Linguist Steve Kaufmann,2005-11 The Way of The Linguist A language learning odyssey It is now a cliché that the world is a smaller place We think nothing of jumping on a plane to travel to another country or continent The most exotic locations are now destinations for mass tourism Small business people are dealing across frontiers and language barriers like never before The Internet brings different languages and cultures to our finger tips English the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication But historically periods of cultural and economic domination have never lasted forever Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures As citizens of this shrunken world would we not be better off if we were able to speak a few languages other than our own The answer is obviously yes Certainly Steve Kaufmann thinks so and in his busy life as a diplomat and businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia Why do not more people do the same In his book The Way of The Linguist A language learning odyssey Steve offers some answers Steve feels anyone can learn a language if they want to He points out some of the obstacles that hold people back Drawing on his adventures in Europe and Asia as a student and businessman he describes the rewards that come from knowing languages He relates his evolution as a language learner abroad and back in his native Canada and explains the kind of attitude that will enable others to achieve second

Cap in Hand Bruce Dowbiggin,Ryan Gauthier,2018-09-11 Iconic baseball writer Bill James in 1987 frustrated with MLB s labor stoppages and the decline of the minor leagues wrote that the minors were an abomination if you re selling a sport and the players don t care about winning that s not a sport That s a fraud an exhibition masquerading as a contest Bill imagined a better model and proposed that as opposed to limiting the number of teams in MLB to protect parity a free market was capable of sustaining many more franchises hundreds even if we would just allow it to sort out the level at which those cities might best compete Cap in Hand goes a step further arguing that a free market in sports teams and athletes once existed and could work again if the monopolists of MLB NFL NBA and NHL would simply relent from salary restraint schemes and reserve clause models that result in elite talent being spread as thinly as possible and mediocrity being rewarded via amateur drafts and equalization payments In fact the model for this exists and may be the most wildly popular and monetarily successful of all professional sports European football Cap In Hand asks what if the four major North American pro sports move beyond the restrictive covenants of the franchise model The product sold to fans today is a pale copy of what it might be if the market could guide the best players to the best teams whose ingenuity and innovation would inspire everyone to do better and put on a better show
