that American foreign policy from 1947 to 1950 was not simply a working out of a clearly delineated strategy of containment Far from dictating policies the famous containment doctrine was formed by them in a piecemeal and pragmatic manner **Post-War Business** Planners in the United States, 1939-48 Charlie Whitham, 2016-10-20 During the Second World War several independent business organizations in the US devoted considerable energy to formulating and advocating social and economic policy options for the US government for implementation after the war This planning community of far sighted businessmen joined with academics and government officials in a nationwide endeavor to ensure that the colossal levels of productivity achieved by the US during wartime continued into the peace At its core this effort was part of a wider struggle between liberals moderates and conservatives over determining the economic and social responsibilities of government in the new post war order In this book Charlie Whitham draws on an abundance of unpublished primary material from private and public archives that includes the minutes memoranda policy statements and research studies of the major post war business planning organisations on a wide range of topics including monetary policy demobilization labor policy international trade and foreign affairs This is the untold story of how the post war business planners of all hues helped shape the moderate consensus which prevailed after 1945 over a permanent but limited government responsibility for fiscal welfare and labor affairs advanced

American interests overseas and established **The Globalization of Legal Education** Bryant G. Garth, Gregory C. Shaffer, 2022 Legal academics and practitioners in recent decades increasingly emphasize the so called globalization of legal education The diffusion of the Juris Doctor JD degree to Australia Hong Kong Japan and South Korea as well as the advent of a very similar Juris Master JM degree in China and a shift in the late 1980s and beyond to a new US influenced format in India exemplify shifts toward US legal education practices Flood 2014 The global and Americanizing trend is evident on the web sites of law schools around the globe with many law schools competing to be the most global in terms of their faculty curricula teaching methods and students Less pronounced but related to the literature on legal globalization is that on transnationalization and transnational processes which is a strong component of the move toward globalization in legal education As this book shows if we look to see what is celebrated as part of globalized law schools and faculties we see increased cross border flows of professors and students teaching of transnational legal subjects development of particular forms of teaching practice such as legal clinics explicit focus on transnational rankings and transnationalized scholarly communities sharing teaching and research methods and approaches across domains of law The End of Empathy John W. Compton, 2020-05-01 When polling data showed that an overwhelming 81% of white evangelicals had voted for Donald Trump in the 2016 presidential election commentators across the political spectrum were left aghast Even for a community that had been tracking further and further right for decades this support seemed decidedly out of step How after all could an amoral twice divorced businessman from New York garner such devoted admiration from the most vociferous of values voters That this same group had not a century earlier rallied national support for such progressive causes as a federal minimum wage child labor laws and civil rights made the Trump shift even harder to square In The End of Empathy John W Compton presents a nuanced portrait of the changing values of evangelical voters over the course of the last century To explain the rise of white Protestant social concern in the latter part of the nineteenth century and its sudden demise at the end of the twentieth Compton argues that religious conviction by itself is rarely sufficient to motivate empathetic political behavior When believers do act empathetically championing reforms that transfer resources or political influence to less privileged groups within society for example it is typically because strong religious institutions have compelled them to do so Citizens throughout the previous century had sought membership in churches as a means of ensuring upward mobility but a deterioration of mainline Protestant authority that started in the 1960s led large groups of white suburbanites to shift away from the mainline Protestant churches There to pick up the slack were larger evangelical congregations with conservative leaders who discouraged attempts by the government to promote a more equitable distribution of wealth and political authority That shift Compton argues explains the larger revolution in white Protestantism that brought us to this political **Crucible of Power** Howard Jones, 2009 Employing a narrative approach that uncovers the tangled and often moment confusing nature of foreign affairs Crucible of Power focuses on the personalities security interests and post war Cold War

C. Koistinen, 2004 Prolific munitions production keyed America's triumph in World War II but so did the complex economic controls needed to sustain that production Artillery tanks planes ships trucks and weaponry of every kind were constantly demanded by the military and readily supplied by American business While that relationship was remarkably successful in helping the U S win the war it also raised troubling issues about wartime economies that have never been fully resolved Paul Koistinen's fourth installment of a monumental five volume series on the political economy of American warfare focuses on the mobilization of national resources for a truly global war Koistinen comprehensively analyzes all relevant aspects of the World War II economy from

1940 through 1945 describing the nation s struggle to establish effective control over industrial supply and military demand and revealing the growing partnership between the corporate community and the armed services Koistinen traces the evolution of federal agencies mobilizing for war including the National Defense Advisory Commission the Office of Production Management and the Supply Priorities and Allocation Board and then focuses on the work of the War Production Board from 1942 1945 As the war progressed the WPB and related agencies oversaw the military s supply and procurement systems stabilized the economy while financing the war closely monitored labor relations and controlled the shipping and rationing of fuel and food In chronicling American mobilization Koistinen reveals how representatives of industry and the armed services expanded upon their growing prewar ties to shape policies for harnessing the economy and how federal agencies were subsequently riven with dissension as New Deal reformers and anti New Deal corporate elements battled for control over mobilization itself As the armed services emerged as the principal customers of a command economy the military industrial nexus consolidated its power and ultimately succeeded in bending the reformers to its will The product of exhaustive archival research Arsenal of World War II shows that mobilization meant more than simply harnessing the economy for war it also involved struggles for power and position among a great many interest groups and ideologies Nearly two decades in the making it provides an ambitious and enormously insightful overview of the emergence of the military industrial economy one that still resonates today as America continues to wage wars around the globe
