Protest and Survive James Lewes, 2003-07-30 Drawing from more than 120 newspapers published between 1968 and 1970 this study explores the emergence of an anti militarist subculture within the U S armed services These activists took the position that individual GIs could best challenge their subordination by working in concert with like minded servicemen through GI movement organizations whose behaviors and activities were then publicized in these underground newspapers In examining this movement Lewes focuses on their treatment of power and authority within the armed forces and how this mirrored the wider and more inclusive relations of power and authority in the United States He argues that this opposition among servicemen was the primary motivation for the United States to withdraw from Vietnam This first book length study of GI published underground newspapers sheds light on the utility of alternative media for movements of social change and provides information on how these movements are shaped by the environments in which they emerge Lewes asserts that one cannot understand GI opposition as an extension of the civilian antiwar movement Instead it was the product of an embedded environment whose inhabitants had been drafted or had enlisted to avoid the draft They came from cities and small towns whose populations were often polarized between those who wholeheartedly supported the war and those who became progressively more critical of the need for Americans to be involved in Vietnam

Disaster Citizenship Jacob A.C. Remes, 2015-12-30 A century ago governments buoyed by Progressive Era beliefs began to assume greater responsibility for protecting and rescuing citizens Yet the aftermath of two disasters in the United States Canada borderlands the Salem Fire of 1914 and the Halifax Explosion of 1917 saw working class survivors instead turn to friends neighbors coworkers and family members for succor and aid Both official and unofficial responses meanwhile showed how the United States and Canada were linked by experts workers and money In *Disaster Citizenship* Jacob A C Remes draws on histories of the Salem and Halifax events to explore the institutions both formal and informal that ordinary people relied upon in times of crisis He explores patterns and traditions of self help informal order and solidarity and details how people adapted these traditions when necessary Yet as he shows these methods though often quick and effective remained illegible to reformers Indeed soldiers social workers and reformers wielding extraordinary emergency powers challenged these grassroots practices to impose progressive solutions on what they wrongly imagined to be a fractured social landscape
