Paul Klee Paul Klee, 2008 The work of Paul Klee 1879 1940 was deeply influenced by his passion for the theater Throughout his life the artist fervently attended theatrical performances from the opera to puppet shows Characters from plays or operas Hamlet Falstaff and Don Giovanni for example populate his cryptic visual world Various types of characters and theatrical elements such as clowns and masks were firmly established themes in his visual repertoire Primarily though Klee created connections between the theater and life taking up the topos of the world as a stage people became actors or marionettes theatrical events touched upon scenes from everyday life This publication sheds light on all of these aspects of Klee's fascination for the theater A chronology gives a panoramic outline of his many experiences with the theater Selected works by contemporary artists make it clear that Klee was not the only one fascinated with the sharp eyed perception of theatrical situations the topic is one that continues to engage artists today **BOOK JACKET**

**In Defense of Don Giovanni** Luisa Passerini, 2024 Who wants to champion the figure of Don Giovanni in the time of Harvey Weinstein and MeToo Don Giovanni is a rapist murderer serial seducer and a liar Can he ever be held up as a role model or seen as a figure to be enjoyed This is the task that the eminent Italian historian and lifelong feminist Luisa Passerini sets for herself in In Defense of Don Giovanni As she developed the long arc of her distinguished career Don Giovanni surprisingly became not only her role model but also a secret object of research Taking her method from oral history Passerini creates a series of characters with whom she discusses the forms and incarnations of the myth of Don Giovanni across time from its first appearance in early medieval Spain and Commedia dell'Arte to its many European variations and its transposition to the colonial and postcolonial world in the Middle East the Americas and Africa Pivoting round Don Giovanni's best known incarnation in Mozart's opera Passerini and her interlocutors meet in different locations from Venice and Bern to Paris and Turin They discuss plays films and operas and talk about art novels and psychoanalytic interpretations of the myth while also sharing their own life stories in which Don Giovanni often plays a part that is by turns destructive mischievous and full of the joy of life From his early beginnings in the Iberian Peninsula to recent analysis of the sexuality of colonial conquest and postcolonial revenge and return Don Giovanni shape shifts between rapacious hypermasculinity comic trickster and morally vacuous loser whose annoyingly persistent nemesis Don Ottavio emerges as an alternative and ultimately better object of desire As she tracks Don Giovanni's image across the world and through the centuries however Passerini comes to see that it also plays another role that of mirror in which women can see themselves emerge as individuals with their own life force
